# Welcome to Qwest®

---

This guide will familiarize you with wireless service and your new phone through simple, easy-to-follow instructions. It's all right here – from setting up your account passwords and voicemail to using the most advanced features of your new phone.

**Welcome and thank you for choosing Qwest®.**

# Introduction

---

This **Phone Guide** introduces you to wireless service and all the features of your new phone. It's divided into four sections:

- ◆ **Section 1:** Getting Started
- ◆ **Section 2:** Using Your Phone
- ◆ **Section 3:** Qwest® Service Features
- ◆ **Section 4:** Safety and Warranty Information

Throughout this guide, you'll find tips that highlight special shortcuts and timely reminders to help you make the most of your new phone and service. The Table of Contents and Index will also help you quickly locate specific information.

You'll get the most out of your phone if you read each section. However, if you'd like to get right to a specific feature, simply locate that section in the Table of Contents and go directly to that page. Follow the instructions in that section, and you'll be ready to use your phone in no time.

## Phone Guide Note:

Because of updates in phone software, this printed guide may not be the most current version for your phone. Visit [www.qwest.com](http://www.qwest.com) to access the most recent version of the phone user guide.

## WARNING

Please refer to the **Important Safety Information** section on page 248 to learn about information that will help you safely use your phone. Failure to read and follow the Important Safety Information in this phone guide may result in serious bodily injury, death, or property damage.

# Your Phone's Menu

The following table outlines your phone's list menu structure. For more information about using your phone's menus, see "Navigating Through Phone Menus" on page 22.

**Section 1**

# **Getting Started**

# Setting Up Service

---

### In This Section

---

- ◆ **Getting Started** (page 3)
  - ◆ **Setting Up Your Voicemail** (page 4)
  - ◆ **Account Passwords** (page 5)
  - ◆ **Getting Help** (page 6)
- 

**Setting up service on your new phone is quick and easy.** This section walks you through the necessary steps to unlock your phone, set up your voicemail, establish passwords, and contact Qwest for assistance with your wireless service.

# Getting Started

## Unlocking Your Phone

To unlock your phone, follow these easy steps:

1. Press  to turn the phone on.
2. Select **Unlock** (left softkey).

**Note:** To select a softkey, press the softkey button directly below the softkey text that is displayed at the bottom left and bottom right of your phone's display screen. Softkey actions change according to the screen you're viewing and will not be displayed if there is no corresponding action available.

3. Enter your four-digit lock code. (For security purposes, the code is not visible as you type.)

**Tip:** If you can't recall your lock code, try using the last four digits of your wireless phone number or try 0000. If neither of these work, call Qwest Wireless® Repair at 1-888-879-0611.

# Setting Up Your Voicemail

---

All unanswered calls to your phone are automatically transferred to your voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your voicemail and personal greeting as soon as your phone is activated.

## To set up your voicemail:

1. From standby mode, press and hold  **1**.
2. Follow the system prompts to:
  - Create your passcode.
  - Record your name announcement.
  - Record your greeting.
  - Choose whether to activate One-Touch Message Access (a feature that lets you access messages simply by pressing and holding  **1**, bypassing the need for you to enter your passcode).

### Note:

#### **Voicemail Passcode**

If you are concerned about unauthorized access to your voicemail account, Qwest recommends that you enable your voicemail passcode (do not activate One-Touch Message Access).

For more information about using your voicemail, see “Using Voicemail” on page 207.

# Account Passwords

---

As a Qwest customer, you enjoy unlimited access to your personal account information, your voicemail account, and your Sprint Power Vision account. To ensure that no one else has access to your information, you will need to create passwords to protect your privacy.

## Account Password

If you are the account owner, you'll have an account password to sign on to [www.qwest.com](http://www.qwest.com) and to use when calling Qwest Wireless Customer Service. Your default account password is the last four digits of your Social Security number.

## Voicemail Password

You'll create your voicemail password (or passcode) when you set up your voicemail. See "Setting Up Your Voicemail" on page 4 for more information on your voicemail password.

## Sprint Power Vision Password

If your service plan includes Sprint Power Vision, you can set up a Sprint Power Vision password. This optional password may be used to authorize purchase of downloadable content and to protect personal information on multi-phone accounts.

For more information, or to change your passwords, sign on to [www.qwest.com](http://www.qwest.com) or call Qwest Wireless® Repair at **1-888-879-0611**.

# Getting Help

---

## Visit [www.qwest.com](http://www.qwest.com)

You can go online to:

- Review coverage maps.
- Access your account information.
- Find information and accessories for your phone.
- And more.

## Reaching Qwest Wireless Customer Service

You can reach Qwest online or by phone:

- Sign on to your account at [www.qwest.com](http://www.qwest.com).
- Call us toll-free at **1-888-879-0611**.

## Directory Assistance

Call Directory Assistance from your phone and you'll have access to a variety of services and information, including residential, business, and government listings. There is a per-call charge to use Directory Assistance, and you will be billed for airtime.

### To call Directory Assistance:

▶ Press  **4**  **1**  **1**  **TALK**.

## Operator Services

Operator Services provides assistance when placing collect calls or when placing calls billed to a local telephone calling card or third party.

### To access Operator Services:

▶ Press  **+ 0**  **TALK**.

For more information or to see the latest in products and services, visit us online at [www.qwest.com](http://www.qwest.com).

**Your phone is packed with features that simplify your life and expand your ability to stay connected to the people and information that are important to you.** This section will guide you through the basic functions and calling features of your phone.

# Front View of Your Phone

## Key Functions

1. **Earpiece** lets you hear the caller and automated prompts.
2. **Main LCD (display)** displays all the information needed to operate your phone, such as the call status, the Contacts list, the date and time, and the signal and battery strength.
3. **Navigation Key** allows you to scroll through menus quickly and easily. These keys can also be reassigned to create customized shortcuts.
4. **Softkey (left)** lets you select softkey actions or menu items corresponding to the bottom left line on the Main LCD.
5. **MENU/OK Key** lets you access the phone's menus and selects the highlighted choice when navigating through a menu.
6. **Camera Key** lets you access the Pictures menu and take pictures and videos.
7. **Ready Link/Recorder Button** allows you to access the Ready Link List or Voice Recorder menu. (See "Using Ready Link" on page 162 or "Using the Voice Recorder" on page 129.)
8. **TALK Key** allows you to place or receive calls, answer Call Waiting, use Three-Way Calling, or activate Voice Dial.
9. **Side Volume Key** allows you to adjust the ringer volume in standby mode (with the phone open) or adjust the voice volume during a call. The volume key can also be used to scroll up or down to navigate through the different menu options.
10. **SPEAKER Key** lets you place or receive calls in speakerphone mode.
11. **Microphone** allows other callers to hear you clearly when you are speaking to them.
12. **Accessories Jack** allows you to connect a USB cable (included).  
**CAUTION!** Inserting an accessory into the incorrect jack may damage the phone.

13. **Keypad** lets you enter numbers, letters, and characters, and navigate within menus. Press and hold keys 2-9 for speed dialing.
14. **END/POWER Key** lets you turn the phone on or off, end a call, or return to standby mode. While in the main menu, it returns the phone to standby mode and cancels your input. When you receive an incoming call, press to enter silent mode and mute the ringer.
15. **Side Camera Key** lets you access the camera and video mode and take pictures and videos.
16. **Back Key** deletes characters from the display in text entry mode. When in a menu, pressing the Back key returns you to the previous menu. This key also allows you to return to the previous screen in a data session.
17. **Side Call Key** lets you place calls by using Automatic Speech Recognition.
18. **Softkey (right)** lets you select softkey actions or menu items corresponding to the bottom right line on the Main LCD.
19. **LED Indicator** shows your phone's connection status at a glance.
20. **Speaker** lets you hear the different ringers and sounds. You can mute the ringer when receiving incoming calls by pressing , **Back** or any of the external keys. The speaker also lets you hear the caller's voice in speakerphone mode.
21. **Headset Jack** allows you to plug in either a stereo headset (included) or an optional headset for convenient, hands-free conversations.  
**CAUTION!** Inserting an accessory into the incorrect jack may damage the phone.

<b>Note:</b>	To use the stereo headset included with your phone, please attach the supplied adapter plug.
--------------	--

22. **Sub LCD** lets you monitor the phone's status and see who's calling without opening the phone.
23. **Charger Jack** connects the phone to the Travel Charger (included).

- 24. External Control Key** lets you access the Sprint Music Store or navigate through the media player menu and play music without opening the phone. This key can also be used when using the Camera and Voice Recorder functions.
- 25. Internal Antenna** facilitates reception and transmission. To maximize call performance, do not obstruct the internal antenna area. (See page 24.)
- 26. Camera Lens**, as part of the built-in camera, lets you take pictures and videos.
- 27. Flash** lets you take pictures and videos in low light.

## Viewing the Display Screen

Your phone's display screen provides a wealth of information about your phone's status and options. This list identifies the symbols you'll see on your phone's display screen:

**Tip:**

To view a list of your phone's icons and descriptions, from the main menu select **Settings > Phone Info > Icon Glossary**.

shows your current signal strength. The more lines you have, the stronger your signal.

means your phone cannot find a signal.

indicates the call is on hold.

tells you a call is in progress.

indicates the Ready Link service is enabled.

indicates the Ready Link service is enabled and the speakerphone mode is set to on.

indicates the Ready Link service is disabled.

indicates data/Ready Link access is active.

indicates data/Ready Link access is dormant.

indicates data/Ready Link access is disabled.

indicates Sprint Power Vision status.

indicates Sprint Power Vision service is available. (The icon is animated while service is active.)

indicates Sprint Power Vision service is dormant.

indicates you are "roaming" off the home network.

indicates you have missed voice calls.

indicates you have missed Ready Link calls.

indicates you have scheduled events or call alarms.

indicates you have alarm clock or countdown notifications.

indicates you have picture messages, voicemail messages, or text messages.

indicates you have urgent messages.

indicates you have two or more different types of missed calls, scheduled events, call alarms, or alarm clock notifications.

indicates the Bluetooth feature is enabled (blue icon).

indicates the handset is discoverable by another Bluetooth device.

indicates the handset is connected to a Bluetooth device (green icon).

indicates the handset is communicating with a Bluetooth device.

indicates your access to a secure site.

shows the level of your battery charge. The more black you see, the more power you have left. (The icon is animated while the battery is charging.)

shows your battery is charging in "Power Off" state.

indicates volume level 1 to 8 and vibrate feature are set.

indicates 1-beep feature is set.

indicates 1-beep and vibrate feature are set.

indicates the voice call ringer setting is off.

indicates the voice call ringer setting is off and the vibrate feature is set.

indicates all the sound settings are off and the vibrate feature is set.

indicates all the sound settings are off.

-  indicates the Location feature of your phone is enabled.
-  indicates the Location feature of your phone is disabled.
-  indicates you have a new caller's message.
-  indicates the Screen Call Auto setting is on.
-  indicates your phone is in TTY mode.
-  indicates Headset mode is set to Ready Link and a headset is connected.
-  indicates Headset mode is set to Voice Calls and a headset is connected.
-  indicates the alarm clock or countdown setting is on.
-  indicates the speakerphone mode is set to on.
-  indicates the call is in progress using the Bluetooth device.
-  indicates the wired Car Kit device is set to on.
-  indicates the wired Headset device is set to on.
-  indicates music is playing in the background.

**Note:**

Display indicators help you manage your roaming charges by letting you know when you're off the home network. (For more information, see Section 2D: Controlling Your Roaming Experience on page 80.)

# Features of Your Phone

---

Congratulations on the purchase of your phone. The M1 by Sanyo is lightweight, easy-to-use, and reliable, and it also offers many significant features and service options. The following list previews some of those features and provides page numbers where you can find out more:

- Digital dual-band capability allows you to make and receive calls while on the home network and to roam on other 1900 and 800 MHz digital networks where roaming agreements have been implemented (page 80).
- SMS Text Messaging (page 215) provides quick and convenient messaging capabilities.
- Your Contacts list allows you to store up to 500 entries, with up to seven phone numbers per entry (page 90).  
A separate Ready Link Contacts list provides easy access to up to 200 personal contacts (page 165).
- The built-in Calendar offers several personal information management features to help you manage your busy lifestyle (page 102).
- Your phone is equipped with a Location feature for use in connection with location-based services (page 56).
- Your phone's external LCD display allows you to monitor the phone's status and to see who's calling without opening the phone.
- T9 Text Input lets you quickly type messages with one keypress per letter (page 40).
- Speed dial lets you dial phone numbers with one keypress (page 37).
- The built-in camera allows you to take full-color digital pictures and videos, view your pictures and videos using the phone's display, and instantly send them to family and friends using Sprint PCS Picture Mail service (page 137).

- The external control key allows you to access the Sprint Music Store or navigate through the media player menu and play music without opening the phone (page 190).
- The Automatic Speech Recognition (ASR) allows you to place calls by speaking to your phone (page 122).
- The File Manager allows you to manage multiple file stored in the phone's memory (page 115).
- Supports PictBridge to connect and print to any PictBridge compliant printer (page 160).
- The Media Player allows you to enjoy streaming video and audio with your phone (page 183).
- The built-in Bluetooth technology allows you to connect wirelessly to a number of Bluetooth devices to share information more easily than ever before (page 194).

**Note:**

**Sprint Power Vision** – Your phone and service provide access to the Sprint Power Vision Network and its enhanced data services, including Sprint TV<sup>SM</sup>, the Sprint Music Store<sup>SM</sup>, fast Web access, downloadable games, ringers, and applications, and more. For complete information on the services available, see “Sprint PCS Vision” on page 221 and “Sprint Power Vision” on page 237. You can also visit [www.qwest.com](http://www.qwest.com).

# Turning Your Phone On and Off

---

## Turning Your Phone On

### To turn your phone on:

- ▶ Press .

Once your phone is on, it may display “Looking for service...,” which indicates that your phone is searching for a signal. When your phone finds a signal, it automatically enters standby mode – the phone’s idle state. At this point, you are ready to begin making and receiving calls.

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. When a signal is found, your phone automatically returns to standby mode.

In Power Save mode, your phone searches for a signal periodically without your intervention. You can also initiate a search for service by pressing any key (when your phone is turned on).

**Tip:**

The Power Save feature helps to conserve your battery power when you are in an area where there is no signal.

## Turning Your Phone Off

### To turn your phone off:

- ▶ Press and hold  for two seconds until you see the powering down animation on the display screen.

Your screen remains blank while your phone is off (unless the battery is charging).

# Using Your Phone's Battery and Charger

## WARNING

Use only Qwest-approved or manufacturer-approved batteries and chargers with your phone. The failure to use a Qwest-approved or manufacturer-approved battery and charger may increase the risk that your phone will overheat, catch fire, or explode, resulting in serious bodily injury, death, or property damage.

## Battery Capacity

Your phone is equipped with a Lithium Ion (Li-Ion) battery. It allows you to recharge your battery before it is fully drained. The battery provides up to 3.8 hours of continuous digital talk time.

When there are approximately two minutes of talk time left, the phone sounds an audible alert and then powers down.

## Note:

Long backlight settings, searching for service, vibrate mode, browser use, and other variables may affect the battery's talk and standby times.

## Tip:

Be sure to watch your phone's battery level indicator and charge the battery before it runs out of power.

## Installing the Battery

### To install the Li-Ion battery:

- ▶ To install, insert the battery into the opening on the back of the phone and gently press down until the latch snaps into place.

## Removing the Battery

### WARNING

Do not handle a damaged or leaking Li-Ion battery as you can be burned.

### To remove your battery:

1. Make sure the power is off so that you don't lose any stored numbers or messages.
2. Push up on the battery release latch and lift the battery up and away from the phone.

## Charging the Battery

Your phone's Li-Ion battery is rechargeable and should be charged as soon as possible so you can begin using your phone.

Keeping track of your battery's charge is important. If your battery level becomes too low, your phone automatically turns off, and you will lose all the information you were just working on. For a quick check of your phone's battery level, glance at the battery charge indicator located in the upper-right corner of your phone's display screen. If the battery charge is getting too low, the battery icon () appears and the phone displays a warning message.

Always use a Qwest-approved or manufacturer-approved desktop charger, travel charger, or vehicle power adapter to charge your battery.

## Using the Charger

**To use the travel charger provided with your phone:**

1. Plug the travel charger into a wall outlet.
2. Plug the other end of the travel charger into the charger jack at the lower left portion of your phone (with the battery installed).
  - A red indicator light on the phone lets you know the battery is charging.
  - A green indicator light lets you know when charging completed.

With the Qwest-approved Li-Ion battery, you can recharge the battery before it becomes completely run down.

**Note:** You can also charge your phone's battery with the included USB cable. Simply plug one end of the USB cable into your phone and the other end into a free USB port on your desktop or laptop computer.

If your battery has been completely run down, it cannot be charged via the USB cable.

# Navigating Through Phone Menus

---

The navigation key on your phone allows you to scroll through menus quickly and easily. The scroll bar at the right of the menu keeps track of your position in the menu at all times.

To navigate through a menu, simply press the navigation key up or down. If you are in a first-level menu, such as **Settings**, you may also navigate to the next or previous first-level menu by pressing the navigation key right or left.

For a diagram of your phone's menu, please see "Your Phone's Menu" on page iii.

## Selecting Menu Items

As you navigate through the menu, menu options are highlighted. Select any numbered option by simply pressing the corresponding number on the phone's keypad. You may also select any item by highlighting it and pressing .

For example, if you want to view your last incoming call:

1. Select  to access the main menu.
2. Select **Call History** by pressing  or by highlighting it and pressing . (It may already be highlighted.)
3. Select **Incoming** by pressing  or by highlighting it and pressing . (If you have received any calls, they are displayed on the screen.)

### Note:

For the purposes of this guide, the above steps condense into "Select **MENU > Call History > Incoming.**"

## Backing Up Within a Menu

To go to the previous menu:

- ▶ Press .

To return to standby mode:

- ▶ Press .

## Displaying Your Phone Number

Just in case you forget your phone number, your phone can remind you.

To display your phone number:

- ▶ Select  > **Settings** > **Phone Info** > **Phone#/User ID**. (Your phone number and other information about your phone and account will be displayed.)

### Tip:

You can also display your phone number through the Contacts menu. Select **MENU** > **Contacts** > **My Name Card**. To send your contact information using Bluetooth, select **Options** (right softkey) > **Send via Bluetooth**.

### Note:

To select menu options (such as **Settings**, above), highlight the option and press **MENU**. (If the menu options are numbered, you may also select an option simply by pressing the corresponding number key.)

# Making and Answering Calls

## Holding Your Phone

To maximize performance, do not obstruct the upper back portion of your phone where the internal antenna is located while using the phone.

## Making Calls

Placing a call from your wireless phone is as easy as making a call from any landline phone. Just enter the number, press **TALK**, and you're on your way to clear calls.

### To make a call using your keypad:

1. Make sure your phone is on.
2. Enter a phone number from standby mode. (If you make a mistake while dialing, press **Back** to erase one digit at a time. Press and hold **Back** to erase the entire number.)
3. Press **TALK**. (To make a call when you are roaming and Call Guard is enabled, highlight **Roam Call** and press **MENU OK**. See "Using Call Guard" on page 83.)
4. Press **END** or close the phone when you are finished.

#### Tip:

To redial your most recent call (outgoing, incoming, or missed), press **TALK** twice.

When making calls off the home network, always dial using 11 digits (1 + area code + phone number).

You can also place calls from your phone by speed dialing numbers from your Contacts (page 37), and by using your Call History listings (page 88), Automatic Speech Recognition (page 122), and Voice-Activated Dialing (page 120).

## Dialing Options

When you enter numbers in standby mode, select **Options** (right softkey) to display the following dialing options.

To initiate an option, highlight it and press .

- **Abbrev. Dial** to dial the phone number in your Contacts list that ends with the digits you entered. (See “Using Abbreviated Dialing” on page 35.)
- **Call** to dial the phone number.
- **Call:Speaker On** to dial the phone number in speakerphone mode.
- **Send Message** to send an SMS Text message (page 215) or a Picture Mail (page 153).
- **Save Phone#** to save the phone number in your Contacts list. (See “Saving a Phone Number” on page 33.)
- **Find** to display Contacts list entries that end with the digits you entered. (See “Finding a Phone Number” on page 34.)
-  **Hard Pause** to insert a hard pause. (See “Dialing and Saving Phone Numbers With Pauses” on page 34.)
-  **2-Sec. Pause** to insert a two-second pause. (See “Dialing and Saving Phone Numbers With Pauses” on page 34.)
- **Hyphen** to insert a hyphen. (Hyphens are generally for visual appeal only; they are not necessary when entering numbers.)

## Answering Calls

### To answer an incoming call with the phone open:

1. Make sure your phone is on. (If your phone is off, incoming calls go to voicemail.)
2. Press  to answer an incoming call. (Depending on your phone's settings, you may also answer incoming calls by opening the phone or by pressing any number key. See "Setting the Open/Close Flip Option" on page 65 and "Setting Any Key Answer" on page 64 for more information.)

### To answer an incoming call with the phone closed:

1. Make sure your phone is on. (If your phone is off, incoming calls go to voicemail.)
2. When your phone rings or vibrates, press and hold the Side Call key () on the right side of the phone. (The call will be answered in speakerphone mode.)  
— or —  
Open the phone to use the earpiece.

**Note:**

If the setting for Open Flip is set to "No Action," opening the phone will not answer the call. (See "Setting the Open/Close Flip Option" on page 65.)

Your phone notifies you of incoming calls in the following ways:

- The phone rings or vibrates.
- The indicator light flashes.
- The backlight illuminates.
- The screen displays an incoming call message.

If the incoming call is from a number stored in your Contacts, the entry's name is displayed. The caller's phone number may also be displayed, if available.

When receiving a call, the following options are also displayed by selecting

**Options** (right softkey). To select an option, highlight it and press .

- **Call Guard** to answer the call when you are in roaming mode.  
(See "Using Call Guard" on page 83.)
- **Answer** or **Answer:Speaker** to answer the call.
- **Select Audio** to switch the call to your desired device (if available).
- **Answer on Hold** to put the call on hold.
- **Screen Call** to answer the call by using a prerecorded announcement.  
(See "Setting Up Screen Call" on page 134.)
- **Quiet Ringer** to mute the ringer (if available).

## Answering a Roam Call With Call Guard Enabled

Call Guard is an option that helps you manage your roaming charges when making or receiving calls while outside the home network. Please see Section 2D: Controlling Your Roaming Experience for more information about roaming.

### To answer a call when you are roaming and Call Guard is enabled:

1. Press .
2. Press  to proceed while the pop-up message is displayed.

**Note:** When your phone is off, incoming calls go directly to voicemail.

## Ending a Call

### To disconnect a call when you are finished:

- ▶ Close the phone or press .

**Note:** If the setting for Close Flip is not set to "End," closing the phone will not end the call. (See "Setting the Open/Close Flip Option" on page 65.)

## Missed Call Notification

When an incoming call is not answered, the Missed Call log is displayed on your screen.

### To call the Missed Call entry from the notification screen:

- ▶ Select **Call** (left softkey).

**Tip:** If you have two or more notifications, the Missed Alerts list will appear.

### To display a Missed Call entry from standby mode:

1. Select  > **Missed Alerts**.
2. Highlight the entry you wish to view and press .

## Calling Emergency Numbers

You can place calls to 911 (dial    ), even if your phone is locked or your account is restricted.

**Note:** When you place an emergency call, your phone automatically enters Emergency mode.

During an emergency call select **Options** (right softkey) to display your options. To select an option, highlight it and press .

- **Speaker On** to activate speakerphone mode. (If you are already in speakerphone mode, **Speaker Off** will be displayed.)
- **Unlock Phone** to unlock your phone (appears only if the phone is locked).
- **Close Menu** to close the pop-up menu (appears only if the phone is unlocked).

**Tip:** Select **My Phone** (left softkey) to display your phone number during an emergency call.

### To exit Emergency mode:

1. Press  to end a 911 call.
2. Select **Options** (right softkey) to display the options menu.
3. Highlight **Exit Emergency** and press .

**Note:** When you are in Emergency mode, you can exit only from the options menu.

### To select Emergency mode options:

1. Press  to end a 911 call.
2. Select **Options** (right softkey).
  - **Call 911** to call 911.
  - **Call 911: Speaker** to call 911 in speakerphone mode.
  - **Exit Emergency** to exit Emergency mode.
3. Highlight an option and press .

### Enhanced 911 (E911) Information

This phone features an embedded Global Positioning System (GPS) chip necessary for utilizing E911 emergency location services where available.

When you place an emergency 911 call, the GPS feature of your phone begins to seek information to calculate your approximate location. Depending on several variables, including availability and access to satellite signals, it may take up to 30 seconds or more to determine and report your approximate location.

#### IMPORTANT

**Always report your location to the 911 operator when placing an emergency call.** Some designated emergency call takers, known as Public Safety Answering Points (PSAPs) may not be equipped to receive GPS location information from your phone.

## In-Call Options

Selecting **Options** (right softkey) during a call displays a list of features you may use during the call. To select an option, highlight the option and press . The following options are available through the Options menu:

- **Flash** to answer an incoming Call Waiting call or to connect a third party during Three-Way Calling.
- **Mute** or **Unmute** to mute or reactivate your phone's microphone.
- **Transfer Audio** to switch the call to your desired device (if applicable).
- **Speaker On** or **Speaker Off** routes the phone's audio through the speaker or through the earpiece.
  - Select **Speaker On** to route the phone's audio through the speaker. (You can adjust the speaker volume using the volume keys on the side of the phone.)
  - Select **Speaker Off** to use the phone's earpiece.

### WARNING

Because of higher volume levels, do not place the phone near your ear during speakerphone use.

- **Three-Way Call** to call a third party.
- **Missed Alerts** to display missed notifications.
- **Call History** to access the Call History menu. (See "Managing Call History" on page 85.)
- **Contacts** to access the Contacts menu. (See "Using Contacts" on page 90.)
- **Messaging** to access the Messaging menu.

- **Tools** to access the Tools menu. (See “Using the Phone’s Calendar and Tools” on page 101.)
- **Settings** to access the Settings menu. (See “Controlling Your Phone’s Settings” on page 43.)

During a call, both the left softkey button and the Side Call key () function as the **Mute** button. Press either one to mute the phone’s microphone for privacy. Press it again to unmute the phone.

## End-of-Call Options

To display the following options, select **Options** (right softkey) within 10 seconds after disconnecting a call. To select an option, highlight it and press .

- **Call Again** to dial the phone number.
- **Call:Speaker On** to dial the phone number in speakerphone mode.
- **Send Message** to send a Text or Picture Mail message.
- **Save Phone#** to save the phone number in your Contacts list.
  - **Go to Phone Book** appears when the number is already in your Contacts list. (See “Saving a Phone Number” on page 33.)
- **Rename** to change the current entry’s name to Caller ID name (if applicable).

**Note:** The End-of-Call options are not displayed for calls identified as **No Caller ID** or **Restricted**.

**Tip:** You can also choose to send a message by selecting **Send Msg** (left softkey).

## Saving a Phone Number

Your phone can store up to 700 phone numbers in up to 500 Contacts entries. Each entry's name can contain 32 characters. Your phone automatically sorts the Contacts entries alphabetically. (For more information, see Section 2F: Using Contacts on page 90.)

### To save a number from standby mode:

1. Enter a phone number and select **Options** (right softkey) > **Save Phone#**.
2. Select **New Name** to create a new Contacts entry for the number or **From Ph. Book** to save the number to an existing entry. (This step is not necessary on the very first entry in Contacts.)
3. Select a label and press .
4. Enter a name for the new entry using the keypad and press   
– or –  
Search for an existing contact name and press  to save the new number.
5. Select **Save** (left softkey) to save the entry.
6. Select **Done** (left softkey) to return to standby mode.

## Finding a Phone Number

You can search Contacts entries for phone numbers that contain a specific string of numbers.

### To find a phone number:

1. Enter the last four or more digits of the number in standby mode. (The more numbers you enter, the more specific the search becomes.)
2. Select **Options** (right softkey) > **Find**. (The Contacts entry that ends with the digits you entered appears.)
3. To display the Contacts entry that contains the phone number you entered, highlight the entry and press . To dial the number, press .

## Dialing and Saving Phone Numbers With Pauses

You can dial or save phone numbers with pauses for use with automated systems, such as voicemail or credit card billing numbers.

There are two types of pauses available on your phone:

- **P Hard Pause** sends the next set of numbers when you press .
- **T 2-Sec. Pause** automatically sends the next set of numbers after two seconds.

### Note:

You can have multiple pauses in a phone number and combine two-second and hard pauses.

### To dial or save phone numbers with pauses:

1. Enter the phone number.
2. Select **Options** (right softkey) and select either **Hard Pause** or **2-Sec. Pause**. (Hard pauses are displayed as a “P” and two-second pauses as a “T.”)
3. Enter additional numbers.
4. Press  to dial the number.  
– or –  
Select **Options** (right softkey) > **Save Phone#** to save the number in your Contacts.

**Note:** When dialing a number with a hard pause, press **TALK** to send the next set of numbers.

## Using Abbreviated Dialing

Abbreviated Dialing is similar to speed dialing. It allows you to dial a number by entering the last four or five digits of any number in your Contacts directory. This feature becomes available when you enable Abbreviated Dialing and program a five- or six- digit prefix you wish to use for abbreviated dialing. (See “Setting Abbreviated Dialing” on page 68.)

### To place a call using Abbreviated Dialing:

1. Enter the last four or five digits of the prefix phone number.
2. Press .

**Note:** If the digits match more than one entry, the Abbrev. Dial list will be displayed; select the correct entry and press **TALK** again.

**Tip:** You can also place a call by selecting **Options** (right softkey) > **Abbrev. Dial** after step 1 above.

## Plus (+) Code Dialing

When placing international calls, you can use Plus Code Dialing to automatically enter the international access code for your location (for example, 011 for international calls made from the United States). This feature is subject to network availability.

### To make a call using Plus Code Dialing:

1. Press and hold  until a “+” is displayed on your phone screen.
2. Dial the country code and phone number you’re calling, and press . (The access code for international dialing will automatically be dialed, followed by the country code and phone number.)

## Dialing From the Contacts List

### To dial directly from a Contacts entry:

1. Select  > **Contacts** > **Find/Add Entry**.

#### Shortcut:

From standby mode, select **Contacts** (right softkey) to list entries.

2. Highlight the entry you want to call and press  to dial the entry’s default phone number.  
— or —  
To dial another number from the entry, highlight the name and press , and then highlight the number you wish to call and press .

## Using Speed Dialing

You can store up to eight numbers in your phone's speed dial memory to make contacting friends and family as easy as pressing a button. With this feature, you can dial speed dial entries using one keypress for locations 2–9. (For information on setting up speed dial numbers, see “Assigning Speed Dial Numbers” on page 97.)

### To use speed dial:

- ▶ From standby mode, press and hold the appropriate key for approximately two seconds. The display confirms that the number has been dialed when it shows “Connecting...”.

**Note:**

Speed dialing may not be available when you are roaming; when you are roaming off the home network, you must always dial using 11 digits (1 + area code + number).

# Entering Text

---

## Selecting a Character Input Mode

Your phone provides convenient ways to enter words, letters, punctuation, and numbers whenever you are prompted to enter text (for example, when adding a Contacts entry or when using SMS Text Messaging).

### To change the character input mode:

1. When you display a screen where you can enter text, select **Mode** (right softkey) to change the character input mode.
2. Use your navigation key to select one of the following options:
  - **T9 Word** to enter characters using predictive T9 Text Input. (See page 40.)
  - **Alphabet** to enter characters by using the Alphabet mode. (See page 42.)
  - **SYMBOL** to enter symbols.
  - **SMILEYS** to enter smile icons.
  - **Emoticons** to enter “emoticons.”
  - **Web Shortcuts** to enter Web shortcuts (for example, [www.](http://www.), <http://www.>, or [.com](http://www.)).
  - **Preset Messages** to enter preset messages. (See page 58.)
  - **Recent Messages** to enter messages used recently.

**Tip:**

When you see triangles on the left and right of the menu, you can press the navigation key left or right to switch between different input modes.

- **Paste List** to paste copied or cut text (if applicable).
- **NUMBER** to enter numbers.
- **Signature** to enter your signature. (See page 59.)
- **Select Language** to select the language (English or Spanish).
- **Erase All** to erase all text (if applicable).
- **Select Text** to select stored text for copying or cutting (if applicable).
- **Add Word** to store words that you use frequently. (See page 40.)
- **Text Options** to display the Text Entry settings menu. (See page 41.)

**Note:** The Input Mode will vary according to the entry field.

**Tip:** When entering text, press [**shift\***] to change letter capitalization (**ABC > abc > Abc**).

## Entering Characters Using T9 Text Input

T9 Text Input lets you enter text in your phone by pressing keys just once per letter. (To select the **T9 Word** mode when entering text, see “Selecting a Character Input Mode” on page 38.)

T9 Text Input analyzes the letters you enter using an intuitive word database and creates a suitable word. (The word may change as you type.)

### To enter a word using T9 Text Input:

1. Select the **T9 Word** character input mode. (See “Selecting a Character Input Mode” on page 38.)
2. Press the corresponding keys once per letter to enter a word. (For example, to enter the word “Bill,” press **ABC 2** **GHI 4** **JKL 5** **JKL 5**.) (If you make a mistake, press **Back** to erase a single character. Press and hold **Back** to erase an entire word.)
3. To accept a word and insert a space, press **Space#**.

### Adding a Word to the T9 Database

If a word you want to enter is not displayed as an option when you are using T9 Text Input, you can add it to the database.

### To add a word to the T9 Text Input database:

1. Select the **Add Word** input mode. (See “Selecting a Character Input Mode” on page 38.)
2. Enter the word using Alphabet Mode and select **Save** (left softkey). (See “Entering Characters Using Alphabet Mode” on page 42.) The word will appear as an option the next time you scroll through options during T9 Text Input.

## Customizing the T9 Settings

To customize the T9 Settings:

1. Select  > **Settings** > **Others** > **Text Entry** > **T9 Settings**.  
— or —  
Select the **Text Options** input mode, and then select **T9 Settings**.  
(See “Selecting a Character Input Mode” on page 38.)
2. Select an option and press .
  - **Next Word Prediction** to automatically display the word by retrieving incoming messages that may follow the current T9 text input.
  - **Word Completion** to allow T9 text input to recognize words by searching Contacts list and messages.
  - **Predict. Text Mode** to allow T9 text input to recognize words you have added to the T9 database.
  - **Word Choice List** to display the word choice list.
  - **Show after enter** to select when (after 1–3 digits) to display the word choice list. The word choice list will be displayed based on the number of digits you selected.
  - **Show after wait** to select how many seconds the phone should wait to display the word choice list.

For more information about T9 Text Input, visit the Tegic Web site at [www.T9.com](http://www.T9.com).

## Entering Characters Using Alphabet Mode

To enter characters using Alphabet Mode (multi-tap key entry):

1. Select the **Alphabet** mode. (See “Selecting a Character Input Mode” on page 38.)
2. Press the corresponding keys repeatedly until the desired letter appears. (For example, to enter the word “Bill,” press **ABC 2** twice, **GHI 4** three times, **JKL 5** three times, and **JKL 5** three times again.) (If you make a mistake, press **Back** to erase a single character. Press and hold **Back** to erase an entire word.)

By default, the first letter of an entry is capitalized and the following letters are lowercased. After a character is entered, the cursor automatically advances to the next space after two seconds or when you enter a character on a different key.

**Characters scroll in the following order:**

Key	English Sequence		
	Upper Case		Lower Case
 <b>1</b>	. , @ 1 ? ! * # /		
<b>ABC 2</b>	A B C 2		a b c 2
<b>DEF 3</b>	D E F 3		d e f 3
<b>GHI 4</b>	G H I 4		g h i 4
<b>JKL 5</b>	J K L 5		j k l 5
<b>MNO 6</b>	M N O 6		m n o 6
<b>PQRS 7</b>	P Q R S 7		p q r s 7
<b>TUV 8</b>	T U V 8		t u v 8
<b>WXYZ 9</b>	W X Y Z 9		w x y z 9
<b>+ 0</b>	0		
<b>Space #</b>	Space		
<b>Shift ✕</b>	One-character- shifted	Caps Lock	Unshifted

# Controlling Your Phone's Settings

- ◆ **Sound Settings** (page 44)
  - ◆ **Display Settings** (page 50)
  - ◆ **Location Settings** (page 56)
  - ◆ **Messaging Settings** (page 57)
  - ◆ **Airplane Mode** (page 60)
  - ◆ **TTY Use** (page 61)
  - ◆ **Phone Setup Options** (page 63)
- 

**Using the available menu options, you can customize your phone to sound, look, and operate just the way you want it to.** This section describes how you can change your phone's settings to best suit your needs. Take a few moments to review these options and to adjust or add settings that are right for you.

# Sound Settings

---

## Ringer Types

Ringer types help you identify incoming calls and messages. You can assign ringer types to individual Contacts entries, types of calls, and types of messages.

- **Preprogrammed Ringers** include a variety of standard ringer types and familiar music.
- **Vibrating Ringer** alerts you to calls or messages without disturbing others.
- **Downloaded Ringers** can be downloaded right to your phone.

## Selecting Ringer Types for Incoming Calls

Your phone provides a variety of ringer options that allow you to customize your ring and volume settings. These options allow you to identify incoming calls by the ring.

**To select a ringer type for incoming calls:**

1. Select  > **Settings > Sounds > Ringer Type > Incoming Calls.**
2. Select **With Caller ID** or **No Caller ID.**
3. Use your navigation key to scroll through the available ringers.
4. Press  to assign the desired ringer.

**To select a distinctive ringer for incoming calls while roaming:**

1. Select  > **Settings > Sounds > Ringer Type > Incoming Calls.**
2. Select **Roaming > Distinctive.** (Select **Normal** to deactivate this feature.)

## Selecting Ringer Types for Ready Link Calls

To select a ringer type for Ready Link calls:

1. Select  > **Settings** > **Sounds** > **Ringer Type** > **Ready Link**.
2. Select **Ready Link Calls**, **R-Link Missed**, or **R-Link Floor Tone**.
3. Use your navigation key to scroll through the available ringers.
4. Press  to assign the desired ringer.

## Selecting Ringer Types for Voicemail or Calendar/Alarm

To select a ringer type for voicemail or calendar/alarm:

1. Select  > **Settings** > **Sounds** > **Ringer Type** > **Voicemail** or **Calendar/Alarm**.
2. Press , and then use your navigation key to scroll through the available ringers.
3. Press  to assign the desired ringer.

## Selecting Ringer Types for Messaging

To select a ringer type for messaging:

1. Select  > **Settings** > **Sounds** > **Ringer Type** > **Messaging**.
2. Select **Text** or **Picture Mail**.
3. Use your navigation key to scroll through the available ringers.
4. Press  to assign the desired ringer.

## Selecting a Vibrate Pattern

With this feature, you can select a vibrate pattern for incoming calls, messages, and alarms.

**To select a vibrate pattern:**

1. Select  > **Settings** > **Sounds** > **Vibrate Pattern**.
2. Select **Incoming Calls**, **Ready Link**, **Voicemail**, **Messaging**, or **Calendar/Alarm**. The following items require an additional step:
  - **Incoming Calls**: select **With Caller ID**, **No Caller ID**, or **Roaming**.
  - **Ready Link**: select **Ready Link Calls** or **R-Link Missed**.
  - **Messaging**: select **Text** or **Picture Mail**.
3. Using the navigation key, select a setting and press .

## Selecting a Tone Length

Your phone offers two options for selecting the audible tones accompanying a keypress. (Longer tone lengths may be better for tone recognition when dialing voicemail or other automated systems.)

**To select a key tone:**

1. Select  > **Settings** > **Sounds** > **Others** > **Tone Length**.
2. Select **Short** or **Long** and press .

## Setting a Start-up/Power-off Tone

To set a start-up/power-off tone:

1. Select  > **Settings** > **Sounds** > **Others**.
2. Select **Start-up Tone** or **Power-off Tone**.
3. Scroll to select a tone and press .

## Using Voice Prompt

This feature allows you to hear voice prompts at Voice Recorder, Screen Call setting, etc. (default setting is on).

To enable or disable voice prompt:

1. Select  > **Settings** > **Sounds** > **Others** > **Voice Prompt**.
2. Select **On** or **Off** and press .

**Tip:**

When ringer volume is set to “Silence All” or “Vibrate All,” voice prompts cannot be heard.

## Setting Up Key Press Echo

With this feature, you can hear a voice say the numbers when you press the keypad. This feature is available when you are in standby mode.

To turn Key Press Echo on or off:

1. Select  > **Settings** > **Sounds** > **Others** > **Key Press Echo**.
2. Select **On** or **Off** and press .

## Adjusting the Phone's Volume Settings

You can adjust your phone's volume settings to suit your needs and your environment.

### To adjust the ringer volume:

1. Select **MENU** > **Settings** > **Sounds** > **Volume** > **Ringer**.
2. Using the navigation key, choose a volume level, **1 Beep**, or **Ringer Off** and select **Done** (left softkey).

#### Tip:

When selecting a volume, press **MENU** to put a check mark in the box next to **Always Vibrate**. This setting makes the ringer vibrate at any volume level.

You can choose a volume level, **1 Beep**, **Ringer Off**, **Vibrate All**, or **Silence All** from standby mode (or adjust the earpiece volume during a call) by using the volume key on the left side of your phone.

## Adjusting the Alert Volume Settings

This setting controls the alert volume of Ready Link, Voicemail, message, and Calendar/Alarm. You can set the alert volume separate from the ringer volume setting.

### To adjust the alert volume setting:

1. Select **MENU** > **Settings** > **Sounds** > **Volume** > **Advanced Ringer**.
2. Select **Ready Link**, **Voicemail**, **Messaging**, or **Calendar/Alarm**.
3. Using the navigation key, select **Separate Vol**.
4. Press the navigation key right or left to choose a volume level, and select **Done** (left softkey).

## Adjusting the Phone's Receiver Volume

To adjust the receiver volume:

1. Select **MENU OK** > **Settings** > **Sounds** > **Volume** > **Receiver**.
2. Select either **Earpiece** or **Speaker**.
3. Using the navigation key, choose a volume level, and select **Done** (left softkey).

## Adjusting the Application, Start-up/Power-off, or Key Beep Volume

To adjust the Application, Start-up/Power-off, or Key Beep volume:

1. Select **MENU OK** > **Settings** > **Sounds** > **Volume**.
2. Select **Application**, **Start-up/Pw-off**, or **Key Beep**.
3. Using the navigation key, choose a volume level, and select **Done** (left softkey).

## Alert Notification

Your phone can alert you with an audible tone when you change service areas, once a minute during a voice call, or when there are incoming or missed Ready Link calls.

To enable or disable alert sounds:

1. Select **MENU OK** > **Settings** > **Sounds** > **Alerts**.
2. Select **Service**, **Ready Link**, **Voicemail**, **Messaging**, **Minute Beep**, or **Signal Fade** and press **MENU OK**.
3. Use your navigation key to select a setting and press **MENU OK**.

## Silence All

There may be times when you need to silence your phone entirely. The phone's Silence All option allows you to mute all sounds without turning your phone off.

### To activate Silence All:

- ▶ With the phone open, press and hold the volume key down in standby mode. (The screen will display "Silence All.")

#### Tip:

You can also select **Vibrate All** to set your phone to vibrate only (all sounds will be muted).

### To deactivate Silence All:

- ▶ Press the volume key up repeatedly to select a desired volume level.

## Display Settings

---

### Changing the Text Greeting

The text greeting can be up to 15 characters and is displayed on your phone's screen in standby mode. You may enter your own custom greeting or choose the preset greeting.

#### To enter your own custom greeting:

1. Select **MENU** > **Settings** > **Display** > **Greeting** > **Custom**.
2. Enter a custom greeting using your keypad and press **MENU**. (See "Entering Text" on page 38.) (To erase the existing greeting one character at a time, press **Back**. To erase the entire greeting, press and hold **Back**.)

#### To display the preset greeting:

- ▶ Select **MENU** > **Settings** > **Display** > **Greeting** > **Qwest**.

## Changing the Backlight Time Length

The backlight setting lets you select how long the display screen and keypad remain backlit after any keypress is made.

**To change the backlight setting:**

1. Select **MENU OK** > **Settings** > **Display** > **Backlight**.
2. Select **Main LCD** or **Sub LCD**.
3. Select a time setting and press **MENU OK**.

**To change the Keypad backlight setting:**

1. Select **MENU OK** > **Settings** > **Display** > **Backlight** > **Key**.
2. Select a time setting and press **MENU OK**.

**Note:** Long backlight settings affect the battery's talk and standby times.

## Changing the Display Screen Animation

Your new phone offers options for what you see on the display screen during various phone functions.

**To change the animation display:**

1. Select **MENU OK** > **Settings** > **Display** > **Animation**.
2. Select **Standby**, **Outgoing Calls**, or **Service Search**.
3. Select **Set**, and then select an option (**Preset**, **My Content**, **Get New**, **My Albums**, **Assigned Media**, or **Off**) and press **MENU OK**.
  - For standby, you can select **Time** to set the animation starting time. To set the display size, select **Video Size** (if applicable).
4. Select an animation display and press **MENU OK**.

## Changing the Display for Incoming Calls

You can set the color or downloaded image to be shown on the Incoming Calls display.

**To change the incoming calls display:**

1. Select  > **Settings > Display > Incoming Calls**.
2. Select an option (**Preset, My Content, Get New, My Albums, Assigned Media**, or **Off**) and press .
3. Select a color or image and press .

## Changing the Clock/Calendar Display for Standby Mode

Select from among a variety of items to be displayed in standby mode.

**To set the clock/calendar display for standby mode:**

1. Select  > **Settings > Display > Clock/Calendar**.
2. Select **Main LCD** or **Sub LCD**.
3. Select an item and press .
4. Select **OK** (left softkey) to apply the clock display setting.

## Changing the Screen Saver

Your new phone offers you the option of displaying a screen saver while in standby mode.

**To change the screen saver:**

1. Select  > **Settings > Display > Screen Saver**.
2. Select **Main LCD** or **Sub LCD**.
3. Select an option (**Preset, My Content, Get New, My Albums, Assigned Media**, or **Off**) and press .
4. Select the desired screen saver and press .

## Power Save Mode

This feature helps conserve your battery power by setting the Main LCD and Sub LCD backlights to “Always Off,” and by setting the Main LCD sleep mode to “after 30 sec.” and the Sub LCD sleep mode to “after 5 sec.”

**To set this feature:**

1. Select  > **Settings** > **Display** > **Power Save Mode**.
2. A message appears. Select **OK** (left softkey) to continue.
3. Select **On** and press . (Select **Off** to deactivate this feature.)

## Customizing the User Interface

Your phone lets you customize the user interface (UI) of the Standby Screen, Main Menu, and My Favorites with your choice of downloaded themes to reflect your personality.

**To customize the display themes:**

1. Select  > **Settings** > **Display** > **Themes**.
2. Select **SANYO** or available downloaded themes.
  - **SANYO** displays the preset standard clock display selected in the Calendar/Clock menu. (See “Changing the Clock/Calendar Display for Standby Mode” on page 52.)

**Note:**

If you change back to **SANYO** after you have applied a theme, the phone will return to the previous clock display. Also, if you select a theme other than **SANYO**, the navigation key shortcuts are disabled.

## Changing the Phone's Menu Style

Your phone allows you to choose how the menu is displayed on the screen.

**To select the display's menu style:**

- ▶ Press  to access the main menu, and then select **Options** (right softkey) > **Change View**.

## Changing the Display for Area Name

This feature enables you to show the area of the phone number you are calling or are called from when the number is not registered in your Contacts list. For example, a call to or from 213-555-5555 will display "California."

**To set your area name display:**

1. Select  > **Settings** > **Display** > **Others** > **Match Area Code**.
2. Select **On** or **Off** and press .

**Note:**

This feature is available only when the phone number has 10 digits, or 11 digits beginning with 1, and matches an area code.

## Changing the Display for My Buddy

This feature enables you to see a humorous animation on the Main LCD by opening the phone.

**To activate or deactivate My Buddy:**

1. Select  > **Settings** > **Display** > **Others** > **My Buddy**.
2. Select **On** or **Off** and press .

## Changing the Text Font Size

This setting allows you to adjust the display appearance when entering text (for example, when writing a message or when adding a Contacts entry) or when viewing a message.

**To change the text font size:**

1. Select  > **Settings** > **Display** > **Others** > **Font Size**.
2. Select **View** or **Input**.
  - **View** to select **Messaging** or **Browser**.
  - **Input** to select **Phone#s**, **Messaging**, or **Others**.
3. Select a font size and press .

**Tip:**

From the font preview display, select a font size by pressing the navigation key right or left.

## Setting Return to Standby Mode

This feature allows you to select the way to return to standby mode.

**To set this feature:**

1. Select  > **Settings** > **Display** > **Others** > **Return to Idle**.
2. A message appears. Select **OK** (left softkey) to continue.
3. Select **Automatically** or **End Key** and press .
  - **Automatically** to return to standby mode automatically when no key is pressed for 30 seconds.
  - **End Key** to return to standby mode by pressing .

**Note:**

**End Key** setting affects the battery's talk and standby times.

## Sleep Mode

This feature helps conserve your battery power by restricting the display.

**To set this feature:**

1. Select  > **Settings** > **Display** > **Others** > **Sleep Mode**.
2. Select **Main LCD** or **Sub LCD**.
3. Select an option and press . (Select **Off** to deactivate this feature.)

## Location Settings

---

Your phone is equipped with a Location feature for use in connection with location-based services.

The Location feature allows the network to detect your position. Turning Location off will hide your location from everyone except 911.

### Note:

Turning Location on will allow the network to detect your position using GPS technology, making some applications and services easier to use. Turning Location off will disable the GPS location function for all purposes except 911, but will not hide your general location based on the cell site serving your call. No application or service may use your location without your request or permission. GPS-enhanced 911 is not available in all areas.

**To enable your phone's Location feature:**

1. Select  > **Settings** > **Location**. (The Location disclaimer will be displayed.)
2. Read the disclaimer and select **OK** (left softkey).
3. Select **On** or **Off** and press .

When the Location feature is on, your phone's standby screen will display the  icon. When Location is turned off, the  icon will be displayed.

# Messaging Settings

Staying connected to your friends and family has never been easier. With your phone's advanced messaging capabilities, you can send and receive many different kinds of text messages without placing a voice call.

Your phone's messaging settings make text messaging even faster and easier by letting you decide how you would like to be notified of new messages, create a signature with each sent message, and create your own preset messages, to name just a few.

## Setting Message Notification

When you receive a message, your phone notifies you by displaying an icon on your display screen. You can also choose to be notified with a message notification on your display screen.

**To set message notification:**

1. Select  > **Settings** > **Messaging** > **Notification**.
2. Select **Msgs and Icon** or **Icon Only** and press .

**Tip:**

To access Messaging settings menu, you can also select **MENU** > **Messaging** > **Settings**.

## Managing Preset Messages

Your phone is loaded with twenty preset messages, in English and in Spanish, to help make sending text messages faster and easier. These messages, such as “Where are you?,” “Let’s get lunch,” and “Meet me at,” can be customized or deleted to suit your needs.

### To edit a preset message:

1. Select **MENU OK** > **Settings** > **Messaging** > **Preset Msgs**. (The list of preset messages is displayed.)
2. Select the message you want to edit and press **MENU OK**.
3. Use your keypad to edit the message and select **OK** (left softkey) to save your changes.
  - To reset all messages, select **Options** (right softkey) > **Reset All Msgs** > **Yes** during step 2 above.

### To change the language of the preset messages:

1. Select **MENU OK** > **Settings** > **Messaging** > **Preset Msgs**.
2. Select **Options** (right softkey) > **Select Language**.
3. Select **English** or **Spanish** and press **MENU OK**.

<b>Note:</b>	For information on editing text, see “Entering Text” on page 38.
--------------	--

## Setting a Callback Number

With this feature, you can notify your recipients of your callback number with a text message.

### To set the callback number:

1. Select **MENU OK** > **Settings** > **Messaging** > **Text** > **Send Callback#**.
2. Press **MENU OK**, and then select an option from the following and press **MENU OK**.
  - **None** to send no callback number.
  - **My Phone#** to send your phone number.
  - **Other** to send a specific callback number. To set a number, enter a phone number and press **MENU OK**.

## Adding a Customized Signature

Each message you send can have a customized signature to reflect your personality.

### To add a customized signature to each sent message:

1. Select **MENU OK** > **Settings** > **Messaging** > **Text** > **Signature**.
2. Press **MENU OK**, and then select **On**.
3. Select **Text**, enter your signature, and select **OK** (left softkey). (See "Entering Text" on page 38.)
4. Select **Save** (left softkey) to save your signature.

## Setting the Delivery Receipt

You can set to receive a delivery receipt message confirming that your message was successfully delivered to your recipient.

### To set the delivery receipt:

1. Select  > **Settings** > **Messaging** > **Text** > **Delivery Receipt**.
2. Select **On** or **Off** and press .

**Note:** The Delivery Receipt feature may not currently be implemented.

## Setting Drafts Alert

Drafts Alert gives you a reminder when you have unsent messages waiting in the drafts folder.

### To set Drafts Alert:

1. Select  > **Settings** > **Messaging** > **Text** > **Drafts Alert**.
2. Select **On** or **Off** and press .

## Airplane Mode

---

Airplane Mode allows you to use many of your phone's features, such as Games, Music, Voice Recorder, etc., when you are in an airplane or in any other area where making or receiving calls or data is prohibited. When your phone is in Airplane Mode, it cannot send or receive any calls or access online information.

### To set your phone to Airplane Mode:

1. Select  > **Settings** > **Others** > **Airplane Mode**.
2. Read the disclaimer and select **OK** (left softkey).
3. Select **On** or **Off** and press .

While in Airplane Mode, your phone's standby screen will display "Phone Off."

## TTY Use

---

A TTY (also known as a TDD or Text Telephone) is a telecommunications device that allows people who are deaf, hard of hearing, or who have speech or language disabilities, to communicate by telephone.

Your phone is compatible with select TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission. Your phone and TTY device will connect via a special cable that plugs into your phone's headset jack. If this cable was not provided with your TTY device, contact your TTY device manufacturer to purchase the connector cable.

When establishing your wireless service, please call Qwest via the state Telecommunications Relay Service (TRS) by first dialing  **7**  **1**  **1**  **TALK** **7**. Then provide the state TRS with this number: 866-727-4889.

## To turn TTY Mode on or off:

1. Select  > **Settings** > **Others** > **TTY**. (An informational message will be displayed.)
2. Read the disclaimer and select **OK** (left softkey).
3. Select **Enable** and press  to turn TTY mode on.  
– or –  
Select **Disable** and press  to turn TTY mode off.

### Note:

In TTY Mode, your phone will display the TTY access icon.

If TTY mode is enabled, the audio quality of non-TTY devices connected to the headset jack may be impaired.

### WARNING

#### 911 Emergency Calling

Qwest recommends that TTY users make emergency calls by other means, including Telecommunications Relay Services (TRS), analog cellular, and landline communications. Wireless TTY calls to 911 may be corrupted when received by public safety answering points (PSAPs), rendering some communications unintelligible. The problem encountered appears related to TTY equipment or software used by PSAPs. This matter has been brought to the attention of the FCC, and the wireless industry and the PSAP community are currently working to resolve this.

# Phone Setup Options

## My Favorites

Your phone offers you the option of assigning a shortcut key to a favorite or often-used function. Selecting **Favorites** (left softkey) in standby mode will launch your personally designated shortcut.

### To assign your shortcut key:

1. Select **Favorites** (left softkey) to display the My Favorites list.
2. Highlight **<Add Favorite>** and press .
3. Select one of the following options.
  - **Contact** to display stored Contacts entries.
  - **My Content** to display downloaded items stored in your phone.
  - **My Album** to display thumbnail images stored in your In Phone folder.
  - **Web Bookmark** to display your bookmarked sites.
  - **Menu Item** to assign an often-used menu item.
4. Using the navigation key or your keypad, select functions to be assigned to the My Favorites list.
5. Select **Assign** (left softkey) to save.

From My Favorites list, select **Options** (right softkey) to display the following items. To select an item, highlight it and press .

- **Replace** to replace an existing shortcut key.
- **Remove** to remove an existing shortcut key.
- **Remove All** to remove all the existing shortcut key.
- **Help** to display the My Favorite list information.

## Auto-Answer Mode

You may set your phone to automatically pick up incoming calls in speakerphone mode or when connected to an optional hands-free device.

### To set Auto-Answer mode:

1. Select  > **Settings** > **Others** > **Auto Answer**.
2. To select an option, highlight it and press .
  - **Hands-free** to answer calls automatically when the phone is connected to a hands-free device (sold separately). Remember, your phone will answer calls in Auto-Answer mode even if you are not present.
  - **Speakerphone** to answer calls automatically in speakerphone mode.
3. Select **5 Seconds**, **15 Seconds**, or **Off** and press .

## Display Language

You can choose to display your phone's onscreen menus in English or in Spanish.

### To assign a language for the phone's display:

1. Select  > **Settings** > **Others** > **Language**.
2. Select **English** or **Español** and press .

## Setting Any Key Answer

This feature allows you to answer incoming calls by pressing any key (except  **END**,  **Back**, softkeys, and external keys).

### To turn Any Key Answer on or off:

1. Select  > **Settings** > **Others** > **Any Key Answer**.
2. Select **On** or **Off** and press .

## Setting the Open/Close Flip Option

This feature enables you to answer an incoming call by opening the phone or to end a call by closing the phone.

### To activate the Open Flip feature:

1. Select **MENU OK** > **Settings** > **Others** > **Open/Close Flip**.
2. Select **Open** and press **MENU OK**.
3. Select **Answer Call** and press **MENU OK**.
  - To deactivate this feature, select **No Action**.

### To activate the Close Flip feature:

1. Select **MENU OK** > **Settings** > **Others** > **Open/Close Flip**.
2. Select **Close**. (You will see a message on the display.)
3. Select **OK** (left softkey) to continue.
4. Select an option from the following and press **MENU OK**.
  - **End** to end the call.
  - **Continue(Mute)** to continue the call. Your voice is muted; however you can hear the caller's voice from the speaker.
  - **Continue(Unmute)** to continue the call. You can hear the caller's voice and speak to the phone to answer.

**Note:**

The Close Flip feature does not apply during Ready Link calls or when you are using the speakerphone, a headset, or a car kit.

## Setting Power On to Alert

Power On to Alert helps prevent unintentional or accidental power-on of your phone's alarm settings while your phone is turned off (default setting is off). This feature applies only to Event Alerts, Call Alarm, and Alarm Clock.

**To turn Power On to Alert on or off:**

1. Select  > **Settings > Others > Power On to Alert**.
2. Select **On** or **Off** and press .
  - **On** activates alarm in Airplane Mode even if the phone is turned off.
  - **Off** deactivates all alarm settings while the phone is turned off.

## Setting the Key Guard

This feature enables you to lock external keys while the phone is closed.

**To turn the Key Guard on or off:**

1. Select  > **Settings > Others > Key Guard**.
2. Select **On** or **Off** and press .

**Note:** This feature does not apply when the phone is open.

**Tip:** You can deactivate this feature temporarily by pressing and holding either the Side Call key () or  on the external control key while the phone is closed.

## Setting Navigation Key Shortcuts

You can use the navigation key as a shortcut to access specific menu items directly from standby mode. With this feature, you can reassign the default shortcut keys to the menu items you choose.

**To set the navigation key shortcuts:**

1. Select **MENU OK** > **Settings** > **Others** > **Navigation Keys**.
2. Select the shortcut key you wish to reassign and press **MENU OK**.
3. Using the navigation key or your keypad, select a function.
4. Select **Assign** (left softkey) to save.

**Note:**

These shortcuts are available only when the display theme is set to **SANYO** (see "Customizing the User Interface" on page 53).

## Setting Text Entry Options

**To set your text entry options:**

1. Select **MENU OK** > **Settings** > **Others** > **Text Entry**.
2. Select an option and press **MENU OK**.
  - **Auto-Capital** to turn auto-capitalization on or off.
  - **My Words** to add or edit a word in the T9 database (see page 40).
  - **Input Language** to select the language (English or Spanish).
  - **Default Input** to select T9 word, Alphabet, or Retain Mode for the initial entry mode.
  - **Auto-Space** to turn auto-spacing on or off after T9 words you enter.
  - **Recent Access** to display the three most recently used input mode menu items from the top of the list when this setting is set to on.
  - **T9 Settings** to customize the T9 settings (see page 41).
  - **Add Word** to store words that you use frequently (see page 40).

- **Auto-Complete** to turn auto-completion on or off.
- **Help** to see the T9 instruction page.

## Setting Abbreviated Dialing

Abbreviated Dialing allows you to dial a number using the last four or five digits of the phone number. You can use either of the following options for this feature:

- **Ph. Book Match** allows you to retrieve any number saved in your Contacts list by entering the last three to six digits of the number.
- **Prepend #** allows you to predefine the first five- or six-digit prefix you wish to use for abbreviated dialing, so that you can dial a number by entering only the last four or five digits of the number.

### To set Abbreviated Dialing:

1. Select  > **Settings** > **Others** > **Abbrev. Dial**.
2. Select **Ph. Book Match**, and then select **Enable** or **Disable**.
3. Select **Prepend**, and then select **Enable**.
4. Select **Prepend#**, enter the first five- or six- digit prefix, and then select **OK** (left softkey).
  - To deactivate this feature, select **Disable** during step 3 above.

#### Tip:

To make an Abbreviated Dial call, see “Using Abbreviated Dialing” on page 35.

#### Note:

This setting does not apply to 911 or Directory Assistance.

## Setting Headset Mode

This feature allows you hands-free phone use. Set the headset mode to Voice Call or Ready Link call and press the Turbo Button (the operation button) on the headset to activate useful functions.

### To connect the headset:

- ▶ Simply plug the headset into your phone's headset jack.

### To set the headset mode:

1. Select  > **Settings** > **Others** > **Headset Mode**.
2. Select **Turbo Button**.
3. Select **Voice Calls**, **Ready Link**, or **Off** and press .

### To set the sound mode:

1. Select  > **Settings** > **Others** > **Headset Mode**.
2. Select **Earpiece**.
3. Select **Stereo** or **Mono** and press .

### To set the ringer sound:

1. Select  > **Settings** > **Others** > **Headset Mode**.
2. Select **Ringer Sound**.
3. Select **Normal** or **Headset Only** and press .

**Note:**

Be sure to use only the stereo headset that comes with your phone. Using other headsets could damage your phone.

# Setting Your Phone's Security

- 

**By using the security settings on your phone, you receive peace of mind without sacrificing flexibility.** This section will familiarize you with your phone's security settings. With several options available, you can customize your phone to meet your personal needs.

## Accessing the Security Menu

All of your phone's security settings are available through the Security menu. You must enter your lock code to view the Security menu.

**To access the Security menu:**

1. Select  > **Settings** > **Security**.
2. Enter your lock code to display the Security menu.

**Tip:**

If you can't recall your lock code, try using the last four digits of your wireless phone number or try 0000. If neither of these work, call Qwest Wireless® Repair at 1-888-879-0611.

## Using Your Phone's Lock Feature

### Locking Your Phone

When your phone is locked, you can only receive incoming calls or make calls to 911 or special numbers. (See "Using Special Numbers" on page 74.)

**To lock your phone:**

1. From the Security menu, select **Lock Phone** > **Lock Now**. (To set your phone to lock the next time it is turned on, select **On Power-up**.)
2. Select **Full Lock** or **Excep. Incoming Calls** and press .

### Unlocking Your Phone

**To unlock your phone:**

1. From standby mode, select **Unlock** (left softkey).
2. Enter your lock code.

## Changing the Lock Code

**To change your lock code:**

1. Select  **> Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Others > Change Lock**, and then enter and re-enter your new lock code.

## Calling in Lock Mode

You can place calls to 911 and to your special numbers when in lock mode. (For information on special numbers, see “Using Special Numbers” on page 74.)

**To place an outgoing call in lock mode:**

- ▶ To call an emergency number or special number, enter the phone number and press .

## Locking the Pictures Menu

With this feature, you must enter your lock code when you access the pictures menu.

**To lock the pictures menu:**

1. Select  **> Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Picture Mail > Lock Pictures > Lock Now**. (Select **Unlocked** to deactivate this feature.)

## Lock Services

With this feature, you can choose to restrict access to Sprint Power Vision services, incoming and outgoing voice calls, and Ready Link calls or settings.

### To activate lock services:

1. From the Security Menu, select **Others > Lock Services**.
2. Select **Voice Calls**, **Power Vision**, or **Ready Link**.
3. Select **Locked**. (Select **Unlocked** to deactivate this feature.)

## Restricting Calls

There may be occasions when you want to limit the numbers your phone can call or from which it can receive calls. You can use the Restrict Calls setting to do just that. (The Restrict Calls setting does not apply to 911.)

### To restrict calls:

1. Select  **> Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Others > Limit Use**.
3. Select **Outgoing Calls** or **Incoming Calls**.
4. Select an option and press .
  - **Allow All** lets you make or receive all calls.
  - **Phone Book Only** lets you make or receive calls to or from Contacts entries, voicemail, or special numbers only.
  - **Special #s Only** lets you make or receive calls to or from three special numbers only. (See “Using Special Numbers” on page 74.)

#### Note:

Restricted incoming calls are forwarded to voicemail.

## Using Special Numbers

---

Special numbers are important numbers that you have designated as being “always available.” You can call and receive calls from special numbers even if your phone is locked.

You can save up to three special numbers in addition to your Contacts entries. (The same number may be in both directories.)

### To add or replace a special number:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Others > Special #s**.
3. Select a field for your entry.
4. Enter the number and press .

<b>Note:</b>	There are no speed dial options associated with special numbers.
--------------	--

<b>Note:</b>	Special numbers cannot be called if Lock Services (see page 73) is set to Locked.
--------------	---

# Erasing Phone Content

You can quickly and easily erase all the content that you have created in your phone.

## To erase phone content:

1. Select  > **Settings** > **Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset**, and then select an option from the following and press .
  - **Erase Ph. Book** to erase all of your Contacts entries.
  - **Erase My Content** to erase all items you have downloaded to your phone.
  - **Erase Pictures** to erase all pictures and videos saved in the phone.
  - **Erase Voice Data** to erase all voice data and call memos saved in the phone.
  - **Erase Voice Tag** to erase all voice tags you have recorded.
  - **Erase Messages** to erase all messages (including locked ones) in the Inbox, Sent Mail, Pending, and Drafts folders; all Recent Lists; and all user-created preset messages (text messages, etc.).
  - **Erase Cal. Events** to erase all scheduled events (including secret ones).
  - **Erase Memory** to erase all data and folders you have made in File Manager.
3. If you are certain you would like to erase, select **OK** (left softkey), and then select **Yes**.

## Resetting the Browser

---

This option resets your Web browser's history, bookmarks, cookies, auto-complete text, and URLs.

### To reset the browser:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset > Reset Browser**.
3. If you are certain you would like to reset, select **OK** (left softkey), and then select **Yes**.

## Resetting Favorites

---

This option resets all of your favorites settings.

### To reset favorites:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset > Reset Favorites**.
3. If you are certain you would like to reset your favorites settings, select **OK** (left softkey), and then select **Yes**.

## Resetting Your Phone

---

Resetting the phone resets all settings and erases all data on your phone (except data saved in the File Manager).

### To reset your phone:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset > Reset Phone**. (A disclaimer is displayed.)
3. Read the disclaimer and select **OK** (left softkey).
4. If you are certain that you would like to erase all the data and reset your settings, select **Yes**.

## Resetting Your Picture Mail Account

---

This option resets your authentication ID for your Sprint PCS Picture Mail account.

### To reset your Picture Mail account:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Picture Mail > Reset Picture Mail**. (A warning is displayed.)
3. Read the disclaimer and select **OK** (left softkey).
4. If you are certain that you would like to reset your Picture Mail account, select **Yes**.

## Resetting Default Settings

---

Resetting the default settings restores all the factory defaults, including the ringer types and display settings. The Contacts, Call History, Calendar, and Messaging are not affected.

### To reset default settings:

1. Select  > **Settings > Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset > Default Settings**. (A warning is displayed.)
3. Read the disclaimer and select **OK** (left softkey).
4. If you are certain that you would like to restore all the factory settings, select **Yes**.

# Security Features for Sprint Power Vision

## Enabling and Disabling Sprint Power Vision Services

You can disable Sprint Power Vision services without turning off your phone; however, you will not have access to all Sprint Power Vision services, including Web and messaging. Disabling Sprint Power Vision will avoid any charges associated with data services. While signed out, you can still place or receive phone calls, check voicemail, and use other voice services. You may enable Sprint Power Vision services again at any time.

**Note:** Disabling Sprint Power Vision services disables all data services, including those described in Section 3B: Sprint PCS Vision on page 221.

### To disable Sprint Power Vision services:

1. Select  > **Settings** > **Power Vision** > **Disable Vision**.  
(A message will be displayed.)
2. Select **Disable** (right softkey) to confirm that you want to sign out.

### To enable Sprint Power Vision services:

1. Select  > **Settings** > **Power Vision** > **Enable Vision**.  
(A message will be displayed.)
2. Select **OK** (left softkey) to enable Vision service.

# Controlling Your Roaming Experience

---

## In This Section

---

- ◆ **Understanding Roaming** (page 81)
  - ◆ **Setting Your Phone's Roam Mode** (page 82)
  - ◆ **Using Call Guard** (page 83)
  - ◆ **Using Data Roam Guard** (page 84)
- 

**Roaming is the ability to make or receive calls when you're off the home network.** Your new M1 by Sanyo works anywhere on the home network and allows you to roam on 1900 and 800 MHz digital networks where roaming agreements have been implemented.

This section explains how roaming works as well as special features that let you manage your roaming experience.

# Understanding Roaming

## Recognizing the Roaming Icon on the Display Screen

Your phone's display screen always lets you know when you're off the home network. Any time you are roaming, the phone displays the roaming icon (△).

**Tip:**

Remember, when you are using your phone off the home network, always dial numbers using 11 digits (1 + area code + number).

## Roaming on Other Digital Networks

When you're roaming on digital networks, your call quality and security will be similar to the quality you receive when making calls on the home network. However, you may not be able to access certain features, depending on the available network.

**Note:**

If you're on a call when you leave the home network, your call is dropped. If your call is dropped in an area where you think network service is available, turn your phone off and on again to reconnect to the home network.

## Checking for Voicemail Messages While Roaming

When you are roaming off the home network, you may not receive on-phone notification of new voicemail messages. Callers can still leave messages, but you will need to periodically check your voicemail for new messages if you are in a roaming service area for an extended period of time.

### To check your voicemail while roaming:

1. Dial 1 + area code + your phone number.
2. When you hear your voicemail greeting, press .
3. Enter your passcode at the prompt and follow the voice prompts.

When you return to the home network, voicemail notification will resume as normal.

# Setting Your Phone's Roam Mode

---

Your phone allows you to control your roaming capabilities. By using the **Roaming** menu option, you can determine which signals your phone accepts.

## Set Mode

Choose from three different settings on your phone to control your roaming experience.

**To set your phone's roam mode:**

1. Select  > **Settings** > **Others** > **Roaming** > **Set Mode**.
2. To select an option, highlight it and press .
  - **Qwest Only** allows you to access the home network only and prevents roaming on other networks.
  - **Automatic** seeks network service. When network service is unavailable, the phone searches for an alternate system.
  - **Roaming Only** forces the phone to seek a roaming system. The previous setting (Qwest Only or Automatic) is restored the next time the phone is turned on.

## Using Call Guard

Your phone has two ways of alerting you when you are roaming off the home network: the onscreen roaming icon and Call Guard. Call Guard makes it easy to manage your roaming charges by requiring an extra step before you can place or answer a roaming call. (This additional step is not required when you make or receive calls while on the home network.)

### To turn Call Guard on or off:

1. Select  > **Settings** > **Others** > **Roaming** > **Call Guard**.
2. Highlight **On** or **Off** and press .

### To place roaming calls with Call Guard on:

1. From standby mode, dial 1 + area code + the seven-digit number and press .
2. Press  to proceed while the pop-up message is displayed.  
— or —  
Press any key to erase the pop-up message, and then select **Options** (right softkey) > **Roam Call**.

### To answer incoming roaming calls with Call Guard on:

1. Press . (A message will be displayed notifying you that roaming charges will apply.)
2. Press  to proceed while the pop-up message is displayed.  
— or —  
Press any key to erase the pop-up message, and then select **Options** (right softkey) > **Answer**.

#### Note:

If the Call Guard feature is set to **On**, you need to take extra steps to make and receive roaming calls.

## Using Data Roam Guard

---

Depending on service availability and roaming agreements, your phone may be able to access data services while roaming on certain digital systems. You can set your phone to alert you when you are roaming off the home network and try to use data services such as messaging.

### To set your Data Roam Guard notification:

1. Select  > **Settings** > **Others** > **Roaming** > **Data Roam Guard**.
2. Select an option and press .
  - **Always Ask** sets your phone's Data Roam Guard feature on. You will see a prompt and will be required to respond anytime you access data services while roaming.
  - **Never Ask** turns your phone's Data Roam Guard feature off. You will not be notified of your roaming status when accessing data services.

### To use data services when Data Roam Guard is active:

- ▶ When a pop-up notification appears informing you that data roam charges may apply, select **Roam** (left softkey) to connect.

**Note:**

Data Roam Guard is turned off in your phone's default settings.

# Managing Call History

---

### In This Section

---

- ◆ **Viewing History** (page 86)
  - ◆ **Call History Options** (page 87)
  - ◆ **Making a Call From Call History** (page 88)
  - ◆ **Saving a Phone Number From Call History** (page 88)
  - ◆ **Prepending a Phone Number From Call History** (page 89)
  - ◆ **Erasing Call History** (page 89)
- 

**The Call History keeps track of incoming calls, outgoing calls, and missed calls.** This section guides you through accessing and making the most of your Call History.

## Viewing History

---

You'll find the Call History feature very helpful. It is a list of the last 20 phone numbers (or Contacts entries) for calls you placed, accepted, or missed. Call History makes redialing a number fast and easy. It is continually updated as new numbers are added to the beginning of the list and the oldest entries are removed from the bottom of the list.

Each entry contains the phone number (if it is available) and Contacts entry name (if the phone number is in your Contacts). Duplicate calls (same number and type of call) may only appear once on the list.

### To view a Call History entry:

1. Select  > **Call History**, and then select **Outgoing**, **Incoming**, **Missed**, or **Recent Calls**.
2. Highlight the entry you wish to view and press .

#### Note:

Call History records only calls that occur while the phone is turned on. If a call is received while your phone is turned off, it will not be included in the phone's Incoming or Missed call logs.

## Call History Options

For additional information about and options for a particular call, highlight a Call History entry and press . This feature displays the date and time of the call, the phone number (if available), and the caller's name (if the number is already in your Contacts). By selecting **Options** (right softkey), you can choose from the following options:

- **Call** to dial the phone number.
- **Call:Speaker On** to dial the phone number in speakerphone mode.
- **Send Message** to send a Text or Picture Mail message.
- **Save Phone#** to save the phone number (if applicable).
  - **Go to Phone Book** appears when the number is already in your Contacts list. (See “Saving a Phone Number From Call History” on page 88.)
- **Rename** to change the current entry's name to Caller ID name (if applicable).
- **Prepend** to add numbers to the beginning of the phone number. (See “Prepending a Phone Number From Call History” on page 89.)
- **Copy to Personal** to copy the phone number to the Ready Link Personal List (only appears when Ready Link mode is set to Enable and the number does not match any stored entry in your Personal List).
- **Erase** to erase the entry.

**Tip:**

You can also view the next Call History entry by pressing the navigation key right or view the previous entry by pressing the navigation key left.

# Making a Call From Call History

---

To place a call from Call History:

1. Select  > **Call History**, and then select **Outgoing**, **Incoming**, **Missed**, or **Recent Calls**.
2. Use your navigation key to select a Call History entry and press .

<b>Note:</b>	You cannot make calls from Call History to entries identified as <b>No Caller ID</b> or <b>Restricted</b> .
--------------	---

# Saving a Phone Number From Call History

---

Your phone can store up to 500 Contacts entries. Contacts entries can store up to a total of 700 phone numbers, and each entry's name can contain 32 characters.

To save a phone number from Call History:

1. Use your navigation key to select a Call History entry and select **Options** (right softkey) > **Save Phone#**.
2. Select **New Name** to create a new Contacts entry for the number or **From Ph. Book** to save the number to an existing entry.
3. Select a label and press .
4. Enter a name for the new entry using the keypad and press .  
— or —  
Search for an existing contact name and press  to save the new number.
5. Select **Save** (left softkey) to save the entry.

After you have saved the number, the new Contacts entry is displayed.  
(See “Contacts Entry Options” on page 95.)

**Note:**

You cannot save phone numbers already in your Contacts or from calls identified as **No Caller ID** or **Restricted**.

## Prepending a Phone Number From Call History

---

If you need to make a call from Call History and you happen to be outside your local area code, you can add the appropriate prefix by prepending the number.

### To prepend a phone number from Call History:

1. Select a Call History entry and select **Options** (right softkey).
2. Select **Prepend**.
3. Enter the prefix and press  to call the number.

## Erasing Call History

---

To erase individual Call History entries, see “Call History Options” on page 87.

### To erase Call History:

1. Select  > **Call History** > **Erase History**.
2. Select **Outgoing**, **Incoming**, **Missed**, **Recent Calls**, or **All**.
3. Select **Voice Calls** or **Ready Link**.
4. If you are certain you want to erase the call history, select **Yes**.  
— or —  
Select **No** to return to the previous menu.

## Using Contacts

  - ◆ **Secret Contacts Entries** (page 100)
- 

**Now that you know the basics that make it easier to stay in touch with people and information, you're ready to explore your phone's more advanced features.** This section explains how to use your phone's Contacts list and helps you make the most of your time when you are trying to connect with the important people in your life.

## Adding a New Contacts Entry

Your phone can store up to 500 Contacts entries. Contacts entries can store up to a total of 700 phone numbers, and each entry's name can contain 32 characters.

### To add a new entry:

1. Select **MENU** > **Contacts** > **Find/Add Entry** > **Add Contact**.
2. Enter a name for the entry and press the navigation key down. (See "Entering Text" on page 38.)

#### Shortcut:

Enter the phone number in standby mode and press **MENU**. Proceed with steps 2-6 in "Saving a Phone Number" on page 33.

3. Enter the phone number for the entry and press **MENU**.
4. Select a label for the entry (**Mobile**, **Home**, **Work**, **Pager**, **Fax**, or **Other**) and press **MENU**.
5. Select **Save** (left softkey).

After you have saved the number, the new Contacts entry is displayed. (See "Contacts Entry Options" on page 95.)

#### Tip:

##### ICE – In Case of Emergency

To make it easier for emergency personnel to identify important contacts, you can list your local emergency contacts under "ICE" in your phone's Contacts list. For example, if your mother is your primary emergency contact, list her as "ICE–Mom" in your Contacts list. To list more than one emergency contact, use "ICE1–\_\_\_\_," "ICE2–\_\_\_\_," etc.

## Assigning a Group Entry

---

Your phone can create up to 20 separate group lists.

By assigning a contact to a group, you can search easily using a user-defined group name.

### To assign a Contact to a group:

1. Select  > **Contacts > Group**.
2. Select an available group entry location and select **Options** (right softkey) > **Add Members**.
3. Select the desired contact and press .
4. Select **Add** (left softkey) when you have finished selecting members.

### To edit a group entry:

1. Select  > **Contacts > Group**.
2. Select the group entry you want to edit and select **Options** (right softkey) > **Edit**.
3. Select the field you want to edit (**Name**, **Ringer**, or **Picture ID**) and press .
4. Edit the entry and press .
5. Select **Save** (left softkey) to save your changes.

### To erase a group member:

1. Select  > **Contacts > Group**.
2. Select the group titles and press  to display the group members.
3. Select the member you want to erase and select **Options** (right softkey) > **Erase > This** or **All**.
4. Select **Yes** and press .

# Finding Contacts Entries

There are several ways to display your Contacts entries: by name, by speed dial number, by group, and by voice dial tags. Follow the steps outlined in the sections below to display entries from the Contacts menu.

## Finding Names

To find Contacts entries by name:

1. Select  > **Contacts** > **Find/Add Entry**.
2. Scroll through all the entries using your navigation key.  
– or –  
Enter the first letter of a name or part of a name. (The more letters you enter, the more your search narrows.)
3. To display an entry, highlight it and press .
4. To dial the entry's default phone number, press .
- or –  
To display additional Contacts entries, press the navigation key left or right.

<b>Shortcut:</b>	From standby mode, select <b>Contacts</b> (right softkey) to display the Contacts list.
------------------	---

## Finding Speed Dial Numbers

To find phone numbers you have stored in speed dial locations:

- ▶ Select  > **Contacts > Speed Dial #s**.  
See “Using Speed Dialing” on page 37 for how to use speed dialing.

## Finding Group Entries

To find entries designated as part of a group:

1. Select  > **Contacts > Group**.
2. Scroll through the group titles using your navigation key. To display entries belonging to a group, highlight the group and press .
3. To dial the entry's default phone number, press .

# Contacts Entry Options

To access a Contacts entry's options, highlight an entry and press . Then select a phone number and select **Options** (right softkey). To select an option, highlight it and press .

- **Edit** to edit the selected entry.
- **Call** to dial the selected number.
- **Call:Speaker On** to dial the phone number in speakerphone mode.
- **Send Message** to send a Text or Picture Mail message.
- **Call Alarm** to set a call alarm for the entry. (See page 108 for Call Alarm.)
- **Set Speed Dial** to assign speed dial numbers to your favorite entries. (See "Assigning Speed Dial Numbers" on page 97.)
- **Set Voice Tag** to set a voice dial for the entry. (See page 120 for Voice Dial.)
- **Prepend** to alter a phone number by adding numbers to the beginning of the entry. (See "Prepending a Phone Number From Call History" on page 89.)
- **Copy to Personal** to copy the phone number to your Ready Link Personal List (only appears when Ready Link mode is set to Enable and the number does not match any stored entry in your Personal List).
- **Send Contact** to send a Contacts entry in the Contacts list via Bluetooth.
- **Print** to print the Contacts data.

**Tip:**

You can view the next entry by pressing the navigation key right or view the previous entry by pressing the navigation key left.

## Adding a Phone Number to a Contacts Entry

---

To add a phone number to an entry:

1. Display a Contacts entry. (See “Finding Contacts Entries” on page 93.)
2. Scroll to the entry you wish to add a phone number to and press .
3. Select a phone number, and then select **Options** (right softkey) > **Edit**; or if you are selecting an item other than the phone number, select **Edit** (right softkey).
4. Select the box next to the  icon and press .
5. Enter the number and press .
6. Select a label for the number and press .
7. Select **Save** (left softkey) to save the new number.

## Editing a Contacts Entry's Phone Number

---

To edit an entry's phone number:

1. Display a Contacts entry. (See page 93.)
2. Select the entry you wish to edit and press .
3. Select the number you wish to edit and select **Options** (right softkey) > **Edit**.
4. Press  again to edit the number.
5. Press  to clear one digit at a time, or press and hold  to erase the entire number.
6. Re-enter or edit the number and press .
7. Select a label for the number and press .
8. Select **Save** (left softkey) to save the number.

# Assigning Speed Dial Numbers

With this feature you can dial Contacts directory entries with one keypress for locations 2–9. (For details on how to make calls using speed dial numbers, see “Using Speed Dialing” on page 37.)

## To assign a speed dial number:

1. Select  > **Contacts** > **Speed Dial #s**.
2. Select an available speed dial location and press .
3. Select an entry from the list and press .
4. Select the phone number you want to set as a speed dial number and press .

– or –

1. Display a Contacts entry.
2. Scroll to an entry in the Contacts list and press .
3. Select the phone number you want to set as a speed dial number, and then select **Options** (right softkey) > **Set Speed Dial**.
4. Select an available speed dial location and press .

### Note:

If you attempt to assign an already in-use speed dial location to a new phone number, a dialog will be displayed asking if you wish to replace the existing speed dial assignment. Select **Yes** to assign the location to the new phone number and delete the previous speed dial assignment.

## Editing a Contacts Entry

---

### To make changes to an entry:

1. Display a Contacts entry.
2. Select the entry you wish to edit and press .
3. Select a phone number, and then select **Options** (right softkey) > **Edit**; or if you are selecting an item other than the phone number, select **Edit** (right softkey).
4. Select the field you want to edit and press .
5. Add or edit the desired information and press .
6. Select **Save** (left softkey) to save your changes.

## Assigning an Image to a Contacts Entry

---

You can assign an image to a Contacts entry. The image is displayed when the entry calls you.

### To assign an image for an entry:

1. Display a Contacts entry.
2. Select the entry for which you want to assign the image and press .
3. Select a phone number, and then select **Options** (right softkey) > **Edit**; or if you are selecting an item other than the phone number, select **Edit** (right softkey).
4. Press the navigation key up to highlight the  icon and press .
5. Select an image and press  to assign the image to the entry.
6. Select **Save** (left softkey) to save the image type.

## Selecting a Ringer Type for an Entry

You can assign a ringer type to a Contacts entry so you can identify the caller by the ringer type. (See “Ringer Types” on page 44.)

### To select a ringer type for an entry:

1. Display a Contacts entry.
2. Select the entry for which you want to set the incoming ringer and press .
3. Select a phone number, and then select **Options** (right softkey) > **Edit**; or if you are selecting an item other than the phone number, select **Edit** (right softkey).
4. Scroll down to the box next to the  icon and press  to display the Ringer Type menu.
5. Use your navigation key to scroll through available ringers. (When you highlight a ringer type, a sample ringer will sound.)
6. Highlight your desired ringer and press .
7. Select **Save** (left softkey) to save the new ringer type.

## Secret Contacts Entries

---

You can hide an entry's phone number(s) and require your lock code to edit the entry by making it secret. The entry name is still displayed, but the entry's information is replaced with "<Secret>".

### To make an entry secret:

1. Display a Contacts entry.
2. Select the Contacts entry you want to tag as secret.
3. Select **Options** (right softkey) > **Set Secret**.
4. Enter the four-digit lock code.
5. Select **On** and press .

### To make an entry public:

1. Display a Contacts entry.
2. Select the Contacts entry you want to tag as public.
3. Select **Options** (right softkey) > **Set Secret**.
4. Enter the four-digit lock code.
5. Select **Off** and press .

#### Tip:

If you can't recall your lock code, try using the last four digits of your wireless phone number or try 0000. If neither of these work, call Qwest Wireless® Repair at 1-888-879-0611.

## Section 2G

## Using the Phone's Calendar and Tools

---

### In This Section

---

- ◆ **Using Your Phone's Calendar** (page 102)
  - ◆ **Using Your Phone's Tools** (page 110)
  - ◆ **Connecting Your Phone to Your PC** (page 114)
  - ◆ **File Manager** (page 115)
  - ◆ **Personal Information Management** (page 118)
- 

**Your phone is equipped with several personal information management features that help you manage your busy lifestyle.**

This section shows you how to use these features to turn your phone into a time management planner that helps you keep up with your contacts, schedules, and commitments.

# Using Your Phone's Calendar

---

## Displaying Your Calendar

To display your calendar:

- ▶ Select  > **Tools** > **Calendar**.

**Tip:**

To change the calendar display views, select **Monthly/Weekly** (left softkey). In the weekly view, you can easily add to or edit your own schedule.

## Changing the Calendar Settings

This setting allows you to change the default settings for your phone's calendar. You can customize the calendar display according to your needs.

To change the calendar settings:

1. From the calendar display, select **Options** (right softkey) > **Settings**.
2. Select one of the following options and press .
  - **Holiday** to add a holiday to the calendar or edit the calendar (**Set Date**, **Set Weekly**, **Reset Date**, **Reset Weekly**, or **Reset All**).
  - **Display** to change the display settings of the calendar (**Calendar View**, **Monthly View**, or **Time starts at**).
  - **Alarm** to change the alarm settings of the calendar (**Ring Length**, **Snooze Interval**, or **Snooze Times**).
3. Use your navigation key to change the settings and press  to save and exit.

## Adding an Event to the Calendar

Your Calendar helps organize your time and reminds you of important events. You can schedule up to 200 events.

### To add an event:

1. Select **MENU** > **Tools** > **Calendar**.
2. Using your navigation key, highlight the day to which you would like to add an event and select **Options** (right softkey) > **Add Schedule**.
3. Enter the description using your keypad and press **MENU**.
4. Select the following items you want to edit and press **MENU**.
  - **Description** to enter a description for the event.
  - **Category** to select an event category (**Appointment**, **Business**, **Meeting**, **Personal**, **Vacation**, **Travel**, or **Miscellaneous**).
  - **Priority** to select an event priority (**None**, **High**, or **Low**).
  - **Start** to schedule a start time for the event.
  - **End** to schedule an end time for the event.
  - **Location** to edit a location for the event.
  - **Alarm** to select a ringer type for the alarm.
  - **Alarm Time** to edit the alarm time (number of hours or minutes before the event starts). The default alarm time is 10 minutes before an event.
  - **Repeat** to select a repeating status for the event (**Once**, **Daily**, **Weekly**, **Monthly**, or **Yearly**).
5. Select **Save** (left softkey) to save the event.

#### Tip:

In the monthly view, days with events scheduled are indicated with a triangle "►." In the weekly view, times for which you have scheduled events will be highlighted.

## Event Alerts

There are several ways your phone alerts you to scheduled events:

- By playing the assigned ringer type.
- By illuminating the backlight.
- By flashing the LED.

## Event Alert Menu

When your phone is turned on and you have an event alarm scheduled, your phone alerts you and displays the event summary.

### To silence the alarm:

- ▶ Press any key to stop the alarm. (The alarm will stop and then sound again after the selected snooze interval.)
  - Press and hold the side camera key to cancel snoozing.
  - Select **Dismiss** (right softkey) to dismiss the event.

## Viewing Day's Events

### To view your scheduled events:

1. Select  > **Tools** > **Calendar**.
2. From the monthly view, highlight the day for which you would like to view events and press . (If you have events scheduled for the selected day, they will be listed in chronological order.)

#### Tip:

If you are in the weekly view, select the highlighted cell in the spreadsheet and press **MENU** to display the event's details.

3. To display the details of an event listed in the schedule, highlight the event and press .

## Event List Options

While you are displaying the day's events list, select **Options** (right softkey) to access the following options:

- **Add Schedule** to add an event to the calendar.
- **Add Call Alarm** to add a call alarm to the calendar.
- **Add To Do** to add To Do items to the To Do List.
- **Schedule List** to display the Schedule List on the calendar.
- **Call Alarm List** to display the Call Alarm List on the calendar.
- **To Do List** to display the To Do List on the calendar.
- **Edit** to edit the event.
- **Set Cal. Secret** to make an event secret.
- **Send Event** to send the event via Bluetooth.
- **Erase** to erase the event.
- **Go To Date** to jump to another date on the calendar.
- **View Memory** to view the memory status saved in the phone.
- **Erase Memory** to erase memory saved in the phone.
- **Print** to print the calendar events.

## Going to a Specified Date

To use the Calendar menu to get to a specified date:

1. Select  > **Tools** > **Calendar** > **Options** (right softkey) > **Go to Date**.
2. Enter the date you wish to go to using the navigation key and/or the keypad and press .

## Erasing a Day's Events

To erase a day's scheduled events:

1. Select  > **Tools** > **Calendar**.
2. From the monthly view, highlight the day for which you would like to erase events and press .
3. Select one of the events and select **Options** (right softkey) > **Erase**.
4. Highlight your desired option and press 
  - **This** to erase a single event.
  - **Select** to erase selected events at one time.
  - **All on This List** to erase all events on the list.
5. Select **Yes** to erase or **No** to cancel.

### Note:

The Erase function will not delete events that you have designated as "secret." (See "Event List Options" on page 105.)

## Purging Events

To delete events scheduled before a specific time and date:

- ▶ Select  > **Tools** > **Calendar** > **Options** (right softkey) > **Erase Memory** > **Erase Old** > **Yes**.

## Purging All Events

To delete all scheduled events:

1. Select  > **Tools** > **Calendar** > **Options** (right softkey) > **Erase Memory** > **Erase All** > **Yes**. (An alert will be displayed asking you to confirm the deletion.)
2. Select **Yes** (left softkey) to erase all events; select **No** (right softkey) to cancel.

<b>Note:</b>	All events are erased including Call Alarms (see page 108) and To Do List items (see page 109).
--------------	---

## Adding a Call Alarm to the Calendar

You can set call alarms to notify you when you need to place a call. The call alarm will let you know when and to whom to place a scheduled call. You can set up to 15 call alarms.

### To add a call alarm to the calendar:

1. Select  > **Tools > Calendar**.
2. Select the day to which you want to add a call alarm and select **Options** (right softkey).
3. Press the navigation key left or right to select **Add Call Alarm** and press .
4. Enter the phone number directly or select **Options** (right softkey) for options.
  - **From Ph. Book** to select the desired number from your Contacts list.
  - **Voicemail** to select the number for voicemail access.
5. Select the following items you want to edit and press .
- **Category** to select a category for the call alarm (**Appointment, Business, Meeting, Personal, Vacation, Travel**, or **Miscellaneous**).
- **Time/Date** to edit the start time and date.
- **Alarm** to select the ringer alarm.
- **Repeat** to set the Call Alarm's repeat status (**Once, Daily, Weekly, Monthly**, or **Yearly**).
6. Select **Save** (left softkey).

#### Tip:

You can also add a call alarm from the Contacts menu. (See "Contacts Entry Options" on page 95.)

## Adding To Do List Items

Your phone can store and manage up to 40 To Do List items.

### To add an item to your To Do List:

1. From the Calendar display, select **Options** (right softkey).
2. Press the navigation key left or right to select **Add To Do**, and then press .
3. Enter the description using your keypad and press .
4. Select from the following options those you want to edit and press .
  - **Category** to select an event category.
  - **Priority** to select an event priority (**None**, **High**, or **Low**).
  - **Due Time/Date** to schedule a due time and date.
  - **Status** to select a status for the To Do items (**Needs Action** or **Completed**).
5. Select **Save** (left softkey) to save the To Do items.

## Adding a To Do List Item to the Schedule

### To add a To Do List item to the schedule:

1. From the Calendar display, select **Options** (right softkey).
2. Highlight **Schedule List** and press the navigation key left or right to select different list options.
3. Select **To Do List** from the options and press .
4. Select the item you want to add to the schedule, and select **Options** (right softkey) > **Add To Schedule**.
5. Enter a description and other information using your keypad and press . (See “Adding an Event to the Calendar” on page 103 for entering.)
6. Select **Save** (left softkey).

# Using Your Phone's Tools

In addition to helping you be more efficient and organized, your phone offers useful and entertaining tools.

## Using the Alarm Clock

Your phone comes with a built-in alarm clock with multiple alarm capabilities.

### To use the alarm clock:

1. Select  > **Tools** > **More Tools** > **Alarm Clock**.
2. Select a number and press .
3. Select the items you want to edit and press 
  - **Description** to enter a description of the alarm.
  - **Time** to enter the alarm time.
  - **Repeat** to select the alarm frequency.
  - **Alarm** to set the alarm on or off.
4. Select **Save** (left softkey) to save the alarm settings.

#### Tip:

Select **On/Off** (left softkey) to toggle the alarm on and off.

To change the alert settings, select **Settings** (right softkey) to set the ringer length and snooze options.

#### Note:

Depending on the Power On to Alert setting, the alarm setting will be active even if the phone is turned off. (See "Setting Power On to Alert" on page 66.)

In a no-service area, it's necessary to set the actual time and date to use the Alarm Clock function after removing and installing your battery.

## Using the Stopwatch

### To start the stopwatch:

- ▶ Select  > **Tools** > **More Tools** > **Stop Watch**.
  - Select **Start** (left softkey) to start the stopwatch.
  - Select **Stop** (left softkey) to stop the stopwatch.
  - Select **Resume** (left softkey) to restart the stopwatch.

### To record a lap time while the stopwatch is running:

- Select **Lap** (right softkey) to record time of the first lap.
- Select **Lap** (right softkey) again to record the next lap. (You can record up to five laps.)

### To display the stopwatch options:

1. During stopwatch operation, select **Options** (right softkey).
2. To select an option, highlight it and press .
  - **Go to Lap List** to display a saved Lap List. Select **Detail** (left softkey) to display the Lap List detail.
  - **Save to Lap List** to save the recorded lap times.
  - **Reset** to reset the time to zero and clear any recorded lap times.

## Using the Countdown Timer

This feature allows you to use the countdown timer with alarm capabilities. You can set up to five timers.

### To use the countdown timer:

1. Select **MENU** > **Tools** > **More Tools** > **Countdown**.
2. Select a number and press **MENU**.
3. Select the items you want to edit and press **MENU**.
  - **Description** to enter a description of the countdown.
  - **Time** to enter the countdown time.
  - **Alarm** to set the countdown alarm on or off.
4. Select **Save** (left softkey) to save the countdown settings.

#### Tip:

Select **On/Off** (left softkey) to toggle the countdown alarm on and off.

To change the alert settings, select **Settings** (right softkey) to set the ring length and snooze options.

#### Note:

This feature is not available while your phone is turned off.

## World Clock

This feature is available only in digital service areas.

### To view the time in different locations:

1. Select **MENU** > **Tools** > **More Tools** > **World Clock**.
2. Press the navigation key left or right to scroll through different time zones.

#### Tip:

Select **Summer** (left softkey) or **Standard** (right softkey) to select daylight saving or standard time (if applicable).

## Using the Calculator

Your phone comes with a built-in calculator.

### To use the calculator:

1. Select **MENU OK** > **Tools** > **More Tools** > **Calculator**.
2. Enter numbers using your keypad.
3. Press the appropriate navigation key for an arithmetic option (**Up** for addition, **Down** for subtraction, **Left** for multiplication, **Right** for division). Press the left softkey to insert a decimal point.
4. Enter numbers and press **MENU OK** for the result.
  - To clear the numbers, select **CLR** (right softkey).

## Updating Your Phone

The update phone software option allows you to download and update the software in your phone over the air. Only the internal software is updated; no Contacts entries or other information saved in your phone will be deleted.

### To update your phone through the Tools menu:

1. Select **MENU OK** > **Tools** > **Update Phone**.
2. If a new software version is available, select **Yes** (left softkey) to continue.
3. Read the onscreen information and select **Next** (left softkey) to continue.
4. Select **Update Phone** to update your phone.

#### Note:

If your phone's signal strength is low, Update Phone may not be completed. Please update your phone when you're in an area with better signal strength.

# Connecting Your Phone to Your PC

Before using your phone's mass storage capabilities, you need to prepare your phone's data services to synchronize with your desktop or laptop computer. Once the phone is connected to the PC, you can transfer your data to or from the phone quickly and easily.

## To connect your phone to your PC:

1. Select  > **Tools > USB Connection > Mass Storage.**
2. Connect your phone to your PC using the provided USB cable. (Wait for the connection to be completed. When connected, the host computer will automatically detect your phone.)

## To remove the connection:

- ▶ When you have finished transferring data, click the USB device icon on your computer's taskbar, and follow the onscreen instructions to safely unplug the USB cable. (The process may vary depending on the PC.)

### Note:

We recommend using Windows 2000/ME/XP. Synchronization is guaranteed only for computers using one of these operating systems.

To avoid loss of data, DO NOT remove the USB cable or the battery while files are being accessed or transferred.

DO NOT turn off or restart your computer, or put it into standby mode, while using a mass storage device. Doing so will result in loss or damage of data.

While you are connected to the computer, your phone's screen will display "Phone Off." You cannot make or receive calls.

If you connect a mass storage device to a peripheral device, your device may not work properly.

# File Manager

File Manager allows you to manage your files such as pictures, videos, music and applications stored in the phone's memory. With this feature, you can search, move, erase, import, rename and open files more easily.

## Accessing File Manager

**To access file manager:**

- ▶ Select  > **Tools** > **File Manager**. (The preset folders will be displayed: DCIM, MEDIA, MUSIC, and VOICE.)

## File Manager Icon Indication

Content Type	Icons	File Extension
Picture		m3g
		jpeg, jpg, wbmp, png, bmp, gif
Video		m4v, mp4, 3gp, 3gpp, 3gp2, 3g2
Audio		mp3, aac, m4a, amr
		qcp
		mid, midi
		pmd
Contact		vcf
Calendar		vcs
Unknown		unsupported file format

### Note:

When you format files in File Manager, be sure to format your files using only the phone's Security menu. (See "Erasing Phone Content" on page 75.) If you format files using the PC, the File Manager will not work properly.

## Opening Files in the File Manager

To open files in the file manager:

1. Select  > **Tools > File Manager**.
2. Select your desired folder and press .
3. Use your navigation key to select an item you wish to open.

## Using File Manager Options

When you are navigating files and folders in the file manager, several user options are available by selecting **Options** (right softkey). To select an option, highlight it and press .

- **Move** to move the file from the current folder to another folder.
- **Erase** to delete the file or folder from File Manager.
- **Import** to import the phonebook file or the calendar file.
- **View** to view the image file.
- **Listen** to listen to the audio file.
- **Play** to play the audio/video file.
- **Sort by** to sort folder contents by name, date, or size.
- **Properties** to view the properties of the file.
- **Rename** to change the name of the selected file.
- **Set as** to set images as your wallpaper, screen saver, or Caller ID for the contacts.

## Sorting the Folder Contents

To sort the folder contents:

1. Select  > **Tools** > **File Manager**.
2. Select the folder that includes the content you want to sort and press .
3. Select **Options** (right softkey) > **Sort by**.
4. Select an item (**Name**, **Size**, or **Date**) and press .
5. Select **Ascending** or **Descending** and press .

## Viewing Memory in File Manager

To view the used and available memory in File Manager:

1. Select  > **Tools** > **File Manager**.
2. Select **Options** (right softkey) > **View Memory**. (The used and available memory space will be displayed.)

# Personal Information Management

---

## Displaying Your User Address

To display the phone's current user address:

- ▶ Select  > **Settings > Phone Info > Phone#/User ID.**

## Finding Icon Definitions

To view an explanation of icons that appear on the display:

1. Select  > **Settings > Phone Info > Icon Glossary.**
2. Select the item for which you want to see the explanation and press . (The icon's explanation appears.)

## Displaying the Version Information

To display the version number of the software, hardware, PRL (Preferred Roaming List), PRI (Product Release Instructions), etc., installed on your phone:

- ▶ Select  > **Settings > Phone Info > Version.**

## Displaying Advanced Information

To display advanced information such as frequency and other technical information:

- ▶ Select  > **Settings > Phone Info > Advanced.**

## Displaying Your Phone Status

To display the phone's current phone status:

- ▶ Select  > **Settings > Phone Info > Phone Status.**

# Using Your Phone's Voice Services

---

## In This Section

---

- ◆ **Using Voice-Activated Dialing** (page 120)
  - ◆ **Using Automatic Speech Recognition** (page 122)
  - ◆ **Using the Voice Recorder** (page 129)
  - ◆ **Setting Up Screen Call** (page 134)
- 

**Your phone's Voice Services let you place calls using your voice, store voice reminders, and record memos right on your phone.**

This section includes easy-to-follow instructions for using voice-activated dialing and managing voice memos.

# Using Voice-Activated Dialing

With your M1 from Sanyo, you can use a voice dial tag to automatically dial a phone number in your Contacts. (A voice dial tag is a command you record and use to place calls without using the keypad.) Your phone can store up to 30 voice dial tags.

**Note:** Please confirm that the Voice Prompt feature (see page 47) is set to **On** before using the Voice-Activated Dialing so that you can hear the voice instruction from the phone. The default setting is on.

## Making a Call Using Voice-Activated Dialing

To use a voice dial tag to call a phone number:

1. Press and hold  or .
2. Follow the voice prompts and recite the entry's voice dial tag into your phone's microphone.

**Tip:** Record voice dial tags in a quiet environment.

## Programming Voice Dial Tags

To program a voice dial tag:

1. Display a Contacts entry.
2. Select a contact and press .
3. Select a phone number, and then select **Options** (right softkey) > **Set Voice Tag > Add**.
4. After you are prompted to say the name you wish to program, wait for the beep and then say the name into your phone's microphone.

5. Respond to the prompt by repeating the name after the beep. (The display shows “Voice Tag Recorded.”)
  - If you set a voice tag, the  icon is shown next to the phone number on the Contacts list.

## Reviewing Voice Dial Tags

### To review voice dial tags:

1. Display a Contacts entry.
2. Select a voice dial entry you want to review and press .
3. Highlight the desired voice dial entry and select **Options** (right softkey) > **Set Voice Tag**.
4. To select an option, highlight it and press .
  - **Play** to play the selected voice dial tag.
  - **Play:Speaker** to play the tag in speakerphone mode.
  - **Change** to change the recorded voice dial tag.
  - **Erase** to erase the voice dial tag. Select **Yes** to erase; select **No** to cancel.

## Erasing All Voice Dial Tags

### To erase all voice dial tags:

1. Select  > **Settings** > **Security**, and then enter your lock code. (The Security menu is displayed.)
2. Select **Erase/Reset** > **Erase Voice Tag**.
3. Select **OK** (left softkey), and then select **Yes** to erase all recorded voice dial tags; select **No** to cancel.

# Using Automatic Speech Recognition

---

Your phone is equipped with an Automatic Speech Recognition (ASR) feature. This feature allows you to make calls or use the phone's functions by simply using your voice. All you have to do is to talk into the phone, and the phone will recognize your voice and complete tasks by itself.

## Activating Automatic Speech Recognition

**To activate Automatic Speech Recognition:**

- ▶ From standby mode, press .

The phone displays the Command menu and prompts you to say the name of the command you want to use. To complete your task, simply follow the voice prompts.

**The following is a list of available ASR commands:**

- **Call** to call an entry in your Contacts list. (See page 123 for details.)
- **Dial Number** to dial a phone number by speaking the number. (See page 124 for details.)
- **Find** to find an entry stored in your Contacts list. (See page 124 for details.)
- **International** to make an international call. (See page 125 for details.)
- **Phone Status** to tell you the current phone status.
- **Voice Tag** to call an entry in your Contacts list by speaking voice tag. (See page 125 for details.)
- **My Phone#** to display your phone number.
- **Digit Training** to train the phone to your voice to achieve better recognition. (See page 126 for details.)
- **Prompt On** or **Prompt Off** to activate or deactivate voice prompt.
- **Go to** <item or application> to jump directly to the menu items or applications. (See page 127 for details.)

**Tip:** When you display a Command menu, say “**More**” or “**Previous**” to display additional commands or go back to the previous command display.

**Note :** Use the Automatic Speech Recognition feature in a quiet environment so it can accurately identify your voice.

**Tip :** During ASR operation, select **Help** (right softkey) to get instructions for Automatic Speech Recognition.

## Making a Voice Call by Using ASR

With ASR, you can make a voice call by speaking a name, phone number, or using a voice tag.

### To make a voice call by speaking a name:

1. Press  to activate the Command menu.
2. Say “**Call**” to your phone.
3. Say the full name of a contact in your Contacts list (for example, “John Jones”).
4. Say the phone type you’d like to call (for example, “Mobile”).

**Shortcut:** To execute several commands at a time, you can also say several commands continuously (for example, “Call, John Jones, Mobile”).

5. The phone will automatically place a call if it recognizes your voice.
6. When you are finished, press .

**Tip:** During ASR operation, you can also select your desired items by using the navigation key or pressing available softkeys on the display.

## To make a call by speaking a phone number:

1. Press  to activate the Command menu.
2. Say “**Dial Number**” to your phone.
3. Say the phone number you wish to dial, one digit at a time.

### Shortcut:

You can also say “Dial Number” followed by the number you want to call.

4. The phone automatically places the call if it recognizes your voice.
5. When you are finished, press .

### Note:

If the phone does not recognize the name/number, the phone will find the most likely match name/number and display a list of up to three names/numbers. You will hear the voice prompt “Did you say...” followed by the matched name/number. You can confirm the name/number by saying “Yes,” or say “No” to change the selection.

## Finding Contacts List Entries

This feature allows you to find an entry in your Contacts list by saying the name.

### To find a contact in the Contacts list:

1. Press  to activate the Command menu.
2. Say “**Find**” to your phone.
3. Say the full name of a contact in your Contacts list (for example, “John Jones”).
4. The phone will display the contact details for the recognized name.
5. To make a call, select the desired number from the list by using your navigation key and press .

## Making a Call Using a Voice Tag

With a voice tag you record, your phone will automatically dial a phone number. (To create a voice tag, see “Programming Voice Dial Tags” on page 120.)

### To make a call by using a voice tag:

1. Press  to activate the Command menu.
2. Say “**Voice Tag**” into your phone.
3. Say your recorded voice tag. (The phone automatically places the call if it recognizes your voice.)
4. When you are finished, press .

## Making International Calls by Using ASR

Your phone’s ASR Dialing feature allows you to make international calls by speaking the digits of the country code.

### To make international calls by using ASR:

1. Press  to activate the Command menu.
2. Say “**International.**”
3. Say the country code, one digit at a time.
4. Say the phone number you wish to dial, one digit at a time. (The phone automatically places the call if it recognizes your voice.)
5. When you are finished, press .

## Using Digit Training

This feature allows you to train the phone to recognize your voice when speaking a phone number. You can get better recognition accuracy by programming your intonation pattern into your phone.

### To program Digit Training:

1. Press  to activate the Command menu.
2. Say “**Digit Training**.”
3. Say “**Start**” or select **Start** (left softkey) to start programming.
4. Follow the voice prompts and recite the digits into your phone’s microphone. (A voice prompt will indicate the current rate of adaptation.)
5. Respond to the voice prompt repeatedly until adaptation is complete. (When you have finished training, you will hear a confirmation that the adaptation has been successfully completed.)

#### Note:

Try digit training in a quiet environment for the best results. When you train, make sure you speak clearly and distinctly in your natural voice.

### To activate Digit Training:

1. Press  to activate the Command menu.
2. Say “**Digit Training**.”
3. Say “**On**” or select **On** (right softkey) to activate the existing data. (A voice prompt will announce the activation of digit training.)

### To deactivate Digit Training:

1. Press  to activate the Command menu.
2. Say “**Digit Training**.”
3. Say “**Off**” or select **Off** (right softkey) to deactivate the existing data. (A voice prompt will announce the deactivation of digit training. The adaptation returns to its default setting.)

## Opening the Menu by Using ASR

This feature allows you to jump directly to the menu items or applications by saying “**Go to**” followed by an item in the menu.

### To access the menu by using ASR:

1. Press  to activate the Command menu.
2. Say “**Go to**” and the menu you want to open (for example, “Go to Messaging”).
3. The menu you have chosen will open.

## Making a Ready Link Call by Using ASR

You can place a Ready Link call by using automatic speech recognition from your Ready Link List. To make a Ready Link Call, your phone's Ready Link mode must be set to **Enable**. (See "Setting Ready Link Mode" on page 163 for details.)

### To make a Ready Link Call by using ASR:

1. Press and hold the Ready Link/Recorder button on the side of your phone (●●●). (The Command menu of your Ready Link List will display.)
2. Choose from one of the following options:
  - **Call** to place a Ready Link call from the Personal List.
  - **Group** to place a Ready Link call from the Personal Groups.
  - **Dial Number** to place a Ready Link call by speaking a number.
3. Say "**Call**," "**Group**" or "**Dial Number**."
4. Say the contact's name in your Ready Link List or the digits of the phone number. (Wait for the prompt.)
5. To place the call, press and hold ●●●. (See "Making and Receiving a Ready Link Call" on page 165 for details.)

#### Tip:

If you say "Call" or "Dial Number" during step 4 above, you can say additional commands continuously (for example, "Call, John Jones" or "Dial Number, 999-999-9999").

# Using the Voice Recorder

With this feature, you can easily record meetings, lectures, or even brief memos to remind you of important events, phone numbers, or grocery list items.

**Tip:** If you haven't signed up for the Ready Link service and Ready Link mode is set to Disable or the Ready Link service is locked, you can use the Ready Link/Recorder Button as a Voice Recorder button in standby mode. You can use it to record memos or display voice recorder options.

## Recording Voice Memos

**To record a voice memo:**

1. Select  > **Tools > Voice Services > Voice Recorder > Record** or **Record:Speaker**.
2. Start recording after the beep.

**To end the recording of your voice memo:**

▶ Press ,  or .

**Note:** Your phone can store up to 1000 voice memos (maximum recording time for each memo is 12 hours).

The total recording time depends on the available memory space on your phone.

**Shortcut:** From standby mode, press and hold the Ready Link/Recorder button on the side of the phone to record a voice memo.

### To record a voice memo with the phone closed:

1. When the phone is closed, press the side camera key to activate the launch menu.
2. Press the external control key up or down to select **Voice Recorder**, and press .
3. Select **Record:Speaker** and press .
4. Start recording after the beep.

### To end the recording of your voice memo:

- ▶ Press and hold .

## Reviewing Voice Memos

### To play the voice memos you have recorded:

1. Select  > **Tools > Voice Services > Voice Recorder > Play** or **Play:Speaker > Voice Data**.
2. Select a voice memo from the list or select **All** if you want to play all voice memos continuously.
3. Select **Play** (left softkey) to play the voice memos.
  - Select **Speed** (left softkey) to change the playing speed.
  - Select **Pause** (right softkey) to pause. To restart, select **Play** (right softkey).

### To review the voice memos with the phone closed:

1. Press the side camera key to activate the launch menu.
2. Using the Side Volume key or external control key, select **Voice Recorder**.
3. Select **Play:Speaker > Voice Data**.
4. Select the voice memo you want to play and press  to play.

## Setting the Recording Guard

With this feature, you can record voice memos without interruption by incoming calls.

### To set the recording guard:

1. Select  > **Tools** > **Voice Services** > **Voice Recorder**.
2. Highlight **Record** or **Record:Speaker**, and then select **RecGuard** (right softkey).
3. Select **On** or **Off** and press .

While Recording Guard is on, your phone's standby screen will display "Phone Off." You cannot make or receive calls.

## Voice Memo Options

There are several user options available for managing voice memos.

### To display the voice memo options:

1. Select  > **Tools** > **Voice Services** > **Voice Recorder** > **Play** or **Play:Speaker** > **Voice Data**.
2. Select the desired voice memo and select **Options** (right softkey).
3. To select an option, highlight it and press .
  - **Speaker On** or **Speaker Off** to activate or deactivate speakerphone mode.
  - **Play Selected** or **Play All** to play a selected voice memo or all voice memos.
  - **Display/Edit** to edit or display details relating to your voice memos.
  - **Go to Time** to set the starting point of the recording.
  - **Send via Bluetooth** to send voice memo via Bluetooth.
  - **Erase** or **Erase All** to erase an individual memo or all voice memos.

## Erasing Voice Memos

To erase an individual voice memo:

1. Select **MENU** > **Tools** > **Voice Services** > **Voice Recorder** > **Play** or **Play:Speaker** > **Voice Data**.
2. Select the memo you want to erase and select **Options** (right softkey) > **Erase** > **Yes**.

To erase all voice memos:

1. Select **MENU** > **Tools** > **Voice Services** > **Voice Recorder** > **Erase All** > **Voice Data**.
2. Select **Yes** to erase all voice memos saved in the phone.

**Tip:** If you select **All** during step 1 above, you can erase all voice recordings (voice memos and call memos) saved in the phone.

## Recording Call Memos

You can use your phone's Voice Services to record the other party's voice during a phone call.

To record a call memo:

1. During a call, select **Options** (right softkey) > **Tools** > **Voice Services** > **Call Memo** > **Record**.
2. Start recording after the beep.
3. To finish recording, press **MENU** or **Back**.
  - Recording also stops when the call is disconnected.

**Note:** Only the other party's voice is recorded during this process.

**Tip:** To record a call memo with the phone closed, press and hold the Ready Link/Recorder button while you're on a call.

## Reviewing Call Memos

To play the call memos you have recorded:

1. Select  > **Tools > Voice Services > Voice Recorder > Play or Play:Speaker > Call Memo.**
2. Select a call memo from the list or select **All** if you want to play all call memos continuously.
3. Press  to play the call memos.
  - Select **Slow** (left softkey) or **Fast** (right softkey) to change the playing speed.

To review the call memos with the phone closed:

1. Press the side camera key to activate the launch menu.
2. Using the Side Volume key or external control key, select **Voice Recorder.**
3. Select **Play:Speaker > Call Memo.**
4. Select the call memo you want to play and press  to play.

## Erasing Call Memos

To erase an individual call memo:

1. Select  > **Tools > Voice Services > Voice Recorder > Play or Play:Speaker > Call Memo.**
2. Select the memo you want to erase and select **Options** (right softkey) > **Erase > Yes.**

To erase all call memos:

1. Select  > **Tools > Voice Services > Voice Recorder > Erase All > Call Memo.**
2. Select **Yes** to erase all call memos saved in the phone.

# Setting Up Screen Call

This feature enables you to screen incoming calls by using a recorded announcement, either one that is prerecorded or one that you have recorded. You can also record the caller's message into the Voice Data list.

## Activating Screen Call

**To start Screen Call when you have incoming calls:**

- ▶ When the phone rings or vibrates, select **Options** (right softkey) > **Screen Call**.

**To set Auto Screen Call:**

1. Select  > **Tools** > **Voice Services** > **Screen Call** > **Auto**.
2. Select **On** and press .
3. Set the answering time by using numeric keys or by pressing the navigation key up or down.
4. Select **OK** (left softkey). (The  icon is displayed on the standby display.)

**Tip:**

While the caller's message is being recorded, press **TALK** to answer the call, or press **END** to stop recording and disconnect the call.

## Selecting an Announcement for Screen Call

To select a Screen Call announcement:

1. Select  > **Tools** > **Voice Services** > **Screen Call** > **Announcement**.
2. Select **Pre-Recorded** or **Custom** and press .

## Recording Your Name for a Prerecorded Announcement

You can use a prerecorded announcement with or without your name. If you record your name, your phone adds your name to the prerecorded message to announce that you are not available to answer calls.

**To record your name:**

1. Select **MENU OK** > **Tools** > **Voice Services** > **Screen Call** > **Announcement**.
2. Select **Pre-Recorded** and select **Edit** (right softkey) > **Record Name**.
3. Press **MENU OK** to start the first recording. (Press **MENU OK** to stop recording. The maximum recording time is 12 seconds.)
4. After the first recording, press **MENU OK** again to start the second recording.
5. Press **MENU OK** to stop recording.

## Recording a Customized Announcement

**To record an announcement:**

1. Select **MENU OK** > **Tools** > **Voice Services** > **Screen Call** > **Announcement**.
2. Select **Custom** and select **Edit** (right softkey) > **Record**.
3. Press **MENU OK** to start the first recording. (Press **MENU OK** to stop recording. The maximum recording time is 12 seconds.)
4. After the first recording, press **MENU OK** again to start the second recording.
5. Press **MENU OK** to stop recording.

## Reviewing an Announcement

To review an announcement:

1. Select  > **Tools** > **Voice Services** > **Screen Call** > **Announcement**.
2. Select **Pre-Recorded** or **Custom**, and select **Edit** (right softkey) > **Play** or **Play:Speaker**.

## Erasing an Announcement

To erase an announcement:

1. Select  > **Tools** > **Voice Services** > **Screen Call** > **Announcement**.
2. Select **Pre-Recorded** or **Custom**, and select **Edit** (right softkey).
3. Select **Erase** or **Erase Name**. (A confirmation will be displayed.)
4. Select **Yes** and press .

## Using the Built-in Camera

- 

**Your phone's built-in camera gives you the ability to take full-color digital pictures, view your pictures using the phone's display, and instantly send them to family and friends.** It's fun and as easy to use as a traditional point-and-click camera: just take a picture, view it on your phone's display, and send it from your phone to up to 25 people.

This section explains the features and options of your phone's built-in camera.

# Taking Pictures

Taking pictures with your phone's built-in camera is as simple as choosing a subject, pointing the lens, and pressing a button. You can activate the phone's camera mode whether the phone is open or closed.

## To take a picture with the phone open:

1. Select  > **Pictures** > **Camera** to activate camera mode. (Additional camera options are available through the camera mode **Options** menu. See "Camera Mode Options" on page 141 for more information.)

### Shortcut:

To activate camera mode, you can also press and hold the camera key.

2. Using the phone's Main LCD as a viewfinder, aim the camera lens at your subject.

### Tip:

You may lock the focus manually by selecting **Focus Lock** (left softkey).

3. Press , , or the side camera key until the shutter sounds.
4. To save the picture, select **Save** (left softkey). (The picture will be saved in the In Phone folder.)
  - To discard the picture and return to camera mode, press ,  or **Cancel** (right softkey).
5. Select **Next** (right softkey) for more options:
  - **Take New Picture** to return to camera mode to take another picture.
  - **Send to Contacts** to send your picture. (See page 153 for details.)

- **Print** to print an image by using PictBridge or by using Bluetooth.
- **Upload** to upload the picture you just took to the Sprint PCS Picture Mail Web site (<http://pictures.qwest.com>). Depending on your settings, you may be prompted to accept a data connection.
- **Review Media** to go to the In Phone folder to review your saved pictures and videos.
- **Send via Bluetooth** to send a picture via Bluetooth.
- **Set as** to assign the picture. Select an option and press .
- **Delete** to delete the picture you just took.
- **Details/Edit** to edit or display details relating to your pictures.

### To take a picture with the phone closed:

1. Press the side camera key to activate the launch menu.
2. Select **Camera**.
3. Point the camera lens at your subject. (You can check the picture framing through the external display screen.)
4. Press the side camera key or  on the external control key to take the picture.

## Creating Your Sprint PCS Picture Mail Password

The first time you use any of the picture management options involving the Sprint PCS Picture Mail Web site, you will need to establish a Sprint PCS Picture Mail password through your phone. This password will also allow you to sign in to the Sprint PCS Picture Mail Web site at <http://pictures.qwest.com> to access and manage your uploaded pictures and albums.

### To create your Sprint PCS Picture Mail password:

1. Select  **> Pictures > My Albums > Online Albums.**  
(You will be prompted to create a Sprint PCS Picture Mail password.)
2. Enter your password and press . (You will be prompted to confirm your password.)
3. Please wait while the system creates your account.

#### Tip:

Write down your Sprint PCS Picture Mail password in a secure place.

Once you have received confirmation that your account has been successfully registered, you may upload and share pictures and access the Sprint PCS Picture Mail Web site.

## Camera Mode Options

When the phone is open and in camera mode, select **Options** (right softkey) to display additional camera options:

- **Picture Mode** to select a picture mode from **Normal**, **Beach/Snow**, **Scenery**, **Mirror Image**, **Night/Dark**, or **Self Portrait**.
- **Flash** to activate the flash. (See “Setting the Flash” on page 142 for details.)
- **Auto Focus** to use the autofocus functions. (See “Setting Autofocus” on page 144 for details.)
- **Zoom** to zoom in on a subject. (See “Using the Zoom” on page 144 for details.)
- **Self-Timer** to activate the camera’s timer. (See “Setting the Self-Timer” on page 142 for details.)
- **Fun Tools** to select an option from the following:
  - **Multiple Shots** to take multiple shots. (See “Taking Multiple Shots” on page 143.)
  - **Fun Frames** to select your favorite fun picture frame to decorate your picture.
  - **Color Tone** to select a wide variety of color tones for the picture.
- **Image Controls** to select an option from **Brightness**, **White Balance**, **Sharpness**, or **Contrast**.
- **Camera Settings** to select your settings. (See “Selecting Camera Settings” on page 145 for details.)
- **Review Media** to go to the In Phone folder to review your saved pictures and videos.
- **Camcorder Mode** to switch to video mode. (See “Recording Videos” on page 147 for details.)
- **Key Guidance** to indicate the key functions in camera mode.
- **My Favorite Settings** to select your favorite setting.

## Setting the Flash

### To activate the flash:

1. From camera mode, select **Options** (right softkey) > **Flash**.
2. Select one of the following options and press :
  - **Off** to deactivate the flash.
  - **On This Shot** to activate the flash for one shot.
  - **On Always** to activate the flash for all pictures.
  - **Auto** to activate the flash automatically.

## Setting the Self-Timer

### To activate the self-timer:

1. From camera mode, select **Options** (right softkey) > **Self-Timer**.
2. Highlight the length of delay you want the timer to use (**10 Seconds** or **5 Seconds**) and press .
3. Select **Start** (left softkey) when you are ready to start the timer. (⌚ appears on the upper right portion of the Main LCD during the self-timer countdown.)
4. Get ready for the picture. (When the timer is down to three seconds, the self-timer icon will turn red and the phone will begin to beep.)

### To cancel the self-timer after it has started:

- ▶ Select **Cancel** (right softkey).

#### Note:

While the self-timer is active, all keys are disabled except **Back**, **END**, and the right softkey button (**Cancel**).

## Taking Multiple Shots

This feature allows you to take up to nine continuous shots in sequence. When you take multiple shots, the  icon will be displayed in the viewfinder.

### To take multiple shots:

1. From camera mode, select **Options** (right softkey)>  
**Fun Tools > Multiple Shots.**

#### Note:

When taking multiple shots, the resolution is temporarily set to Low (240x320).

2. Select an option from the following and press .
  - **Off** to deactivate multiple shots.
  - **3 Shots** to take a series of 3 shots.
  - **6 Shots** to take a series of 6 shots.
  - **9 Shots** to take a series of 9 shots.
3. Select the duration of the interval between shots (**Normal** or **Fast**) and press .
4. Select  to take the pictures.
5. Select **Save** (left softkey) to save the pictures. (The Multiple Shots folder will be displayed, up to nine thumbnail pictures per screen.)
6. Select **Next** (right softkey) to display picture options, or press  to return to Camera mode to take another picture.

## Setting Autofocus

With this feature, you can adjust the focus automatically depending on the distance of the subject from the camera lens. By default, the autofocus is set to on.

### To set autofocus:

1. From camera mode, select **Options** (right softkey) > **Auto Focus**.
2. Select **On** or **Off** and press 
  - While in camera mode, you can select **Focus Lock** (left softkey) to lock the focus. To take the picture, select **Capture** (left softkey), or press , , or the side camera key.

## Using the Zoom

This feature allows you to zoom in on an object when you take a picture. You can adjust the zoom from 1x to 16x.

### To use the zoom:

1. From camera mode, press the navigation key right or left, or the Side Volume key up or down to adjust the zoom. (The gauge bar is displayed.)
2. Press  to take the picture.

#### Tip:

If you are taking a picture with the phone closed, you can zoom in and out by pressing the external control key left or right.

## Selecting Camera Settings

To select your camera settings:

1. From camera mode, select **Options** (right softkey) > **Camera Settings**.
2. Select one of the following options and press :
  - **Resolution** to select a picture's file size (**2M-1200x1600**, **1.3M-960x1280**, **Medium-480x640**, or **Low-240x320**).
  - **Quality** to select the picture quality setting (**Fine**, **Normal**, or **Economy**).
  - **Shutter Sound** to select a shutter sound (**Default**, Say "Cheese," "Ready," or **Off**).
  - **Status Bar** to switch the status bar display on or off.

## Using the Settings & Info Menu

The Settings & Info menu allows you to set up many of the settings of your phone's picture's function.

To access the settings and info menu:

1. Select  > **Pictures > Settings & Info**.
2. Select one of the following options and press .
  - **Location** to select whether to include the location information.
  - **Status Bar** to select whether to display the information bar for the pictures and videos.
  - **Slideshow Interval** to set the slideshow interval time.
  - **Help** to view the Pictures instruction page.

## Camera Icon Indication

Function		Icons	Details
Auto Focus			To use the autofocus function.
Flash	On This Shot		To use the flash for only one shot.
	On Always		To use a flash every time you take a picture.
	Auto		To use the auto flash function.
Picture Mode	Beach/Snow		Use this setting in bright light.
	Scenery		Use this setting for scenery from a distance.
	Mirror Image		Use this setting to take a mirror image.
	Night/Dark		Use this setting in low light.
White Balance	Sunny		Use this setting for sunny weather.
	Cloudy		Use this setting for cloudy weather.
	Tungsten		Use this setting for standard household lighting.
	Fluorescent		Use this setting for fluorescent lighting.
	Manual		To set the white balance manually.
Brightness	Manual		To set brightness manually.
Sharpness	Manual		To set sharpness manually.
Contrast	Manual		To set contrast manually.
Resolution	2M		For 2 megapixel picture resolution.
	1.3M		For 1.3 megapixel picture resolution.
	Medium		For medium picture resolution.
	Low		For low picture resolution.
Self-Timer			Numeric countdown will appear when the self-timer has been activated.
Multiple Shots			Use this setting for multiple shots.

# Recording Videos

In addition to taking pictures, you can also record, view, and send videos to your friends and family with your phone's built-in video camera.

## To record a video:

1. Select  **> Pictures > Camcorder** to activate video mode. (Additional video options are available through the video mode **Options** menu. See "Video Mode Options" on page 148 for more information.)
2. Using the phone's main LCD as a viewfinder, aim the camera lens at your subject.

### Tip:

You may lock the focus manually by selecting **Focus Lock** (left softkey).

3. Press  , or the side camera key to begin recording.
4. Press , **Stop** (right softkey), or the side camera key to stop recording. (The recorded video is automatically saved in the In Phone folder.)
5. Select **Next** (right softkey) for more options:
  - **Take New Video** to return to video mode to take another video.
  - **Play** to play the video you just took.
  - **Send to Contacts** to send your video. (See page 153 for details.)
  - **Upload** to upload the video you just took to the Sprint PCS Picture Mail Web site.
  - **Review Media** to go to the In Phone folder to review your saved pictures and videos.
  - **Send via Bluetooth** to send the video via Bluetooth.
  - **Set as** to assign the video. Select an option and press .
  - **Delete** to delete the video you just took.
  - **Details/Edit** to edit or display details relating to your videos.

### To take a video with the phone closed:

1. Press the side camera key to activate the launch menu.
2. Using the Side Volume key or external control key, select **Camcorder**.
3. Point the camera lens at your subject. (You can check the video framing through the Sub LCD.)
4. Press the side camera key or  on the external control key to start recording.
5. Press the side camera key or  on the external control key to stop recording.

## Video Mode Options

Several options are available from video mode.

Select **Options** (right softkey) to display additional options:

- **Video Mode** to select a video mode from **Normal**, **Beach/Snow**, **Scenery**, **Mirror Image**, **Night/Dark**, or **Self Portrait**.
- **Video Light** to select a Video Light setting. Select **On** to turn on the video light.
- **Auto Focus** to use the autofocus function.
- **Zoom** to zoom in on an object. You can adjust the zoom from 1x to 9x.
- **Self-Timer** to activate the timer function. (See “Setting the Self-Timer” on page 142 for details.)
- **Color Tone** to select a wide variety of color tones for your video.
- **Image Controls** to select an option from **Brightness**, **White Balance**, or **Contrast**.
- **Camcorder Settings** to select your settings. (See “Selecting Camcorder Settings” on page 149 for details.)
- **Review Media** to go to the In Phone folder to review your saved pictures and videos.

- **Camera Mode** to switch to camera mode (if applicable).
- **Key Guidance** to indicate the key functions in video mode.
- **My Favorite Settings** to select your favorite setting.

## Selecting Camcorder Settings

To select your camcorder settings:

1. From video mode, select **Options** (right softkey) > **Camcorder Settings**.
2. Select an option from the following.
  - **Resolution** to select a file size (**High**–320x240 or **Good**–176x144) for a video.
  - **Quality/Length** to select video quality from **Economy**–30sec., **Normal**–15sec., **Rich**–10sec., or **Rich**–120min.
  - **Silent Movie** to select **On** to record without sounds. Select **Off** to deactivate this feature.
  - **Cue Sound** to select a cue sound (**Default**, “**Action & Cut**,” “**Ready & Stop**,” or **Off**).
  - **Skins** to select your favorite frame.

**Note:**

Recording time varies depending on the Quality/Length setting.

## Video Icon Indication

Function		Icons	Details
Auto Focus			To use the autofocus function.
Video Light			Appears when the video light setting is on.
White Balance	Same as Camera Icon Indication. (See table for details.)		
Brightness	Manual		To set brightness manually.
Video Mode	Same as Camera Icon Indication. (See table for details.)		
Contrast	Manual		To set contrast manually.
Resolution	Good		For good video resolution.
	High		For high video resolution.
Silent Movie	On		Appears when the silent movie setting is on.
	Off		Appears when the silent movie setting is off.
Self-Timer			Numeric countdown will appear when the self-timer has been activated.

## Storing Pictures and Videos

Your phone's picture and video storage area is called **My Albums**. There are two types of storage areas for your pictures and videos that can be used separately according to your needs:

- **In Phone** (see page 151)
- **Online Albums** (see page 157)

## In Phone Folder

The storage area of your phone is called the **In Phone** folder and it can store up to 1000 images. From the In Phone folder, you can view pictures and videos saved in your phone, send them to the Sprint PCS Picture Mail Web site (<http://pictures.qwest.com>), delete images, and access additional options.

### To review your pictures and videos saved in the In Phone folder:

1. Select  **> Pictures > My Albums > In Phone**. (Thumbnails will be displayed, up to nine at a time.)
2. Use your navigation key to view and scroll through the pictures and videos.

## In Phone Folder Options

When you are viewing the In Phone folder, select **Options** (right softkey) to display the following options:

- **Play** to play your videos.
- **Send to Contacts** to send your pictures and videos. (See page 153 for details.)
- **Upload** to upload pictures and videos from the In Phone folder to the Sprint PCS Picture Mail Web site (<http://pictures.qwest.com>).
- **Print** to print an image by using PictBridge or by using Bluetooth.
- **Send via Bluetooth** to send your pictures and videos via Bluetooth.
- **Set as** to assign the picture or video. Select an option and press .
- **Delete** to delete pictures and videos.

#### Note:

Deleting data will free up memory space to enable you to take more pictures and videos. Once deleted, the data cannot be uploaded your online Sprint PCS Picture Mail account or your phone.

- **Details/Edit** to edit or display details relating to your pictures or videos.
- **Slideshow** to view your pictures in slideshow mode.

- **Media Filter** to filter only pictures, only videos, or to display all media files.
- **Album List** to display the album list.
- **Camera Mode** to activate camera mode.
- **Camcorder Mode** to activate video mode.

**Tip:**

While displaying the In Phone folder, you can select **Info** (right softkey) to display album information.

## Assigned Media Folder

When you assign a picture or video, it will automatically be saved in the **Assigned Media** folder. The folder allows you to store copies of pictures on your phone and to assign pictures and videos to various phone tasks.

### To save a picture or video to the Assigned Media folder:

1. From the In Phone folder (see “In Phone Folder” on page 151), select a picture or video you wish to save to the Assigned Media folder and press .
2. Select **Options** (right softkey) > **Set as**.
3. Select an option and follow the onscreen instructions to assign. (A copy of the picture will automatically be saved to the Assigned Media folder.)

### To view pictures and videos stored in the Assigned Media folder:

1. Select  > **Tools** > **Assigned Media**. (Thumbnails will be displayed, up to nine at a time.)
2. Use your navigation key to view and scroll.

# Sending Sprint PCS Picture Mail

Once you've taken a picture or video, you can use the messaging capabilities of your phone to instantly share your picture or video with family and friends. You can send pictures or videos to up to 25 people at a time using their email addresses or their wireless phone numbers.

## Sending Pictures and Videos From the In Phone Folder

To send pictures from the In Phone folder:

1. Select **MENU OK** > **Pictures** > **My Albums** > **In Phone**.
2. Highlight a picture or video you wish to send and press **MENU OK**. (The check box on the lower right corner will be marked. You can select multiple pictures and videos.)
3. Select **Options** (right softkey) > **Send to Contacts**.

### Note:

The first time you send Sprint PCS Picture Mail, you will be prompted to establish a Sprint PCS Picture Mail Web site account and password. (See "Creating Your Sprint PCS Picture Mail Password" on page 140.)

4. Select one of the following options and press **MENU OK**:
  - **Contacts** to select recipients from your Contacts list. Highlight a recipient and press **MENU OK** to select.
  - **Phone#** to enter a phone number directly.
  - **Email** to enter an email address directly.

### Tip:

You can also select **Others** (right softkey) to select recipients from your desired list.

5. Select **Next** (left softkey) when you have finished adding recipients. (You may include up to 25 recipients per message.)
6. If you wish to include a subject, scroll to **Subject** and enter your subject using the keypad.
7. If you wish to include a text message, scroll to **Text**, and then enter your message using your keypad (or select **Mode** [right softkey] to change the input mode). (See “Entering Text” on page 38.)
8. If you wish to include a voice message with the picture and video, scroll to **Audio** and select **Record** (right softkey) to record. (Maximum recording time is 10 seconds.)
9. To set the priority, scroll to **Priority**, and then select **High**, **Normal**, or **Low**.
10. Confirm the recipients, message, voice message, and picture or video. (You may also select additional options by selecting the right softkey. Follow the onscreen instructions to add available options.)
11. Press the appropriate softkey to send the pictures and videos.

## Sending Pictures and Videos From Messaging

You can also send Sprint PCS Picture Mail from your phone's Messaging menu.

**To send pictures and videos from the Messaging menu:**

1. Select  > **Messaging** > **Send Message** > **Picture Mail**.
2. Select **Contacts**, **Phone#**, or **Email** to select or enter recipients.
3. Select **Next** (left softkey).
4. Select **In Phone** or **Online Albums**.
5. Use the navigation key to select the picture or video you wish to send and press . (You can select multiple pictures and videos.)
6. Select **Next** (left softkey). To complete and send the pictures or videos, follow steps 6-11 in "Sending Pictures and Videos From the In Phone Folder" on page 153.

### Tip:

To take and send a new picture or a video from Messaging, select **Take New Picture** or **Take New Video** during step 4 above. Then take the new picture or video, select **Next** (right softkey), and follow steps 6-11 in "Sending Pictures and Videos From the In Phone Folder" on page 153.

# Managing Sprint PCS Picture Mail

---

## Using the Sprint PCS Picture Mail Web Site

Once you have uploaded pictures and videos from your phone to your online Sprint PCS Picture Mail account at <http://pictures.qwest.com> (see “Uploading Pictures and Videos” on page 157), you can use your personal computer to manage your pictures. From the Sprint PCS Picture Mail Web site (<http://pictures.qwest.com>) you can share pictures and videos, edit album titles, add captions, and organize images. You can even send your pictures to be printed at participating retail locations.

You will also have access to picture management tools to improve and customize your pictures. You'll be able to lighten, darken, crop, add antique effects, add comic bubbles and cartoon effects, and use other features to transform your pictures.

### **To access the Sprint PCS Picture Mail Web site:**

1. From your computer's Internet connection, go to <http://pictures.qwest.com>.
2. Enter your phone number and Sprint PCS Picture Mail password to register. (See “Creating Your Sprint PCS Picture Mail Password” on page 140.)

## Managing Online Pictures and Videos From Your Phone

You can use your phone to manage, edit, or share pictures and videos you have uploaded to the Sprint PCS Picture Mail Web site at <http://pictures.qwest.com>. (See “Uploading Pictures and Videos” below for information about uploading.)

### To view your online pictures and videos from your phone:

1. Select  > **Pictures** > **My Albums** > **Online Albums**.
2. Highlight an album title and press  to display thumbnail images.

#### Tip:

To switch a selected picture from thumbnail view to expand view mode, select **Expand** (left softkey).

3. Use your navigation key to select a picture or video.
4. Select **Options** (right softkey) to display your online picture or video options.

## Uploading Pictures and Videos

### To upload pictures and videos:

1. Select  > **Pictures** > **My Albums** > **In Phone**.
2. Select the picture(s) and video(s) you wish to upload, and then select **Options** (right softkey) > **Upload**.
3. Select **This**, **Selected**, or **All**.
4. Select **“Uploads”Area** or **Other Albums**.

## Downloading Your Online Pictures and Videos

From your online Sprint PCS Picture Mail albums display at <http://pictures.qwest.com>, you can select pictures and videos to download to your phone's In Phone folder.

**To download pictures and videos from the Sprint PCS Picture Mail Web site:**

1. From the online pictures display, select the pictures and videos you wish to download and select **Options** (right softkey). (See “Managing Online Pictures and Videos From Your Phone” on page 157.)
2. Select **Save to..** and press .

## Accessing Online Picture and Video Options From Your Phone

**To access your online Picture and Video options from your phone:**

1. Select a picture or video from your Online Albums. (See “Managing Online Pictures and Videos From Your Phone” on page 157.)
2. Select **Options** (right softkey) to display options.
3. To select an option, highlight it and press .
  - **Play** to play the video.
  - **Send to Contacts** to send your picture or video.
  - **Set as** to assign the picture or video.
  - **Save to..** to save the pictures and videos to the In Phone folder.
  - **Delete** to erase pictures and videos saved in the current album (or Uploads folder).
  - **Copy/Move** to copy or move pictures and videos to a selected album.

- **Details/Edit** to edit or display details relating to your pictures or videos.
- **Media Filter** to filter only pictures or only videos, or to display all media files.
- **Album List** to display the album list.

**Note:** The online Picture and Video options may vary depending on the item you select.

### To access your Online Albums options from your phone:

1. Display the album list in the Online Sprint PCS Picture Mail menu. (See “Managing Online Pictures and Videos From Your Phone” on page 157.)
2. Use your navigation key to select an album (or Uploads folder).
3. Select **Options** (right softkey) to display options.
4. To select an option, highlight it and press .
  - **Edit/Delete** to select an option from the following:
    - **Delete Album** to delete the selected album.
    - **Rename Album** to rename the selected album.
    - **Album Info** to display detailed information about the album.
  - **Create New Album** to create a new album. Enter a new album name and select **Save** (left softkey).

**Note:** The Uploads folder cannot be erased or renamed.

# Printing Pictures Directly From Your Phone

---

Your phone is PictBridge compatible, allowing you to print directly from your phone without connecting to a computer. Simply connect your phone to a PictBridge-enabled printer and enjoy printing your photos.

## To print pictures directly from your phone:

1. Select  > **Tools** > **USB Connection** > **PictBridge**.  
— or —  
Select  > **Pictures** > **Print@Home** > **PictBridge**.
2. Connect your phone to the PictBridge-enabled printer by using the included USB cable. (Wait until the connection is completed.)
3. Set the printer settings using your navigation key.
  - **Picture to Print:** You can select the picture from the In Phone folder. (You can select up to 99 pictures.)
  - **Layout:** You can select the print mode from Default Printer, Standard Print, or Index.
  - **Number of Copies:** You can set the number of copies (1-10). (You cannot specify number of copies when Index is selected.)
  - **Print Size:** You can set the print size from Default Printer, 4" x 6", 5" x 7", 8" x 10", or Letter. (Print sizes may vary according to the type of printer you have.)
  - **Date Stamp:** You can imprint the date on your pictures. Select **Yes** or **No**. (Date stamping may not be available depending on the type of printer you have.)
4. When you have finished selecting the printer settings, select **Print** (left softkey).
5. When printing is finished, press .
6. Select **Yes**. Follow the instructions on the display to unplug the USB cable from the phone.

**Note:**

While you are connected to the printer, your phone's screen will display "Phone Off." You cannot make or receive calls during this time.

---

Make sure your battery is fully charged before using the PictBridge.

---

Pictures not taken on this phone may not be printable.

**PictBridge  
Error  
Messages:**

From time to time you may encounter printing problems. Any printer error messages will be displayed on your phone, informing you of the specific problems encountered. Please refer to the user's guide that came with your printer for descriptions, explanations, and possible resolutions for any error messages.

# Using Ready Link

---

### In This Section

---

- ◆ **Getting Started With Ready Link** (page 163)
  - ◆ **Making and Receiving a Ready Link Call** (page 165)
  - ◆ **Adding and Editing Ready Link Contacts** (page 172)
  - ◆ **Erasing Ready Link List Entries** (page 177)
  - ◆ **Updating Ready Link Lists** (page 178)
  - ◆ **Managing Ready Link Settings** (page 179)
- 

**Your Ready Link-enabled phone gives you the ability to quickly connect with other Ready Link users for “walkie-talkie-style” communication from anywhere, to anywhere on the home network.**

This section explains the features and options of your phone’s Ready Link capabilities and service.

# Getting Started With Ready Link

Ready Link allows you to enjoy quick, two-way, “walkie-talkie-style” communication with your friends, family, and coworkers. You can make one-to-one or one-to-many calls (up to five others on the same call) to any other Ready Link user, anywhere on the home network. You can make and receive Ready Link calls when your phone displays the Ready Link icon (📞).

## Setting Ready Link Mode

**To enable or disable Ready Link mode:**

- ▶ Select  > **Settings > Ready Link > Enable/Disable > Enable.** (The default is Disable.)
  - **Enable:** Lets you make or receive Ready Link calls anytime your phone is not in use.
  - **Disable:** Disables your phone’s Ready Link service. You will not be able to make or receive Ready Link calls or access your Ready Link contacts.

### Tip:

If you haven’t signed up for the Ready Link service, and Ready Link mode is set to Disable or the Ready Link service is locked, you can use the Ready Link/Recorder Button as a Voice Recorder button in standby mode.

## Preparing Your Phone for Ready Link Service

Every time you turn on your phone, your phone will identify itself and make itself available to the Ready Link network.

When the Ready Link icon () is displayed, your phone is ready to make and receive Ready Link calls.

## Ready Link Call Alerts

There are several ways your phone alerts you during Ready Link calls.

When you make or receive a Ready Link call:

- The phone sounds (depending on the Ringer Type and Ringer Volume setting).
- The backlight illuminates.
- The screen displays a Ready Link call message.
- The other party's Ready Link number and name (if available) are displayed.
- The screen displays who has the floor.

The status of a Ready Link call is displayed as follows:

- The Green LED On indicates you have the floor and may speak.
- The Red LED On indicates another contact has the floor.
- The LED Off indicates the floor is open. (You can take the floor and speak by pressing and holding )

# Making and Receiving a Ready Link Call

## Displaying the Ready Link List

- ▶ From standby mode, press the Ready Link/Recorder button on the side of your phone () to access the Ready Link List.

### Tip:

The first time you access the list, the Ready Link Help message will be displayed. Select **Yes** (left softkey) and **Next** (left softkey) to read a brief introduction to Ready Link.

## Selecting a Contacts List

When your phone displays a Ready Link List, the left softkey is labeled **Go to**. To switch to another contacts list, select **Go to** (left softkey), highlight your desired list, and press .

- **Personal List/Personal Grps.** contain your personal Ready Link contact names and numbers, separately or in groups. You can create and edit your Personal List. Your phone can store a total of 200 entries. (You may include up to five contacts per group.)
- **Outgoing** shows the last 20 different Ready Link calls that you placed.
- **Incoming** shows the last 20 different Ready Link calls that you accepted.
- **Missed** shows the last 20 Ready Link calls that you missed.

## Making a Ready Link Call (One-to-One Call)

You can place a one-to-one Ready Link call by entering a Ready Link number or by selecting a contact from the Ready Link List.

### To place a Ready Link call by selecting a contact:

1. Press .
2. Select **Go to** (left softkey), and then select the list from which you want to place a call (**Personal List, Outgoing, Incoming, or Missed**).

#### Tip:

You can also select **Enter R-Link#** from the **Go to** option to enter a Ready Link number directly. (See page 168 for details.)

3. Scroll to the contact you want to call, and press and hold  to place the call and get the floor. (You will see “R-Link calling...” and “Connecting...” followed by “You have floor.” You can now begin speaking.)

– or –

Scroll to the contact you want to call and press and release  to place the call. (The call will connect as described above, but “Floor is open” will be displayed on the screen. Either you or your contact may press and hold  to take the floor and speak.)

#### Note:

During a Ready Link call, the “floor” is the right to speak. When you see “Floor is open,” the first person to press the Ready Link/Recorder button can speak (while holding the button). Only the person who has the floor can speak. The phone beeps if you press the Ready Link button when another contact has the floor.

4. Continue holding  as you speak. (When you have finished speaking, release  to allow the other party to speak. When the other party takes the floor, you will see the speaker’s name, phone number, and the text “has floor.”)

5. When you are finished, press .

**Note:**

When neither party has the floor during a Ready Link call, "Floor is open" is displayed. If no one takes the floor for 20 seconds, the Ready Link call ends automatically.

**Tip:**

If you press **TALK** or **SPEAKER** during step 3 on the previous page, you can make a standard voice call.

## Making a Ready Link Call (Group Call)

You can make a Ready Link call to all members in a Group entry that you have in your Ready Link List. You can communicate with up to five members at a time.

### To place a Ready Link Group call:

1. Press .
2. Select **Go to** (left softkey), and then select Personal Grps.
3. Scroll to the group you want to call, and press and hold  to place the call and take the floor. (You will see "R-Link calling..." and "Connecting..." followed by "You have floor." Continue with the Ready Link call as described on the previous page.)
  - To make a Ready Link call to a group member, select a group, highlight a group member, and press and hold .
  - If one of the group members takes the floor, you will see the member's name and Ready Link number on the display.
4. When the call is finished, press .

**Tip:**

The phone beeps if you press the Ready Link button when another party has the floor.

You can also make a Group Call after checking the group member. Select **MENU** to display group members, highlight <**Call Group**> and press and hold the Ready Link button during step 3 on the previous page.

To redial your last Ready Link call, highlight Redial and press the Ready Link button from the Ready Link List.

## Making a Ready Link Call by Entering a Number

### To place a Ready Link call by entering a number:

1. From standby mode, enter the Ready Link number you want to dial.
  2. Press  to place the Ready Link call. Continue holding  to take the floor and speak.
    - The contact's name is displayed if there is a matched number in your Ready Link List.
  3. Continue with the Ready Link call, pressing and holding  to speak and releasing it to allow others to reply.
  4. When the call is finished, press .
- or —
1. Press .
  2. Select **Go to** (left softkey) > **Enter R-Link#**.
  3. Enter the Ready Link number you want to dial.
  4. Follow steps 2–4 above.

**Note:**

Ready Link numbers must contain 10 digits (area code + phone number) or 11 digits (1 + area code + phone number). Your Ready Link number is the same as your wireless phone number.

## Missed Call Notification for Ready Link Calls

When an incoming Ready Link call is not answered, the Missed Call Notification is displayed.

### To call the last Missed Ready Link call:

- ▶ Simply press and hold  while the Missed Call Notification is displayed. (Continue with the Ready Link call as described previously.)

#### Tip:

If you have two or more missed calls, the call log list will be displayed. Different icons will be displayed for different types of notifications.

### To erase the Missed Call log:

- ▶ Select **Dismiss** (right softkey).

### To display the Missed Ready Link Call log:

- ▶ Select **View** (left softkey) while the Missed Call Notification is displayed. To call the entry, highlight the entry you want to call, and press and hold . (Continue with the Ready Link call as described previously.)

## Receiving a Ready Link Call

### To receive a Ready Link call:

1. Make sure your phone's Ready Link mode is enabled. (See "Setting Ready Link Mode" on page 163.)
2. When you receive a Ready Link call from a contact, "R-Link Call," the contact's name, and the Ready Link number are displayed. (You do not need to take any action to answer the call.)
  - When you receive a group call, "Group Call," the group member's name, and the Ready Link number are displayed.
3. If the person placing the call has kept the floor (held the Ready Link/Recorder button), you will see the contact's name and Ready Link number along with "has floor," and you will hear the caller speaking.
4. When the caller finishes speaking and releases , you will see "Floor is open" on the display screen. Press and hold  to take the floor and reply to the caller. (You will see "You have floor" and hear a tone confirming that you may speak.)
5. When the conversation is finished, press .

#### Tip:

You can also receive a Ready Link call with the phone closed. Press and hold the Ready Link button to take the floor when the floor is open.

#### Note:

You can change the volume and the speaker setting while a Ready Link call is activated. **Volume:** Adjust the voice volume by using the Side Volume key or by pressing the navigation key up or down (except when you are pressing and holding the Ready Link button). **Speaker:** Switch the speaker on or off by pressing the Speaker button.

## Ready Link Options

When you use Ready Link, several user options are available by selecting **Options** (right softkey). To select an option, highlight it and press .

- **Edit** to edit a Ready Link number or name. (See “Editing a Contact in Your Personal List” on page 176.)
- **Send Message** to send a Text or Picture Mail message.
- **Copy to Personal** to copy a contact to the Personal List.
- **Copy to Ph. Book** to copy a contact to the Contacts list.
- **Erase** to erase a contact. **Erase Group** is displayed when you highlight a group.
- **Add Contact** to add a new contact. **Add Group** is displayed when you highlight a group list.
- **Erase R-Link List** to erase entries saved in the Ready Link List and in Ready Link Call History.
- **Help** to see the Ready Link instruction page.

# Adding and Editing Ready Link Contacts

---

## Copying an Entry to Your Personal List or Personal Group List

You can copy an entry to your Personal Lists from several different sources. If the selected entry is already stored in the Personal Lists, the “copy” option is not displayed.

### To copy an entry from the Ready Link List:

1. Press .
2. Select **Go to** (left softkey), and then select the list from which you want to copy an entry (**Personal List**, **Personal Grps.**, **Outgoing**, **Incoming**, or **Missed**).
3. Select the entry you want to copy (or scroll to highlight the **Redial** entry at the top of your screen), and select **Options** (right softkey).  
To select an option, highlight it and press .
  - **Copy to Personal** to copy the contact to the Personal List.  
(This option will not be available if the selected entry is already stored in the List.)
  - **Copy Group** to copy the group to the Personal Group List.
  - **Copy to Ph. Book** to copy the contact to the Contacts list.
4. Select **Yes** (left softkey) to copy and save the entry to your Personal List or Personal Group List.

## Saving a Ready Link Number

When you have finished a Ready Link call, you will see the Ready Link number and the text “R-Link call ended” on the display. You can save a Ready Link number to your Personal Lists from this end display.

### To save the number:

1. From the end display, select **Options** (right softkey) > **Save**.
  - If the entry has no name, you are prompted to enter a name.
2. Select **Yes** (left softkey) to save the entry.

#### Note:

If the number is already stored in the Personal List or Personal Groups, the “Save” option is not displayed.

## Finding an Entry in the Ready Link List

You can find your desired entry by entering a few letters.

### To find a Ready Link entry:

1. Press **...**.
2. Select **Go to** (left softkey), and then select your desired list (**Personal List** or **Personal Grps.**).
3. Enter the first letter or the first few letters of the name.
  - The display shows the list beginning with the letter(s) you entered.
4. Scroll through the list and press **MENU OK** to select your desired entry.

## Adding a New Contact to Your Personal List

You can store a total of 200 entries in the Personal Lists.

### To add a new Ready Link contact:

1. Press .
2. Select **Go to > Personal List > Add Contact**.  
— or —  
Select a contact, select **Options** (right softkey), and then select **Add Contact**.
3. Enter a name for the new contact and press . (This is the name you will see when calling or receiving a call from the contact.)
4. Select **R-Link Number**, enter the contact's 10-digit Ready Link number (the contact's wireless phone number), and press .
5. Select **Save** (left softkey) to save the new contact to your Personal List.

#### Tip:

Tip: You are not allowed to use the following symbols during step 3: @ : ; / \* ) (.

## Adding a New Group to Your Personal Group List

You can add new groups to the Personal Group List. Each group can include up to five members. You can enter a group member directly or select the member from the Personal List.

### To add a new Ready Link group entry:

1. Press **...**.
2. Select **Go to > Personal Grps. > Add Group**.  
— or —  
From the Personal Group List, select an entry, and then select **Options** (right softkey) > **Add Group**.
3. Enter a Group Name, press **MENU OK**, and select **Next** (left softkey).
4. To add contacts to the group, select **Add** (right softkey).
5. Highlight one of the following options and press **MENU OK**:
  - **New** to add a new contact. See the previous page for details.
  - **from Personal** to add a contact from your Personal List.
6. Scroll to the contacts you want to add and press **MENU OK** or select **Pick** (right softkey) to include the entries.
7. Select **Done** (left softkey) when you have finished selecting contacts, and then select **Update** (left softkey) to update your Personal Group List with the new group entry.

#### Tip:

You can also add members directly. From step 4 above, highlight **<Add Members>** and press **MENU**. Enter the new member's name and R-Link number and select **Save** (left softkey) to save the entry.

## Editing a Contact in Your Personal List

To edit a Personal List contact:

1. Press .
2. Select **Go to > Personal List**.
3. Scroll to the entry you want to edit and select **Options** (right softkey).
4. Select **Edit**, and then select the field you want to edit (**Name** or **R-Link Number**).
5. Edit the entry, select **OK** (left softkey), and then select **Save** (left softkey) to save your changes.

## Editing a Group in Your Personal Group List

To edit a group name:

1. Press .
2. Select **Go to > Personal Grps**.
3. Scroll to the group entry you want to edit and select **Options** (right softkey) **> Edit**.
4. Edit the group name and select **OK** (left softkey).

**Tip:**

If you don't need to edit the group name, select **Next** (left softkey) during step 4 above and skip step 5.

5. Select **Save** (left softkey) to save your changes.
6. To edit a group member, scroll to the contact you want to edit and select **Options** (right softkey).
7. Select **Edit**, and then select the field you want to edit (**Name** or **R-Link Number**).

8. Edit the entry, select **OK** (left softkey), and select **Save** (left softkey) to save your changes.
9. Select **Update** (left softkey) to update your Personal Group List.

## Erasing Ready Link List Entries

---

### Erasing an Entry in Your Personal Lists

**To erase a contact or a group:**

1. From the Ready Link List, select **Go to**, and then select **Personal List** or **Personal Grps**.
2. Scroll to the entry you want to erase, and select **Options** (right softkey) **> Erase**.
  - **Erase Group** is displayed when you select **Personal Grps**.
3. Select **Yes**.

**To erase a group member:**

1. From the Ready Link List, select **Go to > Personal Grps**.
2. Scroll to your desired group, and press  to display the group members.
3. Select the contact you want to erase, and select **Options** (right softkey).
4. Select **Erase > Yes > Update** (left softkey) to erase the member and update your Personal Group List.

## Erasing a Ready Link List

You can erase all entries saved in the Ready Link List.

### To erase a Ready Link List:

1. From the Ready Link List, select **Options** (right softkey) > **Erase R-Link List**.
2. Select an option and press 
  - **Outgoing** to erase all outgoing Ready Link calls.
  - **Incoming** to erase all incoming Ready Link calls.
  - **Missed** to erase all missed Ready Link calls.
  - **All Calls** to erase all Ready Link call history (except the redial number).
  - **All Personal Ent.** to erase all entries in Personal List and Personal Grps. You are prompted to enter your four-digit lock code.
3. Select **Yes** and press .

**Tip:**

Redial numbers will not be erased.

## Updating Ready Link Lists

---

### Updating the Personal List

To update your Personal List manually through the Ready Link server:

- Select  > **Settings** > **Ready Link** > **List Update**.

# Managing Ready Link Settings

## Assigning Speed Dialing for Ready Link Entries

To assign speed dialing for Ready Link entries:

1. Select  > **Contacts** > **SpeedDial #s**.
2. Select an unassigned number and press .
3. Select **Go to** (left softkey), and then select the list from which you want to set a speed dial (**Personal List** or **Personal Grps.**).
4. Select the contact and press .

— or —

Select the group, and then select an option.

- **Assign** to assign the selected group as a speed dial.
- **Details** to display the group details. You can select the group member from the group list.

To use speed dial for a Ready Link entry:

- ▶ From standby mode, press the appropriate key, and press .

## Restarting the Ready Link Service

To restart the Ready Link service:

- ▶ Select  > **Settings** > **Ready Link** > **Restart**.

## Setting Ready Link Guard

This feature enables you to display a warning message when you cannot receive Ready Link calls.

### To set the Ready Link Guard:

1. Select  > **Settings** > **Ready Link** > **R-Link Guard**.  
(A message will be displayed.)
2. Select **OK** (left softkey) to continue.
3. Select **On** and press . (Select **Off** to deactivate this feature.)

## Setting Ringer Types for Ready Link Calls

Your phone provides a variety of ringer types that allow you to customize your ringer and volume settings.

### To select a ringer type for Ready Link calls:

1. Select  > **Settings** > **Ready Link** > **Sounds** > **Ringer Type**.
2. Select **Ready Link Calls**, **R-Link Missed**, or **R-Link Floor Tone**.
3. Select your desired ringer type and press .
  - To hear the selected ringer, select **Play** (right softkey).

## Setting Ringer Volume for Ready Link Calls

### To select a ringer volume for Ready Link calls:

1. Select  > **Settings** > **Ready Link** > **Sounds** > **Ringer Volume**.
2. Select **Separate Vol.** and press the navigation key left or right to select a volume level.
3. Select **Done** (left softkey) to save.

## Setting Vibrate Pattern for Ready Link Calls

You can select your favorite vibrate pattern for Ready Link calls.

**To select a vibrate pattern for Ready Link calls:**

1. Select  > **Settings > Ready Link > Sounds > Vibrate Pattern.**
2. Select **Ready Link Calls** or **R-Link Missed.**
3. Select your desired vibrate pattern and press .

## Setting an Alert Notification for Ready Link Calls

Your phone can alert you with an audible tone when you receive a Ready Link call.

**To set alerts for Ready Link calls:**

1. Select  > **Settings > Ready Link > Sounds > Alerts.**
2. Select **Ready Link Calls**, **R-Link Missed**, or **Headset Alert.**
3. Select your desired option and press .

**To adjust the floor tone volume:**

1. Select  > **Settings > Ready Link > Sounds > Alerts.**
2. Select **Floor Tone Vol. > Earpiece** or **Speaker.**
3. Press the navigation key left or right to select a volume level and select **Done** (left softkey).

**Tip:**

You can also set alerts using the Alerts settings menu. (See "Alert Notification" on page 49.)

## Setting the Speakerphone for Ready Link Calls

You can set your phone to use speakerphone mode for Ready Link calls. By default, the speakerphone is set to on.

**To set the speakerphone mode:**

- ▶ Select  > **Settings > Ready Link > Speakerphone > On** or **Off**.

### Note:

If the phone's ringer volume is set to Vibrate All, Ringer off, or Silence All, the speakerphone turns off. Press **SPEAKER** key to turn the speakerphone mode on.

## Setting the Default View of the Ready Link List

You can select the default Ready Link List when Ready Link is launched.

**To select the default view of the Ready Link List:**

1. Select  > **Settings > Ready Link > Default View**. (The default setting is **Personal List**.)
2. Select your desired list and press .

## Setting the Floor Display of the Ready Link Calls

With this feature, you can select the floor display during Ready Link calls.

**To select the floor display:**

1. Select  > **Settings > Ready Link > Floor Display**.
2. Select **Text Only** or **Image 1–3** and press 
  - To see a display preview of the image, select **Preview** (right softkey).

# Using the Built-In Media Player

---

## In This Section

---

- ◆ **Your Multimedia Channel Options** (page 184)
  - ◆ **Accessing Your Media Player's Channel Listings** (page 185)
  - ◆ **Playing a Video or Audio Clip** (page 186)
  - ◆ **Multimedia FAQs** (page 191)
- 

**Your phone's built-in media player gives you the ability to listen to audio clips and to view video clips right from your phone's display.** It's a great way to stay up-to-date on news, weather, and sports information while also enjoying the latest blockbuster movie trailers or music videos — anywhere, anytime on the home network. Just access your media player from your phone's main menu, scroll to your choice of channel, and select one of the video or audio clips to play. It's like having a TV in the palm of your hand.

This section explains the features and options of your phone's built-in media player.

## Your Multimedia Channel Options

---

Sprint TV<sup>SM</sup> offers a variety of accessible audio or video channels, depending on your wireless service plan and multimedia subscriptions. Your subscription options include a comprehensive basic service as well as a full menu of additional channel options.

- **Preview Channel:** This free channel lets you sample clips from all the available channels before you make a decision to subscribe. It's like viewing the movie preview before deciding whether you want to spend the money to go see the full motion picture.
- **Sprint TV:** This comprehensive basic service gives you access to a variety of content from familiar brands. Think of it as "basic cable" for your phone. It allows you unlimited access to this content as long as you continue to pay the monthly subscription fee.
- **Available Individual Channel Options:** You also have the option of subscribing to individual channels from an extensive menu offering. These channels are available for a monthly subscription fee and allow you unlimited access as long as you continue to pay your monthly subscription fee.

You can always visit [www.qwest.com](http://www.qwest.com) for a comprehensive up-to-date Channel Guide that provides an explanation of the available channels and information on subscription rates.

# Accessing Your Media Player's Channel Listings

It's easy to access and view the channel listings on your M1 by Sanyo from the phone's main menu.

## To access your media player and channel listings:

- ▶ Select  > **Media Player** > **Channel Listing**. Your channel listings will be displayed, divided into the following sections:
  - **My Channels:** These include the complimentary Previews channel, as well as any available individual channels for which you have purchased access. If you have purchased Sprint TV, either through a subscription or by purchasing it separately, it will be displayed here.
  - **Available Channels:** These are channels that have not yet been purchased but are available to access for a monthly subscription fee. Use your navigation key to scroll through and select a channel, and follow the onscreen instructions to purchase access to it. Upon purchasing access to one of these channels, the channel will be listed, along with its corresponding channel number, in the **My Channels** section of your media player's channel listings. You will see it displayed in this section the next time you access your phone's media player.

### Note:

The first time you access one of your Available Channels, you will be prompted to accept the corresponding monthly fee (unless it's a channel that doesn't have an associated monthly fee). Accepting the charge gives you access to the channel for as long as you continue to pay the monthly fee. If you accept the charge, the next time you access your phone's media player, this channel will be displayed in the My Channels section of your Channel Listings.

# Playing a Video or Audio Clip

---

## To select and play a media clip in the Channel Listing:

1. Select  > **Media Player > Channel Listing**.
2. Use your keypad to enter a channel number (or use your navigation key to scroll to a channel and press ).
  - **My Channels:** If you have selected a channel that you've already signed up for (or if it's a channel with no monthly fee), you will see a list of available clips.
  - **Available Channels:** If you have selected a channel that you have not yet signed up for, you will be prompted to accept the corresponding monthly charge. Follow the onscreen prompts to subscribe to the selected channel. (A list of available clips will be displayed.)
3. Scroll to the clip that you would like to play and select **Select** (left softkey) or . If applicable, the left and right softkeys will offer additional options. (The clip will automatically load and begin playing.)

## To select and play a media clip in the Media Listing:

1. Select  > **Media Player > Media Listing**.
  - If you have selected Media Listing, a list of available video or audio files will be displayed. You can transfer video or audio files from your PC to your phone's media folder using the mass storage function. (See "Connecting Your Phone to Your PC" on page 114.)
2. Use your navigation key to scroll to the clip that you would like to play and select **Select** (left softkey) or . (The clip will automatically load and begin playing.)

## Media Folder Options

To access a media folder's options, display the media folder and select **Options** (right softkey). To select an option, highlight it and press .

- **Media Listing** to display the media file list under the media folder.
- **Channel Listing** to display the channel list.
- **Info** to display the media clip information.
- **Play Mode** to switch the play mode in the media folder.
- **Media Filter** to sort audio and video clips in the media folder.
- **Player Settings** to customize the player settings from **Equalizer**, **Display Size**, or **Skins**.
- **Minimize** to play music in the background during standby mode or while using the application.
- **Playlist** to display a customized playlist you've created.
- **Add to Playlist** to add a media clip to the playlist.
- **Send via Bluetooth** to send media clips via Bluetooth.
- **Use Bluetooth** to play media clips through a Bluetooth headset.
- **Help** to see the Multimedia instruction page.
- **Exit** to terminate the Media Player.

### Note:

The phone's Media Player support the following file extensions: "mp3," "aac," "mp4," "3gp," "3gpp," "3gp2," "3g2," "qcp," "amr," "m4a," "m4v."

## Playlists

You can create playlists to organize media files stored in your phone.

### To create a playlist:

1. Select  > **Media Player > Playlist**.
2. Highlight **<New Playlist>** and press .
3. Enter a name for the new playlist and press .
4. Select from the files that are available in the media folder and select **Done** (left softkey). (The newly named playlist will be displayed on the playlist.)

### To add files to a playlist:

1. Select  > **Media Player > Playlist**. (The available playlists on your phone will be displayed).
2. Select the playlist that you want to add files to and press .
3. While in the playlist, select **Options** (right softkey) > **Add Media**.
4. Select from the files that are available in the media folder.  
— or —
1. Select  > **Media Player > Media Listing**. (The available media file list on your phone will be displayed).
2. Select the files you want to add and select **Options** (right softkey) > **Add to Playlist**.
3. Select an option to add file(s) and press .
4. Select the playlist you want and press .

### To remove files from a playlist:

1. Select **MENU** > **Media Player** > **Playlist**.
2. Select the playlist that you want to remove files from and press **MENU**.
3. While displaying files contained within a playlist, select **Options** (right softkey) > **Remove**.
4. Select an option to remove file(s) and press **MENU**.
5. Select **Yes** and press **MENU**.

### To delete a playlist:

1. Select **MENU** > **Media Player** > **Playlist**.
2. Select **Options** (right softkey) > **Delete**.
3. Select an option to delete one or more playlists and press **MENU**.
4. Select **Yes** and press **MENU**.

### Options available under the playlist menu may include:

- **Media Listing** to display the media file list under the media folder.
- **Channel Listing** to display the channel list.
- **Info** to display the media clip information.
- **Play Mode** to switch the play mode in the playlist.
- **Rename** to rename the playlist.
- **Delete** to delete the playlist.
- **Player Settings** to customize the player settings.
- **Help** to see the Multimedia instruction page.
- **Exit** to terminate the Media Player.

#### Note:

When you delete a playlist, or a file from a playlist, only the reference to the data is deleted; the actual playlist or file is not deleted from the phone's memory.

## Playing Media Clips Using the External Control Key

The external control key can be used to play, pause, stop, forward, or rewind a media clip while the phone is closed. It can also be used to navigate through a media player option.

### To launch a Music or Media player:

- ▶ Press  to activate a launch menu, and press the control key up or down to select **Music** or **Media Player**.

### Key Operation While Playing Media Clips

Keys	Operation
	Plays or pauses a media clip.
	Stops the media clip. Returns the phone to standby mode when held down.
	Skips to the next clip. Fast forwards within the current clip when held down.
	Returns to the beginning of the current clip. Rewinds within the current clip when held down.
<b>List</b>	Displays a list of media clips.

# Multimedia FAQs

**1. Will I know if I'm receiving an incoming call while I'm viewing or listening to an audio clip?**

No. All incoming calls will roll into voicemail while you are playing a clip. If the caller leaves a voicemail, the voicemail icon will be displayed on the screen.

**2. How long are the clips? Will I know the estimated time it will take to play the clip prior to accessing it?**

Once you have selected a channel, you will see a listing of the available clips, with each clip's length displayed after the clip's title. In general, a clip's duration will depend on the story or content being provided, and can be fairly short or as long as a few minutes.

**3. Can I access a multimedia clip wherever I am, as long as I have my phone?**

As long as you are on the home network, you will have access to the audio and video clips.

**Note:**

Sprint TV Service does not work while roaming off the home network or where service is unavailable.

**4. Are the videos that I'm viewing "live" videos?**

It depends on the content provider. Some of the channels available through Sprint TV stream live content. Others provide media on demand with video and audio clips that are refreshed throughout the day, but that are not "live."

**5. After purchasing access to an Available Channel for a monthly fee, do I receive any confirmation? That is, how do I know it has been purchased?**

The next time you access your media player's channel listings, the purchased channel title and corresponding number will be displayed in the My Channels section.

**6. Why are some channels already preloaded into the My Channels section?**

Some channels, such as Previews, are offered free of charge as a customer courtesy. These channels are automatically displayed in the My Channels section of your channel listings.

**7. If I don't subscribe to a Sprint Power Vision Plan, will I still be able to view the multimedia clips?**

Yes. For service access charges, please consult your service plan or visit [www.qwest.com](http://www.qwest.com).

**8. How can I easily access a channel without having to scroll through all the channels in my channel listings?**

Each channel will have a number to the left of it. You can simply press this number to quickly access the clips located within that channel.

**Tip:**

When entering the specific channel number, channels 01–09 do not require you to enter a “0.” For example, to access channel “07,” just press the “7” key.

**9. What does it mean when the video pauses and I see the word “loading” at the bottom of the screen?**

This happens when the media player is loading the data necessary to play the clip. It typically occurs when there is heavy traffic on the network.

- 10. If I put on my stereo headphones and insert them into the phone's headset jack, can I close the phone while I am playing an audio (or video) clip without interrupting the clip?**

Yes. When you insert your stereo headset into the phone's headset jack, the phone automatically goes into "headset mode," allowing you to close the phone and continue playing the clip. (Likewise, if your phone is in "headset mode," a phone call will not disconnect when you close the phone.)

- 11. Can I surf to a different channel while I am playing a clip?**

Yes. While you are playing a clip, you can use the up and down navigation buttons to surf to a different channel. A small pop-up screen will be displayed that tells you which channel you are watching as well as other channels that you have access to. Use the navigation buttons to scroll through the different channels. Once you find a channel that you want to watch, scroll to it and press  (or simply wait approximately three seconds), and the channel will begin loading.

# Using Bluetooth

---

## In This Section

---

- ◆ **Turning Bluetooth On and Off** (page 195)
  - ◆ **Using the Bluetooth Settings Menu** (page 196)
  - ◆ **Bluetooth Profiles** (page 198)
  - ◆ **Pairing Bluetooth Devices** (page 200)
  - ◆ **Using the Trusted Devices Options** (page 201)
  - ◆ **Printing Data via Bluetooth** (page 202)
  - ◆ **Sending Data via Bluetooth** (page 203)
- 

**Your phone features built-in Bluetooth technology, allowing you to share information more easily than ever before.** Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, PCs, printers, and wireless phones. The Bluetooth communication range is usually up to approximately 10 meters (30 feet).

This section details how to set up and make the most of your phone's Bluetooth capabilities.

# Turning Bluetooth On and Off

By default, your phone's Bluetooth feature is turned off. Turning Bluetooth on makes your phone "available" to other in-range Bluetooth devices. To make your phone visible to other devices you must also set your phone's visibility to other than Hidden. (See page 197.)

## To turn Bluetooth on:

1. Select  > **Settings** > **Bluetooth** > **Enable/Disable**.
2. Select **Enable** to enable Bluetooth.

## To turn Bluetooth off:

1. Select  > **Settings** > **Bluetooth** > **Enable/Disable**.
2. Select **Disable** to disable Bluetooth.

### Note:

Enabling the Bluetooth settings affects the battery's talk and standby times.

## Bluetooth Status Indicators

The following icons show your Bluetooth connection status at a glance:

-  — Bluetooth feature is active. It turns to green when connected to a Bluetooth device.
-  — Your phone is discoverable by another Bluetooth device.
-  — Your phone is communicating with a Bluetooth device.

## Using the Bluetooth Settings Menu

---

The **Bluetooth Settings** menu allows you to set up many of the characteristics of your phone's Bluetooth service, including:

- Entering or changing the name your phone uses for Bluetooth communication
- Setting your phone's visibility (or "discoverability") to other Bluetooth devices
- Displaying your phone's Bluetooth address

**To access the Bluetooth Settings menu:**

1. Select  > **Settings > Bluetooth**.
2. Use the navigation key to select **Enable/Disable**, **Visibility**, **Voice Priority**, **My Device Name**, or **My Device Info**, and press .

### Bluetooth Settings: My Device Name

The **My Device Name** section of the Bluetooth Settings menu allows you to select a Bluetooth name for your phone. Your phone's Bluetooth name will be seen by other in-range Bluetooth devices, depending on your Visibility settings.

**To set a Bluetooth name for your phone:**

1. Select  > **Settings > Bluetooth > My Device Name**.
2. Press and hold  to clear the current name.
3. Use your keypad to enter a new name and press  to save and exit.

## Bluetooth Settings: Visibility

The **Visibility** section of the Bluetooth Settings menu allows you to manage your availability to other Bluetooth devices.

**To configure your phone's visibility (discoverability) to other Bluetooth devices:**

1. Select  > **Settings > Bluetooth > Visibility**.
2. Select your desired Visibility setting and press :
  - **Always Visible** to allow other Bluetooth devices to detect and identify your phone.
  - **Visible for 3 min.** to allow other Bluetooth devices to detect your phone for 3 minutes, after which it returns to hidden mode.
  - **Hidden** to prevent other Bluetooth devices from detecting and identifying your phone.

**Note:**

It is recommended that your phone is in standby mode when receiving data from other devices via Bluetooth.

## Bluetooth Settings: Voice Priority

The **Voice Priority** section of the Bluetooth Settings menu allows you to choose the default device you want to use for incoming and outgoing calls.

**To set the voice priority:**

1. Select  > **Settings > Bluetooth > Voice Priority**.
2. Select **Phone** or **Hands-free**.
  - **Phone** allows you to switch the audio between your phone and hands-free devices.
  - **Hands-free** allows only hands-free devices to be used.

## Bluetooth Settings: My Device Information

To display your phone's device information:

- ▶ Select  > **Settings > Bluetooth > My Device Info.**

## Setting Auto-Accept

You can configure your phone's accessibility to other Bluetooth devices.

To configure your phone's accessibility to other Bluetooth devices:

1. Select  > **Tools > Bluetooth.**
2. Select the device from the trusted devices list and select **Options** (right softkey) > **Auto-Accept.**
3. Select a setting and press :
  - **On** allows other Bluetooth devices to initiate a connection without any confirmation.
  - **Off** displays a confirmation screen, from which you can accept or deny the connection.

### Note:

When the Auto-Accept feature is enabled and you receive files from other devices, any existing file of the same name will be overwritten without warning.

## Bluetooth Profiles

All the Bluetooth settings you configure are stored in your phone's Bluetooth user profile. Different profiles can be used for specific Bluetooth functions.

- **Headset Profile** – This profile functions as a wireless ear jack. When an incoming call is received, the ringer can be heard through the headset instead of through the phone. The call can then be received by pushing a button. While using your phone, you can use the headset instead of the phone by pushing a button on the headset, the same as inserting a jack into the phone. Increase or decrease the volume by using the volume key on the side of the phone.

- **Hands-Free Profile** – This profile functions as a wireless car-kit. Incoming calls ring to the hands-free headset or device. Calls can be received by pressing a button on the headset or device. For dialing, four functions are supported: recent call dial, voice dial, speed dial, and number dial. Increase or decrease the volume by using the volume key on the side of the phone.
- **DUN: Dial-Up Network Profile** – This profile functions as a wireless data cable, connecting a PC or PDA to a network through your phone.
- **OPP: Object Push Profile** – This profile uses the Generic Object Exchange profile services to send data objects between devices and can be used to exchange objects like music files, pictures, calendar (vCal), and business cards (vCard).
- **FTP: File Transfer Profile** – This profile allows you to transfer files to or from other Bluetooth-enabled devices.
- **BPP: Basic Printing Profile** – This profile enables simpler printing from your phone to a Bluetooth-enabled printer.
- **A2DP: Advanced Audio Distribution Profile** – This profile allows you to transmit high quality stereo music from your phone to other compatible accessories including Bluetooth stereo headsets.

**Note:**

The A2DP profile supports the following file extensions: "aac," "m4a," "mp3," "mp4," "3gp," "3gpp," "3g2," "3gp2," "mid." Streaming media and movie media are not supported.

- **AVRCP: Audio/Video Remote Control Profile** – This profile enables your phone to remotely control compatible accessories including Bluetooth stereo headsets. You can play, pause, stop, forward, reverse, fast forward, or rewind from a headset. (Playback functions may vary among Bluetooth accessories.)

# Pairing Bluetooth Devices

---

## Paired Devices

The Bluetooth pairing process allows you to establish trusted connections between your phone and another Bluetooth device. When devices are paired, a passcode (sometimes called a PIN) is shared between devices, allowing for fast, secure connections while bypassing the discovery and authentication process.

### To pair your phone with another Bluetooth device:

1. Select  > **Tools > Bluetooth > Add New > Search.**  
(Your phone will display a list of discovered in-range Bluetooth devices.)
2. Select the device you wish to pair with and press .
3. Select **Add to Trusted.**
4. Enter the PIN and press . (When the owner of the other device enters the same PIN, the pairing is complete.)

## Waiting for Request

If you are going to be using a Dial-Up Network (DUN) profile to pair with a PC or PDA, you will need to allow the other device to initiate pairing with your phone.

### To allow your phone to be paired with another Bluetooth device:

1. Select  > **Tools > Bluetooth > Add New > Wait for Request.**
2. Follow the onscreen prompts to enter your PIN and press .

## Using the Trusted Devices Options

Once you have created paired devices, several options are available from the trusted devices list.

### To use the trusted devices options:

1. From the trusted devices list, select a device.
2. Select **Options** (right softkey) to display the following options:
  - **Connect** or **Disconnect** to connect to or disconnect from the Bluetooth device (if applicable).
  - **Send Item** to send an item saved on your phone to another Bluetooth device.
  - **Browse** to browse and transfer files between Bluetooth devices using FTP.
  - **Print** to print the data using Basic Printing Profile or Object Push Profile (if applicable).
  - **Edit Name** to edit the name of the trusted device.
  - **Auto-Accept** to configure your phone's accessibility to other Bluetooth devices. (See page 198.)
  - **Device Info** to display the trusted device's information.
  - **Sort by** to sort the trusted devices.
  - **Delete** to delete the selected device from the list.
  - **Delete All** to delete all devices from the list.
  - **Settings** to display the Bluetooth settings menu. (See page 196.)

## Printing Data via Bluetooth

---

You can print out your pictures, Contacts entries, business card, calendar event, and messages stored on the phone. (Some Bluetooth-enabled printers may not support this feature.)

### To print data via Bluetooth:

1. Select  > **Tools > Bluetooth**.
2. Select the device from the trusted devices list and then select **Options** (right softkey) > **Print**.
3. Select a category (**Picture**, **Business Card**, **Contacts**, **Calendar Event**, or **Message**) and press .
4. Select **Create Print Job** or **Printer Default** and press . (This step only appears when you select a picture.)
  - **Create Print Job** to print pictures by creating a print job via the Basic Printing Profile.
  - **Printer Default** to print pictures using the default printer settings via the Object Push Profile.
5. Follow the onscreen instructions to select the item(s) to print.
6. Make sure the printer is ready to print data, and then select **Print** (left softkey).
7. If necessary, enter the PIN and press .

<b>Note:</b>	Before you start using the Bluetooth feature, make sure your phone's battery is fully charged.
--------------	--

# Sending Data via Bluetooth

You can send data saved on your phone to another Bluetooth device.

## To send data via Bluetooth:

1. Select  > **Tools** > **Bluetooth**.
2. Select the device from the trusted devices list and then select **Options** (right softkey) > **Send Item**.
3. Select an item (**Business Card**, **Contacts**, **Calendar Event**, or **From File Manager**) and press .
4. Follow the onscreen instructions to select the item(s) to send.
5. Make sure the other device is ready to receive data, and then select **Send** (left softkey).
6. If necessary, enter the PIN and press .

### Note:

Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.

# Qwest® Service Features

# Qwest® Service Features: The Basics

---

### In This Section

---

- ◆ **Using Voicemail** (page 207)
  - ◆ **Using SMS Text Messaging** (page 215)
  - ◆ **Using Caller ID** (page 218)
  - ◆ **Responding to Call Waiting** (page 218)
  - ◆ **Making a Three-Way Call** (page 219)
  - ◆ **Using Call Forwarding** (page 220)
- 

**Now that you've mastered your phone's fundamentals, it's time to explore the calling features that enhance your wireless service.** This section outlines your basic Qwest service features.

# Using Voicemail

## Setting Up Your Voicemail

All unanswered calls to your phone are automatically transferred to your voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your voicemail and personal greeting as soon as your phone is activated.

### To set up your voicemail:

1. Press and hold  **1**.
2. Follow the system prompts to:
  - Create your passcode.
  - Record your name announcement.
  - Record your greeting.
  - Choose whether to activate One-Touch Message Access (a feature that lets you access messages simply by pressing and holding  **1**, bypassing the need for you to enter your passcode).

**Note:****Voicemail Passcode**

If you are concerned about unauthorized access to your voicemail account, Qwest recommends that you enable your voicemail passcode (do not activate One-Touch Message Access).

## Voicemail Notification

There are several ways your phone alerts you to a new message:

- By displaying a message on the screen.
- By sounding the assigned ringer type.
- By the LED blinking red.
- By displaying  at the top of your screen.

## New Voicemail Message Alerts

When you receive a new voice message, your phone alerts you and prompts you to call your voicemail.

### To call your voicemail:

- ▶ Press .

### To display your Missed Log:

- ▶ Press  > **Missed Alerts**.

#### Note:

When you are roaming off the home network, you may not receive notification of new voicemail messages. It is recommended that you periodically check your voicemail by dialing 1 + area code + your wireless phone number. When your voicemail answers, press (★) and enter your passcode. You will be charged roaming rates when accessing voicemail while roaming off the home network.

Your phone accepts messages even when it is turned off. However, you are notified of new messages only when your phone is turned on and you are in a network service area.

## Retrieving Your Voicemail Messages

You can review your messages directly from your wireless phone or from any other touch-tone phone. To dial from your wireless phone, you can either speed dial your voicemail or use the menu keys.

### Using One-Touch Message Access

- ▶ Press and hold  **1**. (Your phone will dial your voicemail box.)

### Using the Menu Keys on Your Phone to Access Your Messages

1. Select  > **Messaging > Voicemail**.
2. Select **Call Voicemail** to listen to your messages.

**Note:**

You are charged for airtime minutes when you are accessing your voicemail from your wireless phone.

### Using Another Phone to Access Messages

1. Dial your wireless phone number.
2. When your voicemail answers, press .
3. Enter your passcode.

**Tip:**

When you call into voicemail, you first hear the header information (date, time, and sender information) for the message. To skip directly to the message, press **4** during the header.

## Voicemail Button Guide

Here's a quick guide to your keypad functions while listening to voicemail messages. For further details and menu options, see "Voicemail Menu Key" on page 213.

 <b>1</b>	<b>ABC 2</b>	<b>DEF 3</b>
Date/Time	Send Reply	Advance
<b>GHI 4</b>	<b>JKL 5</b>	<b>MNO 6</b>
Replay	Rewind	Forward
<b>PQRS 7</b>	<b>TUV 8</b>	<b>WXYZ 9</b>
Erase	Call Back	Save
<b>Shift ✕</b>	<b>+ 0</b>	<b>Space #</b>
Cancel	Help	Skip

## Voicemail Options

Your phone offers several options for organizing and accessing your voicemail.

### Using Expert Mode

Using the Expert Mode setting for your personal voicemail box helps you navigate through the voicemail system more quickly by shortening the voice prompts you hear at each level.

#### To turn Expert Mode on or off:

1. Press and hold  **1** to access your voicemail.
2. Press **DEF 3** to change your Personal Options, following the system prompts.
3. Press **DEF 3** for Expert Mode.
4. Press  **1** to turn Expert Mode on or off.

## Setting Up Group Distribution Lists

Create up to 20 separate group lists, each with up to 20 customers.

1. Press and hold **☎ 1** to access your voicemail.
2. Press **DEF 3** to change your Personal Options, following the system prompts.
3. Press **☎ 1** for Settings.
4. Press **JKL 5** for Group Distribution Lists.
5. Follow the voice prompts to create, edit, rename, or delete group lists.

## Callback

Return a call after listening to a message without disconnecting from voicemail.

- ▶ Press **TUV 8** after listening to a message. (Once the call is complete, you're returned to the voicemail main menu.)

## Voicemail-to-Voicemail Message

Record and send a voice message to other voicemail users.

1. From the main voicemail menu, press **ABC 2** to send a message.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record and send your voice message.

## **Voicemail-to-Voicemail Message Reply**

Reply to a voice message received from any other voicemail user.

1. After listening to a voice message, press **ABC 2**.
2. Follow the voice prompts to record and send your reply.

## **Voicemail-to-Voicemail Message Forwarding**

Forward a voice message, except those marked “Private,” to other voicemail users.

1. After listening to a message, press **MNO 6**.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record your introduction and forward the voice message.

## **Voicemail-to-Voicemail Receipt Request**

Receive confirmation that your voice message has been listened to when you send, forward, or reply to other voicemail users.

1. After you have recorded a message, press **ABC 2** to listen to the recorded message.
2. Press **JKL 5** for More Options.
3. Press **DEF 3** to mark receipt requested.
4. Press **EN 1** to send your voicemail message.

## Extended Absence Greeting

When your phone is turned off or you are off the home network for an extended period, this greeting can be played instead of your normal personal greeting.

1. From the main voicemail menu, press **DEF 3** for Personal Options.
2. Press **ABC 2** for Greetings.
3. Press **DEF 3** to record an Extended Absence Greeting.

## Clearing the Message Icon

Your phone may temporarily continue to display the message icon after you have checked your voice and text messages.

**To clear the icon from the display screen:**

1. Select **MENU OK** > **Messaging** > **Voicemail** > **Clear Count**.
2. Select **Yes** and press **MENU OK**.

## Voicemail Menu Key

Following the prompts on the voicemail system, you can use your keypad to navigate through the voicemail menu. The following list outlines your phone's voicemail menu structure.

- 1** Listen
  - 1** Envelope Information
  - 2** Reply
  - 3** Advance 8 Seconds
  - 4** Replay
  - 5** Rewind
  - 6** Forward Message
  - 7** Erase
  - 8** Callback

- WXYZ **9** Save
- + **0** Options
- ABC **2** Send a Message
- DEF **3** Personal Options
  - ☒ **1** Settings
    - ☒ **1** Skip Passcode
    - ABC **2** Autoplay
    - DEF **3** Message Date & Time On/Off
    - GHI **4** Change Passcode
    - JKL **5** Group Distribution List
    - MNO **6** Numeric Paging to a Phone
    - Shift **✕** Return to Personal Options Menu
  - ABC **2** Greetings
    - ☒ **1** Personal Greetings
    - ABC **2** Name Announcement
    - DEF **3** Extended Absence Greeting
    - Shift **✕** Return to Personal Options Menu
  - DEF **3** Expert Mode (On/Off)
- TUV **8** Place a Call
- Shift **✕** Disconnect

## Using SMS Text Messaging

With SMS Text Messaging, you can use other people's phone numbers to send instant text messages from your phone to their messaging-ready phones – and they can send messages to you. When you receive a new message, it will automatically display on your phone's screen.

In addition, SMS Text Messaging includes a variety of preset messages, such as “Can't talk right now. Send me a message.” that make composing messages fast and easy. You can also customize your own preset messages (up to 50 characters) from your phone.

### Composing SMS Text Messages

**To compose an SMS Text message:**

1. Select  **> Messaging > Send Message > Text** and select the entry method you prefer:
  - **Contacts** to select a recipient from your internal Contacts. (Qualifying Contacts entries must contain a phone number or an email address.)
  - **Phone#** to use the keypad to enter the phone number of the person to whom you wish to send a message.
  - **Email** to enter the recipient's email address.

**Tip:**

You can also select **Others** (right softkey) to select recipients from your desired list.

2. Press  to save the recipient. (You may include up to 50 recipients per message.)
3. Select **Next** (left softkey) when you have finished selecting and entering recipients.

4. Compose a message or use the preset messages or smileys (icons).
  - To type a message, use your keypad to enter your message. Select **Mode** (right softkey) to select a character input mode. (See “Entering Text” on page 38.)
5. Scroll down to select the message priority (**Ordinary** or **Urgent**), set the callback number, set the signature, or set the delivery receipt.
6. Review your message and select **Send** (left softkey). (You may also select additional messaging options by selecting **Options** [right softkey] to change the recipients or save to draft.)

**Tip:**

You can also send an SMS Text message when the left softkey displays the **Send Msg** option.

## Accessing SMS Text Messages

### To read an SMS Text message:

- ▶ When you receive a text message, it will be displayed automatically on your phone's screen. Use your navigation key to scroll down and view the entire message.

### To reply to an SMS Text message:

1. While the message is open, select **Reply** (left softkey).
2. Select **Text**, and then compose your reply or use the preset messages or icons.
  - To type a message, use your keypad to enter your message. Use **Mode** (right softkey) to select a character input mode. (See “Entering Text” on page 38.)
3. Review your reply and select **Send** (left softkey). (You may also select additional messaging options by selecting **Options** [right softkey] to change the recipients or save to draft.)

## Using Preset Messages

Preset messages make sending text messages to your friends, family, and coworkers easier than ever.

### To send preset messages into the text box:

1. Select **MENU OK** > **Settings** > **Messaging** > **Preset Msgs**.
2. Highlight a message you wish to send and select **Options** (right softkey) > **Send Text**.

### To edit preset messages:

1. Select **MENU OK** > **Settings** > **Messaging** > **Preset Msgs**.
2. Highlight a message you wish to edit and press **MENU OK**.
3. Enter your new message or changes and press **MENU OK**.  
(See “Entering Text” on page 38.)

### To reset preset messages:

1. Select **MENU OK** > **Settings** > **Messaging** > **Preset Msgs**.
2. Select **Options** (right softkey) > **Reset All Msgs** > **Yes**.

## Using Caller ID

---

Caller ID allows people to identify a caller before answering the phone by displaying the number of the incoming call. If you do not want your number displayed when you make a call, just follow these easy steps.

**To block your phone number from being displayed for a specific outgoing call:**

1. Press **Shift** **X** **MNO** **6** **PORS** **7**.
2. Enter the number you want to call.
3. Press **TALK**.

To permanently block your number, call Qwest Wireless® Repair at 1-888-879-0611.

## Responding to Call Waiting

---

When you're on a call, Call Waiting alerts you to incoming calls by sounding beeps. Your phone's screen informs you that another call is coming in and displays the caller's phone number (if it is available).

**To respond to an incoming call while you're on a call:**

- ▶ Press **TALK**. (This puts the first caller on hold and answers the second call.)

**To switch back to the first caller:**

- ▶ Press **TALK** again.

**Tip:**

For those calls where you don't want to be interrupted, you can temporarily disable Call Waiting by pressing **★70** before placing your call. Call Waiting is automatically reactivated once you end the call.

## Making a Three-Way Call

With Three-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

### To make a Three-Way Call:

1. Enter a number you wish to call and press .
2. Once you have established the connection, press . (This puts the first caller on hold.)
3. Dial the second number you wish to call and press .
4. When you're connected to the second party, press  again to begin your three-way call.

If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all other callers are disconnected.

<b>Note:</b>	Call Waiting and Three-Way Calling are not available while roaming off the home network.
--------------	--

## Using Call Forwarding

---

Call Forwarding lets you forward all your incoming calls to another phone number – even when your phone is turned off. You can continue to make calls from your phone when Call Forwarding is activated.

### To activate Call Forwarding:

1. Press **Shift** **\*** **PQRS** **7** **ABC** **2**.
2. Enter the area code and phone number to which your future calls should be forwarded.
3. Press **TALK**. (You will hear a tone to confirm the activation of Call Forwarding.)

### To deactivate Call Forwarding:

1. Press **Shift** **\*** **PQRS** **7** **ABC** **2** **+** **0**.
2. Press **TALK**. (You will see a message and hear a tone to confirm the deactivation.)

<b>Note:</b>	You are charged a higher rate for calls you have forwarded.

- 

**Sprint PCS Vision offers easy and amazing data services you will really use.** These features – including messaging, games, downloadable ringtones and screen savers, and portable Web access – let you have fun, stay in touch, and stay informed no matter where you go on the home network.

This section introduces these advanced services and walks you through the necessary steps to start taking advantage of Sprint PCS Vision services.

## Sprint PCS Vision Applications

---

Here is a brief list of the applications available through your phone. For more information, please visit us online at [www.qwest.com](http://www.qwest.com).

**Sprint PCS Picture Mail** – Instantly shoot, share, and print sharp, high-resolution digital pictures with your phone.

**Messaging** – Send and receive emails and chat on your phone.

**Games** – Play exciting games with full-color graphics, sound, and vibration. Choose from hundreds of games to play anytime.

**Ringers** – Personalize your phone by downloading and assigning different ringers to numbers in your Contacts.

**Screen Savers** – Download unique images to use as screen savers – or make it easy to tell who's calling by assigning specific images to numbers in your Contacts.

**Web** – Experience full-color graphic versions of popular Web sites from your phone.

## Getting Started With Sprint PCS Vision

---

With your phone and wireless service from Qwest, you are ready to start enjoying the advantages of Sprint PCS Vision. This section will help you learn the basics of using your Sprint PCS Vision services, including managing your user name, launching a Vision connection, and navigating the Web with your phone.

## Your User Name

When you buy a compatible phone and sign up for service, you're automatically assigned a user name, which is typically your 10-digit wireless phone number followed by "@qwest.sprintpcs.com." For example, if your phone number is 555-123-4567, your user name will be **5551234567@qwest.sprintpcs.com**.

When you use Sprint PCS Vision services, your user name is submitted to identify you to the network. The user name is also useful as an address for email, as a way to personalize Web services, and as an online virtual identity.

Your user name will be automatically programmed into your phone. You don't have to enter it.

## Updating Your User Name

When you change the programmed user name and select a new one, you have to update your user name through your phone.

### To update your user name:

- ▶ Select  > **Settings > Power Vision > Update Profile**.
  - If you want to cancel, press  while processing.

## Finding Your User Name

If you aren't sure what your Sprint PCS Vision user name is, you can easily find it on your phone.

### To find your user name:

- ▶ From standby mode, select  > **Settings > Phone Info > Phone#/User ID**.

## Launching a Data Connection

To launch a data connection:

- ▶ Select **MENU** > **Web**. (Your data connection will start and the Sprint Power Vision home page will be displayed.)

### The Sprint Power Vision Home Page

**Note:** If Net Guard is enabled and displayed (see page 225), press **OK** (right softkey) to continue and access the Web.

While connecting, the following will appear on the screen:

#### **Connecting...Please wait.**

If you had a previous connection, the last page you visited will be displayed when you launch your browser. When this occurs, you may not see the "Connecting..." message when you launch the session. Though the browser is open, you are not currently in an active data session – that is, no data is being sent or received. As soon as you navigate to another page, the active session will start and you will see the "Connecting..." message.

## Net Guard

When you first connect to the Web, the Net Guard will appear to confirm that you want to connect. This feature helps you avoid accidental connections. You can disable the Net Guard in the future by selecting **Always Auto-Connect** when the Net Guard is displayed.

### To change your Net Guard settings:

- ▶ Select  > **Settings** > **Power Vision** > **Net Guard** and choose an option:
  - **On** to activate the Net Guard.
  - **Off** to deactivate the Net Guard.

#### Note:

When enabled, the Net Guard appears only once per session. The Net Guard does not appear if the phone is merely reconnecting due to a time-out.

## Data Connection Status and Indicators

Your phone's display lets you know the current status of your data connection through indicators which appear at the top of the screen. The following symbols are used:

A Sprint PCS Vision connection is active (data is being transferred); the transmit/receive symbol will blink to indicate data transmission. Incoming voice calls go directly to voicemail; outgoing voice calls can be made, but the Sprint PCS Vision connection will terminate.

A Sprint PCS Vision connection is dormant. (No data is being sent or received.) Though not currently active, when dormant the phone can restart an active connection quickly; voice calls can be made and received.

Your phone is not currently able to access Sprint PCS Vision service features.

A Sprint Power Vision connection is active (data is being transferred); the transmit/receive symbol will animate to indicate data transmission. Incoming voice calls go directly to voicemail; outgoing voice calls can be made, but the Sprint Power Vision connection will terminate.

A Sprint Power Vision connection is available, but no data is currently being transferred.

Your Sprint Power Vision service is dormant. (No data is being sent or received.)

If no indicator is displayed, your phone does not have a current data connection. To launch a connection, see “Launching a Data Connection” on page 224.

## Navigating the Web

Navigating through menus and Web sites during a data session is easy once you’ve learned a few basics. Here are some tips for getting around:

### Softkeys

During a data session, the bottom line of your phone’s display contains one or more softkeys. These keys are shortcut controls for navigating around the Web, and they correspond to the softkey buttons directly below the phone’s display screen.

**Tip:**

Depending on which Web sites you visit, the labels on the softkeys may change to indicate their function.

### To use softkeys:

- ▶ Press the desired softkey button. (If an additional pop-up menu appears when you press the softkey button, select the menu items using your keypad [if they’re numbered] or by highlighting the option and pressing .)

## Scrolling

As with other parts of your phone's menu, you'll have to scroll up and down to see everything on some Web sites.

### To scroll line by line through Web sites:

- ▶ Press the navigation key up or down.

### To scroll page by page through Web sites:

- ▶ Press the volume buttons on the side of the phone.

## Selecting

Once you've learned how to use softkeys and scroll, you can start navigating the Web.

### To select onscreen items:

- ▶ Use the navigation key to highlight the desired item, and then press the desired softkey button (or press ).

Links, which appear as underlined text, allow you to jump to different Web pages, select special functions, or even place phone calls.

### To select links:

- ▶ Highlight the link and press the appropriate softkey.

## Going Back

### To go back one page:

- ▶ Press the  key on your phone.

## Going Home

### To return to the Sprint Power Vision home page from any other Web page:

- ▶ Press and hold .

## Accessing Messaging

---

You can send and receive emails, text messages, and Sprint PCS Picture Mail messages right from your phone. Messaging allows you to stay connected to friends, family, and coworkers 24 hours a day anywhere on the home network.

<b>Note:</b>	For complete details on text messaging, see “Using SMS Text Messaging” on page 215.
--------------	---

### Message Types

There are many types of text messaging available on your phone. These include SMS Text Messaging, Instant Messaging, and Email.

### Accessing Email Providers

With Sprint PCS Vision, you can use popular email services such as Yahoo!® Mail and EarthLink® to keep in touch, even while you're on the go.

#### To access email providers from your phone:

1. From the Vision home page, select **Messaging > Email**.
2. Select an email provider, such as **Yahoo! Mail** or **EarthLink**.
3. Use your keypad to enter the required sign-in information for the selected provider, such as user name, email address, and password, and select **Sign In**. (Your mailbox for the selected provider will be displayed.)

<b>Note:</b>	The information required to sign in will vary depending on the email provider you are accessing.
--------------	--

4. Follow the onscreen instructions to read, reply to, compose, send, and manage emails in your account.

## Accessing Instant Messaging

Sprint PCS Vision also provides you with access to popular instant messaging (IM) clients, including AOL® Instant Messenger™ and Yahoo!® Messenger.

### To access instant messaging clients from your phone:

1. Select  > **Messaging > Instant Msg.**  
— or —  
From the Vision home page, select **Messaging > Instant Messaging.**
2. Select an email provider, such as **AOL Instant Messenger**, **MSN Messenger**, or **Yahoo! Messenger**.
3. Use your keypad to enter the required sign-in information for the selected provider, such as user name and password, and select **Sign In.** (Your IM screen for the selected provider will be displayed.)

**Note:**

The information required to sign in will vary depending on the instant messaging provider you are accessing.

4. Follow the onscreen instructions to read, reply to, compose, send, and manage messages in your IM account.

# Downloading Content

---

With Sprint PCS Vision, you have access to a dynamic variety of downloadable content, such as Games, Ringers, Screen Savers, and other applications. (Additional charges may apply.) The basic steps required to access and download content are outlined below.

## Accessing the My Content Menus

**To access the download menus:**

1. Select  > **My Content**.
2. Select the type of file you wish to download (**Games, Themes, Ringers, Screen Savers, or Applications**), and then select **Get New**. (The browser will start and take you to the corresponding download menu.)

**To access the download menus from the Web browser:**

- ▶ From the Vision home page, select **Downloads > Games, Ringers, Screen Savers, or Applications** to go to the corresponding download menu. (For more information on navigating the **Web**, see “Navigating the Web” on page 226.)

## Selecting an Item to Download

You can search for available items to download in a number of ways:

- **Featured** displays a rotating selection of featured items.
- **Browse Category** allows you to narrow your search to a general category, such as Country or Pop/Rock for Ringers or For the Ladies for Screen Savers. (There may be several pages of available content in a list. Select **Next 9** to view additional items.)
- **Search** allows you to use your keypad to enter search criteria to locate an item. You may enter an entire word or title or perform a partial-word search.

## Downloading an Item

Once you've selected an item you wish to download, highlight it and press  or press **Go** (left softkey). You will see a summary page for the item including its title, the vendor, the download details, the file size, and the cost. Links allow you to view the **License Details** page, which outlines the price, license type, and length of license for the download, and the **Terms of Use** page, which details the terms of use and your responsibility for payment.

### To download a selected item:

1. From the information page, select **Buy**. (The item will download automatically. When the **New Download** screen appears, the item has been successfully downloaded to your phone.)

**Note:** If you have not previously purchased an item, you will be prompted to create your purchasing profile.

2. Select an option to continue:
  - Select the appropriate option to assign the downloaded item (or to start, in the case of a game or an application). Your data session will end, and you will be redirected to the appropriate phone menu screen.
  - Select **Set as** to assign a ringer or screen saver to a phone function.
  - Select **Settings** to configure downloaded games or applications.
  - Select **Shop** to browse for other items to download.
  - Press  to quit the browser and return to standby mode.

**Note:** The option will vary depending on the items you are selecting.

## Exploring the Web

---

With Web access on your phone, you can browse full-color graphic versions of your favorite Web sites, making it easier than ever to stay informed while on the go. Follow sports scores, breaking news, and weather, and shop on your phone anywhere on the home network.

In addition to the features already covered in this section, the Vision home page offers access to additional colorful, graphically rich Web categories, including **News**, **Weather**, **Entertainment**, **Sports**, and **Money**, as well as useful management options including **Search**. Many sites are available under more than one category – choose the one that's most convenient for you.

### Using the Browser Menu

Navigating the Web from your phone using the home page is easy once you get the hang of it. For details on how to navigate the Web, select menu items, and more, see “Navigating the Web” on page 226.

Although the home page offers a broad and convenient array of sites and services for you to browse, not all sites are represented, and certain functions, such as going directly to specific Web sites, are not available. For these and other functions, you will need to use the browser menu. The browser menu offers additional functionality to expand your use of the Web on your phone.

### Opening the Browser Menu

The browser menu may be opened anytime you have an active data session, from any page you are viewing.

#### To open the browser menu:

- ▶ Press the right softkey from any page during an active data session. (The browser menu will be displayed.)

Options available under the browser menu include:

- **Home.** Returns the browser to the home page.
- **Forward.** Returns you to a previously viewed page (after having used the  key).
- **Mark this page.** Allows you to create new bookmarks.
- **View Bookmarks.** Allows you to access bookmarked sites and manage your bookmarks.
- **Search.** Launches a Web search.
- **Send Page.** Allows you to send a URL you're viewing through SMS Text Messaging.
- **Go to URL....** Allows you to navigate directly to a Web site by entering its URL (Web site address).
- **History.** Keeps a list of links to your most recently visited sites. To navigate to a site, highlight it and press , and then select **Connect**.
- **Refresh this page.** Reloads the current Web page.
- **More....** Displays additional options:
  - **Show URL.** Displays the URL (Web site address) of the page you're currently viewing.
  - **Restart Browser.** Refreshes the current browser session.
  - **Script Log.** Allows you to display the script log.
  - **About Browser.** Allows you to display your browser's information.
  - **Preferences.** Allows you to configure and manage your browser settings.

## Creating a Bookmark

Bookmarks allow you to store the address of your favorite Web sites for easy access at a later time.

### To create a bookmark:

1. Go to the Web page you want to mark.
2. Press the right softkey to open the browser menu.
3. Select **Mark this page** and press  twice to save the bookmark.

#### Note:

Bookmarking a page does not store the page's contents, just its address. Some pages cannot be bookmarked. Whether a particular Web page may be marked is controlled by its creator.

## Accessing a Bookmark

### To access a bookmark:

1. Press the right softkey to open the browser menu.
2. Select **View Bookmarks**.
3. Scroll to highlight the bookmark you'd like to access and press **OK** (left softkey), or press the number corresponding to the bookmark you wish to access.

## Deleting a Bookmark

### To delete a bookmark:

1. Press the right softkey to open the browser menu.
2. Select **View Bookmarks**.
3. Scroll to highlight the bookmark you'd like to delete and press the right softkey.
4. Select **Delete** from the menu. (A confirmation screen will be displayed.)
5. Select **Yes** (right softkey) to remove the bookmark.

## Going to a Specific Web Site

### To go to a particular Web site by entering a URL (Web site address):

1. Connect to the Web and press the right softkey to display the browser menu.
2. Select **Go to URL....**
3. Select **Input Address** and press **OK** (left softkey).
4. Use your keypad to enter the URL of the Web site you wish to go to and press **OK** (left softkey).

**Note:** Not all Web sites are viewable on your phone.

## Reloading a Web Page

### To reload (refresh) a Web page:

1. Press the right softkey to open the browser menu.
2. Select **Refresh this page**. (The browser will reload the current Web page.)

## Restarting the Web Browser

If the Web browser appears to be malfunctioning or stops responding, you can usually fix the problem by simply restarting the browser.

### To restart the Web browser:

1. From an active data connection, press the right softkey to display the browser menu.
2. Select **More... > Restart Browser**.

## Adjusting the Browser Sound Volume

### To adjust the browser sound volume:

1. From an active data connection, press the right softkey to display the browser menu.
2. Select **More... > Preferences > Sound Volume**.
3. Select the desired volume level by pressing the navigation key up or down and press .

#### Note:

While your data connection is active, you will not be able to receive incoming calls; all incoming calls will be forwarded to your voicemail.

## Sprint Power Vision

---

### In This Section

---

- ◆ **Using Sprint Power Vision** (page 238)
  - ◆ **Exploring the Sprint Music Store** (page 239)
  - ◆ **Personalizing Your Service With On Demand** (page 242)
  - ◆ **Using Themes** (page 244)
- 

**The Sprint Power Vision Network allows you to enjoy the next generation wireless data experience.** The Sprint Power Vision Network gives you more choice and flexibility, so you can make the most of your wireless service. Enjoy the network that gives you the power to watch live mobile digital TV (MDTV), instantly download songs to your phone, play multiplayer games, and more, with always on broadband-like speeds, right in the palm of your hand. Watch, listen, play, and do at the speed of life.

The Sprint Power Vision Network not only offers new and exciting services such as Sprint TV<sup>SM</sup>, the Sprint Music Store<sup>SM</sup>, downloadable Themes, and On Demand personalized data services, it also enhances your existing data services with increased, broadband-like speed and clearer, high-quality visuals and sound. For an updated listing of the latest products and services (which are subject to change) and for more information, visit us online at [www.qwest.com](http://www.qwest.com).

# Using Sprint Power Vision

---

## Enabling Sprint Power Vision

Since Sprint Power Vision is an enhancement to your phone's data capabilities, you don't need to take any extra action to make Sprint Power Vision available. As long as your phone's Sprint Power Vision setting is enabled (see "Enabling and Disabling Sprint Power Vision Services" on page 79), your phone is ready to access Sprint Power Vision services where available.

When your phone has a Sprint Power Vision connection, the status indicator () will display on the screen. (For details, see "Data Connection Status and Indicators" on page 225.)

**Note:**

Your phone's data services work anywhere on the home network. These services will perform at enhanced speeds and with improved quality in areas with high-speed data coverage. Go to [www.qwest.com](http://www.qwest.com) or see our coverage map brochure for coverage details and more information.

# Exploring the Sprint Music Store<sup>SM</sup>

Your wireless service allows you to access the Sprint Music Store, an online music distribution site that lets you purchase and download digital music files to play on your phone.

## Accessing the Sprint Music Store

You can access the Sprint Music Store right from your phone's main menu, anywhere on the home network. When you enter the store for the first time, you will be prompted to set up your user identification and password.

### To access the Sprint Music Store:

1. Press  to access the main menu.
2. Select **Music**.
3. Follow the onscreen instructions to establish your User ID and password.

**Tip:**

Your User ID for the Sprint Music Store is your 10-digit wireless phone number. The password may be any four digit number. The recommended password is the last four digits of your Social Security number.

4. Use your keypad and navigation key to explore the store.

## Purchasing and Downloading Music

Now that you're in the store, you can shop for songs to purchase and download to your phone.

### To find and download music files from the Sprint Music Store:

1. From the Sprint Music Store opening page, select an option to browse the store:
  - **Featured Music** offers a revolving selection of highlighted songs and artists.

- **Categories** allows you to choose from categories such as What's Hot and New Releases, and to browse genres.
  - **Search** gives you the option of searching for specific songs or artists. Just use your keypad to enter your search criteria in the available field.
2. Highlight the song you want and press . (The song information screen will display.)
  3. Select an option and press :
    - **Preview** to play an audio clip of the selected song.
    - **Buy Song** to purchase the song and download it to your phone.
      - When you select **Buy Song**, the file will automatically download to your phone. (If there is not enough free memory space on your phone, you will see an alert.)
      - Once the song has been downloaded to your phone, you will see options allowing you to listen to the song, add it to a playlist, or continue shopping. You can also visit <http://musicstore.qwest.com> to download your purchases to your PC.

## Playing Music From the Sprint Music Store

The Sprint Music Store not only gives you access to great music, it also gives you a place to listen to and organize your music library.

### Accessing the Music Player

1. From the Sprint Music Store opening page, use your navigation key to select the **Player** tab.
2. From the Player display, select an option:
  - **All My Music** to browse through all of your downloaded music.
  - **<playlist>** to select a customized playlist you've created to organize your music.

- **Create Playlist...** to set up a custom playlist of songs you like to hear together. Follow the onscreen instructions to create a name for the playlist, select songs by artist, genre, and title, and create an order for the playlist.
3. Once you've displayed a list of songs, you can browse through your available titles by Song, Artist, or Genre to select a specific song.
- To play a song, select it and press .
  - To listen to a playlist, select it and press .

## Backing Up Your Downloaded Music Files

When you purchase and download a music file from the Sprint Music Store, you get two versions of the song: one to download and play on your phone (file type: AAC+), and another to download from <http://musicstore.qwest.com> and play on your PC (file type: WMA). The AAC+ files downloaded to your phone can only be played on your phone and on your account, and once they have been downloaded, they cannot be downloaded again without being re-purchased.

Qwest recommends you back up your AAC+ music files to your PC so you may access the files in case your phone is lost or damaged.

### To back up your downloaded music files:

1. Connect your phone to your PC using a USB cable or the built-in connection on Bluetooth-enabled devices.
2. Use your PC to navigate to the phone's Music folder.
3. Select and copy the music files to a folder on your PC's hard drive.

<b>Note:</b>	Although you can store AAC+ files on your PC, they will only be playable on your phone and on your account.
--------------	---

For more information about using the Sprint Music Store, visit the Web site at <http://musicstore.qwest.com>.

# Personalizing Your Service With On Demand

---

With Sprint Power Vision's exclusive On Demand feature, you can personalize your phone's data services to suit your needs. The On Demand feature makes it easier than ever to receive the most popular Web information and categories instantly. On Demand uses the ZIP code you provide to customize the content you receive, so you can get the information you want, when you want it.

On Demand acts like a PC browser's customized home page, displaying a variety of top categories such as News, Sports, Weather, Money, Movies, and more. This information is updated throughout the day, so you'll always be up-to-date.

## Initializing Your On Demand Service

**To initialize your phone's On Demand service:**

1. Press  to access the main menu.
2. Select **On Demand**.
3. Enter your preferred ZIP code and press **OK**. (The On Demand service will customize itself to your selected location and the On Demand menu screen will be displayed.)

## Accessing On Demand Information

Finding the information you're looking for with On Demand is as easy as navigating a Web browser on your PC. (The following example will illustrate how to access News information.)

**To access News information using On Demand:**

1. Press  > **On Demand**. (The On Demand menu screen will be displayed.)

2. From the On Demand menu screen, highlight a category (in this case, **News**) and press . (You will be presented with a list of news categories.)
3. Use your navigation key to scroll through the news categories or stories. If applicable, the left and right softkeys will offer additional options.

Select other categories, such as Weather, Sports, and Movies, from the On Demand main screen and enjoy the feature-rich contents of On Demand.

Every category offers you the capability to customize news and information based on your preference.

## Updating On Demand Information

The On Demand news and information is automatically delivered to your phone four times a day. You can also prompt your phone to retrieve updates manually.

### To manually retrieve On Demand updates:

- From an On Demand category page (such as News), press **Update** (left softkey). (Your phone will retrieve updates for the selected category.)

## Previewing On Demand in Themes

You can preview the On Demand news and weather information right on your phone's standby screen using a theme. Download and apply any theme, and then select the On Demand icon in your theme's standby screen. An On Demand window will pop up and display a snapshot of the On Demand news and weather information. See "Using Themes" below for more information on using and applying themes on your phone.

## Using Themes

---

Express your style and interests by customizing the appearance and features of your phone's Standby Screen, Main Menu, and My Favorites screens with your choice of downloadable Themes. Select your favorite and enjoy rich background images, ringers, and instant access to information like sports updates from NFL themes, entertainment news from hip-hop themes, or weather updates from nature themes.

## Downloading Themes

You can select and download available themes right from your phone.

### To download an available theme to your phone:

1. Select  > **My Content > Themes > Get New**. (Your phone's browser will start and take you to the Themes download menu.)
2. Select a theme and press  or **Go** to display its information page.
3. Select **Buy** to purchase the theme. (The theme will download automatically. When the "New Download" screen appears, the theme has been successfully downloaded to your phone.)

**Note:**

For more information about downloading content to your phone, please see "Downloading Content" on page 230.

## Applying Themes

Once you've downloaded a theme, you can apply it to your phone from the Settings menu.

### To apply a downloaded theme:

1. Select  > **Settings > Display > Themes**.
2. Select an available theme and press .

Your new theme will populate your phone's standby screen, main menu, and will add a new, customizable My Favorites screen, giving you easy access to your favorite menus and phone applications.

## Section 4

# Safety and Warranty Information

# Important Safety Information

---

### In This Section

---

- ◆ **General Precautions** (page 249)
  - ◆ **Maintaining Safe Use of and Access to Your Phone** (page 250)
  - ◆ **Using Your Phone With a Hearing Aid Device** (page 252)
  - ◆ **Caring for the Battery** (page 253)
  - ◆ **Radiofrequency (RF) Energy** (page 255)
  - ◆ **Owner's Record** (page 258)
  - ◆ **Phone Guide Proprietary Notice** (page 258)
- 

**This phone guide contains important operational and safety information that will help you safely use your phone.** Failure to read and follow the information provided in this phone guide may result in serious bodily injury, death, or property damage.

## General Precautions

There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service.

- To maximize performance, do not touch the upper back portion of your phone where the internal antenna is located while using the phone.
- Speak directly into the mouthpiece.
- Avoid exposing your phone and accessories to rain or liquid spills. If your phone does get wet, immediately turn the power off and remove the battery.
- Do not expose your phone to direct sunlight for extended periods of time (such as on the dashboard of a car).
- Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.
- Any changes or modifications to your phone not expressly approved in this document could void your warranty for this equipment and void your authority to operate this equipment.

**Note:**

For the best care of your phone, only authorized personnel should service your phone and accessories. Failure to do so may be dangerous and void your warranty.

# Maintaining Safe Use of and Access to Your Phone

---

## **Do Not Rely on Your Phone for Emergency Calls**

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. Therefore you should never rely solely upon any mobile phone for essential communication (e.g., medical emergencies). Emergency calls may not be possible on all cellular networks or when certain network services or mobile phone features are in use. Check with your local service provider for details.

## **Using Your Phone While Driving**

Talking on your phone while driving (or operating the phone without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first.

## **Following Safety Guidelines**

To operate your phone safely and efficiently, always follow any special regulations in a given area. Turn your phone off in areas where use is forbidden or when it may cause interference or danger.

## **Using Your Phone Near Other Electronic Devices**

Most modern electronic equipment is shielded from radiofrequency (RF) signals. However, RF signals from wireless phones may affect inadequately shielded electronic equipment.

RF signals may affect improperly installed or inadequately shielded electronic operating systems or entertainment systems in motor vehicles. Check with the manufacturer or their representative to determine if these systems are adequately shielded from external RF signals. Also check with the manufacturer regarding any equipment that has been added to your vehicle.

Consult the manufacturer of any personal medical devices, such as pacemakers and hearing aids, to determine if they are adequately shielded from external RF signals.

### **Note:**

Always turn off the phone in healthcare facilities, and request permission before using the phone near medical equipment.

## **Turning Off Your Phone Before Flying**

Turn off your phone before boarding any aircraft. To prevent possible interference with aircraft systems, the U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.

## Turning Off Your Phone in Dangerous Areas

To avoid interfering with blasting operations, turn your phone off when in a blasting area or in other areas with signs indicating two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Turn your phone off when you're in any area that has a potentially explosive atmosphere. Although it's rare, your phone and accessories could generate sparks. Sparks can cause an explosion or fire, resulting in bodily injury or even death. These areas are often, but not always, clearly marked. They include:

- Fueling areas such as gas stations.
- Below deck on boats.
- Fuel or chemical transfer or storage facilities.
- Areas where the air contains chemicals or particles such as grain, dust, or metal powders.
- Any other area where you would normally be advised to turn off your vehicle's engine.

**Note:**

Never transport or store flammable gas, flammable liquids, or explosives in the compartment of your vehicle that contains your phone or accessories.

## Restricting Children's Access to Your Phone

Your phone is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the phone or make calls that increase your invoice.

# Using Your Phone With a Hearing Aid Device

Your phone has been tested for hearing aid device compatibility. When some wireless phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated will have the rating on the box. **Your M1 has an M4 rating.**

## Note:

Phones rated M3 or M4 meet FCC requirements and may generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

The M3/M4 ratings do not guarantee successful interoperation between your phone and hearing aid device. Results will vary depending on the level of immunity of your hearing device and degree of your hearing loss.

The more immune your hearing aid device is, the less likely you are to experience interference noise from your wireless phone. Hearing aid devices should have ratings similar to phones. Ask your hearing healthcare professional for the rating of your aids. Most new hearing aids have at least an M2 immunity level. Add the "M" ratings of your hearing aid and your phone to determine probable usability:

- Any combined rating equal to or greater than six offers best use.
- Any combined rating equal to five is considered normal use.
- Any combined rating equal to four is considered usable.

Thus, if you pair an M3 hearing aid with an M3 phone, you will have a combined rating of six for "best use."

Qwest further suggests that you experiment with multiple phones (even those not labeled M3 or M4) while in the store to find the one that works best with your hearing aid device. Should you experience interference or find the quality of service unsatisfactory after purchasing your phone, promptly return it to the store where purchased for exchange or refund.

## Getting the Best Hearing Device Experience With Your Phone

To further minimize interference:

- There is usually less interference on the microphone setting than the telecoil setting.
- Set the phone's Display and Keypad backlight settings to ensure the minimum time interval:
  1. Select  > **Settings > Display > Backlight**.
  2. Select **Main LCD, Key**, or **Sub LCD** and press .
  3. Select the minimum time interval setting and press .
- Position the phone so the internal antenna is farthest from your hearing aid.
- Move the phone around to find the point with least interference.

## Caring for the Battery

### Protecting Your Battery

The guidelines listed below help you get the most out of your battery's performance.

- Recently there have been some public reports of wireless phone batteries overheating, catching fire or exploding. It appears that many, if not all, of these reports involve counterfeit or inexpensive, aftermarket-brand batteries with unknown or questionable manufacturing standards. Qwest is not aware of similar problems with Qwest phones resulting from the proper use of batteries and accessories approved by Qwest or the manufacturer of your phone. Use only Qwest-approved or manufacturer-approved batteries and accessories found through your phone's manufacturer or online at [www.qwest.com/accessories](http://www.qwest.com/accessories). Buying the right batteries and accessories is the best way to ensure they're genuine and safe.

- In order to avoid damage, charge the battery only in temperatures that range from 32° F to 113° F (0° C to 45° C).
- Don't use the battery charger in direct sunlight or in high humidity areas, such as the bathroom.
- Never dispose of the battery by incineration.
- Keep the metal contacts on top of the battery clean.
- Don't attempt to disassemble or short-circuit the battery.
- The battery may need recharging if it has not been used for a long period of time.
- It's best to replace the battery when it no longer provides acceptable performance. It can be recharged hundreds of times before it needs replacing.
- Don't store the battery in high temperature areas for long periods of time. It's best to follow these storage rules:

Less than one month:

-4° F to 140° F (-20° C to 60° C)

More than one month:

-4° F to 113° F (-20° C to 45° C)

## **Disposal of Lithium Ion (Li-Ion) Batteries**

For safe disposal options of your Li-Ion batteries, contact your nearest authorized service center.

**Special Note:** Be sure to dispose of your battery properly. In some areas, the disposal of batteries in household or business trash may be prohibited.

# Radiofrequency (RF) Energy

## Understanding How Your Phone Operates

Your phone is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radiofrequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.006 watt to 0.2 watt in digital mode.

## Knowing Radiofrequency Safety

The design of your phone complies with updated NCRP standards described below.

In 1991–92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation. In August 1996, the FCC adopted hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

## Body-Worn Operation

To maintain compliance with FCC RF exposure guidelines, if you wear a handset on your body, use the supplied or approved carrying case, holster or other body-worn accessory. If you do not use a body-worn accessory, ensure the antenna is at least 1.9 centimeters from your body when transmitting. Use of non-approved accessories may violate FCC RF exposure guidelines.

For more information about RF exposure, visit the FCC Web site at [www.fcc.gov](http://www.fcc.gov).

## Specific Absorption Rates (SAR) for Wireless Phones

The SAR is a value that corresponds to the relative amount of RF energy absorbed in the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a phone can be substantially less than the level reported to the FCC. This is because of a variety of factors including its proximity to a base station antenna, phone design and other factors. What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All phones must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model phones do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

The highest reported SAR values of the M1 are:

**Cellular CDMA mode (Part 22):**

Head: 0.711 W/kg; Body-worn: 0.472 W/kg

**PCS mode (Part 24):**

Head: 1.22 W/kg; Body-worn: 0.583 W/kg

## FCC Radiofrequency Emission

This phone meets the FCC Radiofrequency Emission Guidelines.

FCC ID number: AEZSCP-M1.

More information on the phone's SAR can be found from the following FCC Web site:

<http://www.fcc.gov/oet/fccid>.

## FCC Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the direction of the internal antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Owner's Record

---

The model number, regulatory number, and serial number are located on a nameplate inside the battery compartment. Record the serial number in the space provided below. This will be helpful if you need to contact us about your phone in the future.

Model: M1 by Sanyo®

Serial No.:

- 

**Your phone has been designed to provide you with reliable, worry-free service.** If for any reason you have a problem with your equipment, please refer to the manufacturer's warranty in this section.

For information regarding the terms and conditions of service for your phone, please visit [www.qwest.com](http://www.qwest.com) or call Qwest Wireless® Repair at 1-888-879-0611.

# Manufacturer's Warranty

---

## Manufacturer's Limited Warranty

**SANYO FISHER COMPANY** ("SANYO") offers you, the original purchaser who has purchased the enclosed subscriber unit ("Product") only from an authorized dealer in the United States, a limited warranty that the Product, including accessories in the Product's package, will be free from defects in material or workmanship as follows:

**A. ONE (1) YEAR LIMITED WARRANTY:** For a period of one (1) year from the date of original purchase, SANYO will, at its option, either repair or replace a defective Product (with new or rebuilt parts/replacements).

**B. LIMITED WARRANTY ON REPAIRED/REPLACED PRODUCTS:** For a period equal to the remainder of the limited warranty period on the original Product or, on warranty repairs which have been effected on Products for 90 days after the date of its repair or replacement, whichever is longer, SANYO will repair or replace (with new or rebuilt parts/replacements) defective parts or Products used in the repair or replacement of the original Product under the Limited Warranty on it.

Proof that the Product is within the warranty period in the form of a bill of sale or warranty repair document that includes the date of purchase, Product serial number and the authorized dealer's name and address, must be presented to obtain warranty service. This limited warranty is not transferable to any third party, including but not limited to any subsequent purchaser or owner of the Product. Transfer or resale of a Product will automatically terminate warranty coverage with respect to it.

This limited warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks. Also this limited warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by SANYO for charging the battery, (ii) any of the seals on the battery are broken or show evidence of tampering, or (iii) the battery has been used in equipment other than the SANYO phone for which it is specified.

This limited warranty does not cover and is void with respect to the following: (i) Products which have been improperly installed, repaired, maintained or modified (including the antenna); (ii) Products which have been subjected to misuse (including Products used in conjunction with hardware electrically or mechanically incompatible or Products used with software, accessories, goods or ancillary or peripheral equipment not supplied or expressly authorized by SANYO for use), abuse, accident, physical damage, abnormal use or operation, improper handling or storage, neglect, exposure to fire, water or excessive moisture or dampness or extreme changes in climate or temperature, (iii) Products operated outside published maximum ratings; (iv) cosmetic damage; (v) Products on which warranty stickers or Product serial numbers have been removed, altered, or rendered illegible; (vi) customer instruction; (vii) cost of installation, set up, removal or reinstallation; (viii) signal reception problems (unless caused by defect in material or workmanship); (ix) damage the result of fire, flood, acts of God or other acts which are not the fault of SANYO and which the Product is not specified to tolerate, including damage caused by mishandling and blown fuses; (x) consumables (such as memory cards, fuses, etc.); or (xi) any Products which have been opened, repaired, modified or altered by anyone other than SANYO or a SANYO authorized service center.

This warranty is valid only in the United States.

**REPAIR OR REPLACEMENT, AS HEREINABOVE PROVIDED, IS YOUR SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THE LIMITED WARRANTY. SANYO SHALL HAVE NO LIABILITY FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO LOSS OF PROFITS, LOST SALES, LOSS OF DATA, LOSS OF USE OF THE PRODUCT, OR ANTICIPATED PROFITS ARISING OUT OF USE OR INABILITY TO USE ANY PRODUCT (FOR EXAMPLE, WASTED AIRTIME CHARGES DUE TO THE MALFUNCTION OF A PRODUCT). THIS WARRANTY DOES NOT COVER PRODUCTS SOLD "AS IS" OR "WITH ALL FAULTS". SANYO MAKES NO OTHER EXPRESS WARRANTY WITH RESPECT TO THE PRODUCTS. THE DURATION OF IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE IS LIMITED TO THE DURATION OF THIS EXPRESS WARRANTY.**

Some States do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may have other rights which vary from State to State.

To obtain warranty service, contact
